The above facts are agreed to by John B. Gates attorney for Lawrence Township and/or Lawrence Township Sewer District No. 8, plaintiff herein, with the exceptions noted and by Dan P. Arnold, attorney for the defendants herein. In the event that the Court or either if the parties, through their attorneys, feel that additional facts are necessary for proper disposition of this case, the same will either be agreed to by stipulation or a hearing will be had thereon. s/ John B. BY THE COURT, John A. Cherry, President Judge MARCH 10, 1972 ORDER, filed. NOW, March 10, 1972, hearing in the above matter is now scheduled for Wednesday, March 22, 1972 at 10:00 A.M. BY THE COURT, John A. Cherry, President Judge. MARCH 23, 1972 Transcript of Testimony taken before the Honorable John A. Cherry on March 22, 1972, lodged this date by Archie Hill, Prothonotary MAY 23, 1972 ORDER, filed. NOW, May 23, 1972 argument in the above matter is fixed for Monday June 5, 1972 at 9:30 A.M. BY THE COURT, John A. Cherry, President Judge JUNE 30, 1972, MEMORANDUM & ORDER, filed. The testimony in this case satisfied the Court that the arrangements and contract for use of the sewer and facilities, previously constructed and tapped into, prevents Lawrence Township from assessing the property of the defendant at this time. Right of way was granted by defendants for construction of the first sewer line, in return for which they received the right to (and did) tap that sewer line. At all times this right was recognized and payment of rental bills was made from that date forward. It would certainly be most unjust to now assess this property for the construction of the other line from which it receives no benefit whatsoever. Therefore, under all the circumstances of this case we declare that no assessment may now be made upon this property. Full and adequate service has been provided already. "An application thereof (assessment by foot frontage rule) which does not reflect an assessment according to benefits is in excess of legislative power . . . . Where statutes require assessments to be apportioned according benefits conferred on the property assessed of the improvements, an assessment made on a frontage basis merely without regard to benefits is invalid. . . . Where a property is first beneifted by a municipal improvement it is assessable therefor, but where is has once enjoyed the particular improvement, the property is not assessable for a second improvement of the same character". This quotation is from the case of Upper Moreland-Hatboro Joint Sewer Authority v. Pearson, 190 Pa. Super. 107; 152 A.2d 774. In view of the foregoing the Court enters the following ORDER NOW, June 30, 1972 it is hereby Ordered that the Municipal Lien heretofore entered against defendants be and it is hereby Ordered to be stricked. Opinion shall be filed only in the event of appeal. JUNE 30, 1972 - STRICKEN BY ORDER OF COURT

The Commonwealth appeals from the decision of the Workmen's Compensation Board which awarded compensation to claimant, coal miner for some twenty-eight years whose disability from silicosis commenced December 12, 1962. Notice of disability was given January 4, 1963 and the claim petition filed January 14th of the same year. Hearings and arguments have extended the matter to the present time without conclusion. The Board's decision reversed the Referee who had disallowed it on the basis that claimant was not totally and permanently disabled, although having found that there was existent a degree of anthraco silicosis which was the result of his employment in an anthraco-silico hazardous occupation. The basis of this appeal by the Commonwealth (the sole party responsible because of cumulative occupations of that nature over a twenty-eight year period) are that (1) there was not sufficient credible evidence to establish that claimant is totally and permanently disabled from a silicosis, and (2) that the Board capriciously and arbitrarily disregarded the evidence. After the claimant had testified to his disability there was read into the record without objection by anyone the medical report of Dr. Joel Goldman, who had X-rayed him on November 1, 1962 and examined him on December 12, 1962. In addition to setting forth a long exposure to silica hazard as a coal miner, the report declared that the X-rays and examination revealed that claimant suffered from silicosis which had made him totally and permanently disabled. Thereafter, the Commonwealth read into the record, again without objection, the medical report of Dr. Roger L. Hughes, who declared that claimant was not totally disabled and that he does not have anthraco silicosis. However, contained in Dr. Hughes' report was the X-ray report of Dr. Gilmore which declared that the lungs showed a "fibrosis suggesting early second stage pneumoconisosis with toxic dust exposure, collagen disease, or fibrosis or unknown origin". The Commonwealth having requested appointment of an impartial physician, Dr. Morton J. Earley examined him; and this doctor testified that he had reviewed the other two medical reports. He then proceeded to read his report, which gave as his opinion that the claimant suffered from silicosis but that he was not totally and permanently disabled. However, he further testified that since making that report he had examined the report of oxygen tests and altered his opinion to the effect that there is "Partial disablitity - selective work"; that he "would not recommend" claimant's working in a silica hazard, and that claimant is not capable of steady exertion. We cannot but affirm the order and decision of the Board. The Superior Court in DESIDERIO VS. PENN FRUIT CO., INC., 207 Pa. Superior Ct. 468, at 470, in an opinion by Judge Wright held: "The extent of physical disability is a complex factual matter dependent upon many variables, and the determination of this question is within the province of the compensation authorities, as is also the question of the credibility of the witnesses and the weight of their testimony.... on appeal from an order of the Board the question before the Court is whether there was sufficient competent evidence to support the findings of the Board." Applying this principle and reviewing the testimony as a whole there is no doubt that there was "sufficient competent evidence to support the findings of the Board" in this case. Particularly apropos to the facts in the instant case, and a determination of whether the Board was correct in its decision, are the declarations in the case of UNORA VS. GLEN ALDEN COAL COMPANY, 377 Pa. 7, where Justice Musmanno declared: "A physician studying, on an anatomical chart, the malady of his patient in correlation to unaffected organs and members may well conclude that the subject is only partially disabled. That same doctor could, however, come to a different conclusion if he saw the patient in the depths of a coal mine laden with heavy equipment, bent under a low ceiling, coughing from bad ventilation adn slipping from insecure footing. It is obvious that a one-legged man is only partially disabled at a desk addressing envelopes but entirely hors de combat in a quarry carrying blocks of stone. Thus, the determination of total disability is one which requires a consideration and weighing (in addition to the anatomical facts) of such factors as the claimant's mental outlook, his industrial background, his education, the occupation, if any, he could perform where his particular physical impairment would not be a total bar, and whether such work exists. Where the injured person can handle only a specially-created job, one light of effort CONTINUED ON PAGE 162

