with impartiality and fidelity, are to view the grounds proposed for said road, and if they
view the same and any two of the actual viewers agree that there is occasion for such road,
they shall proceed to lay out the same agreeable to the desire of the petitioners, as may be, having
respect to the best ground for a road and the shortest distance, and in such manner as to do
least injury to private property, and state particularly whether they judge the same necessary
for a public or private road, together with a plot or draft of the same, with the courses and
distances and reference to the improvements through which it passes, and shall also procure
releases of damages from persons through whose lands said road may pass, or failing to
procure such releases, shall assess the same, if any sustained, and shall make report thereof
to the next Court of Quarter Sessions to be held for the said county, in which report they shall