Place the above captioned case on the next argument list. s/ Dan P. Arnold, Atty for Deft.

JULY 1, 1966, ORDER, filed.

This matter having come for argument upon Preliminary Objections to the Complaint filed in the matter, the Court finds that paragraphs 4 and 5 of the first cause of action are vague and indefinite in that they do not identify for the defendants sufficiently, the causative matters leading to plaintiff wife's fall, and thus do not inform the defendants of what factors they will be called upon to meet at trial. Therefore, preliminary objection to paragraphs 4 and 5 is sustained and the plaintiffs are directed to so amend the same as to declare the basic matters of negligence upon which the action is intended to be based.

Paragraph 9 of the second cause of action is deficient in that it does not set forth with specific names and amounts, the various sums claimed for medical and hospital attention. However, both of counsel have agreed that these matters will be specifically presented at pretrial conference and the Court therefore, does not act thereon.

The Preliminary Objection entered to paragraph 10 of the second cause of action is not sustained, for these are matters which must be presented for the consideration of the jury with appropriate instructions by the Court as to their effect.

In view of the foregoing it is hereby ORDERED that the Complaint be so amended as to comply with the findings and Order above stated with respect to Paragraphs 4 and 5 of the first cause of action. Said Amended Complaint to be filed within twenty days from the date of the within Order, namely: July 21, 1966. BY THE COURT John A. Cherry, Pres. Judge

CONTINUED FROM PAGE 27 - NO. 81 FEBRUARY TERM, 1965 MAPLE HILL COAL CO. -vs- PENNA. ELECTRIC

Findings of Fact and Conslusions of Law and to the Award, and any award reached by the Arbitrator would be in the nature of a decree nisi. Accordingly, and in order to avoid the imputation of pre-emptive action, all parties agreeing, the Arbitrator agreed to accept exceptions to his findings of fact and conclustions of law, and the date for filing such exceptions was fixed for the 26th day of February, 1966, and argument for March 2, 1966.

Counsel for Defendant filed Exceptions, to which Plaintiff filed its Exceptions, and argument was accordingly held March 2, 1966.

After considering argument and exceptions, the Arbitrator makes the following, as a Final Award and F inding of Fact, disposing of the Exceptions of the Defendant, as set forth hereinafter.

FINDINGS OF FACT

The Findings will be restated in full as follows:

(1). In this action of Assumpsit, Maple Hill Coal Company, a Pennsylvania corporation with place of business in the Borough of Clearfield, Clearfield County, Pennsylvania, is the Plaintiff, and Pennsylvania Electric Company, a corporation under the Laws of the Commonwealth of Pennsylvania, maintaining a business office in the Borough of Clearfield, Clearfield County, Pennsylvania, and an electrical generating plant located in the Village of Shawville, Clearfield County, Pennsylvania, is the Defendant.

(2). Plaintiff and Defendant entered into a written agreement by virtue of which the Plaintiff was to furnish and deliver coal to Defendant at its generating plant at Shawville, aforesaid, for use in the generating plant of Defendant.

(3). The dispute in this action is over the amount of payment due Plaintiff for coal furnished to Defendant during the month of November, 1963.

(4). The Fourth Finding of Fact, to which Exception was filed, is restated as follows:- The contract between the parties provides that under Section 5.02, coal will be paid for on a BTU basis, after analysis, on "as received basis", beginning after Unit No. 3 of the Buyer was placed in operation, which was in June of 1963. Payment on the BTU basis, as set forth in Subsection (b), is as follows:

"Coal having a calorific value of 13,000 to 14,000 - 17.225¢ per million BTU's.
"Coal having a calorific value of 12,500 to 12,999 - 16,725¢ per million BTU's.
"Coal having a calorific value of 12,000 to 12,499 - 12.225¢ per million BTU's.
"Coal having a calorific value of 11,500 to 11,999 - 7.225¢ per million BTU's.

(5). The exception of Defendant to Arbitrator's Finding of Fact 5 is well taken, and in lieu of a summary of Section 6.03 of the contract, such Section is set forth hereinafter in full as follows:

"6.03 SAMPLING AND ANALYSES

The coal shall be sampled by the Buyer on arrival at the Shawville Station. An automatic sampling device shall be used to acquire a representative sample of each days' delivery. One-half of each days' sample shall be available to the Seller and shall be called for daily or at not more than weekly intervals. The Buyer shall at his expense and in his laboratory, located at this Shawville Station, determine the analytical quality of the coal delivered daily. The sampling and methods of determining the analysis shall be in compliance with the American Society for Testing Materials methods or by such method as may be agreed upon by Buyer and Seller. Seller shall have the right at any time to have a representative present to observe the sampling of his coal.

The results of the sampling and analysis determined by the Buyer shall be accepted as the quality and characteristics of the coal delivered hereunder, provided, however, that if Seller should at any time question the correctness of the analysis made by Buyer and Seller's question is based on the results of his own laboratory analysis made of Seller's portion of Buyer's sample furnished him, and for the same sampling period. Seller shall have the right to request that a third mutually chosen commercial laboratory be used as a referee for a period of not less than one month, and the results of such analysis shall be accepted as the quality and characteristics of the coal delivered hereunder. If the analysis performed by such approved commercial laboratory show the calorific value of the coal to be 100 BTU's per pound more than is shown by the analysis of the same coal made by Buyer in his laboratory, Buyer shall pay the charges agreed upon for such testing laboratory, otherwise Seller shall pay such charges.

Buyer shall upon the day after such analysis, except on weekends, furnish Seller with a report showing the quality and characteristics of the coal disclosed by each analysis made by Buyer, and the quantity of coal represented by such analysis."

(6). Exception to Finding of Fact 6 is not pertinent, except on the basis of semantics, and is refused. In fact, No. 6 is restated as follows:- During the monthe of August, 1963, Plaintiff demanded, and Defendant agreed, that the Warner Laboratories of Cresson, Pennsylvania analyze the coal for the month of August, which analyses of the Warner Laboratories indicated on "as received basis", BTU's of 12.578 per pound as against BTU's of Defendant's laboratory of 12.592.

(7). Defendant's Exception to Finding of Fact 7 is considered, and Finding of Fact 7 is restated to conform to the evidence as follows:- The Plaintiff, as shown by the Record, Page 8, testimony of Alan R. Davidson, did on December 5, 1963, verbally advise the Defendant that the Plaintiff desired the samples of coal furnished in November be forwarded to Warner Laboratories. Not until December 12th as written request made for sending of the November samples to Warner Laboratories.

(8). Findings of Fact 8 is restated as follows:- Plaintiff had furnished portions of its samples as received from Defendant to Warner Laboratories for the month of November, 1963. Plaintiff's laboratory showed the BTU value of the coal at 12.620; the Warner Laboratories showed the BTU value of the coal at 12.641; while Defendant laboratory showed BTU's of 12.476.

(9). Finding of Fact 9 is restated as follows:- Plaintiff made a request on December 5th that a referee laboratory analyze December coal and the Warner Laboratories of Cresson was agreed upon as a neutral laboratory.

(10). Finding of Fact 10 is restated as follows:- The coal analyses for the month of December showed in Defendant's laboratory BTU's of 12.553, while the Warner Laboratories showed BTU's of 12.546.

(11). Finding of Fact 11 is restated a s follows:- Plaintiff demanded payment on BTU basis of 12.641, Warner Laboratories' findings, at the rate of 16.752¢ per million BTU's, or a total sum of $67,347.73.

(12). Finding of Fact 12 is restated as follows:- Defendant refused to accept the Warner Laboratories analyses for the November, 1963 shipment, and paid to Plaintiff the sum of $48,585.08, being the amount it claimed due on the BTU basis found bu its laboratory of 12.476 BTU's and payable at the rate of 12.225¢ per million BTU's.

(13). Finding of Fact 13 is restated as follows:- The difference between the amount claimed by the Plaintiff and the amount admitted due by the Defendant is $18,762.65, being the amount claimed by the Plaintiff as yet due from the Defendant.

(14). Defendant's exception to Finding of Fact 14 may require explanation, and Fact 14 is restated as follows:- Detailed testimony was taken concerning the methods of carrying on the coal analyses by the three agencies - namely, Defendant in its laboratory at Shawville, the Penn Central Laboratory at Bigler used by the Plaintiff regularly, and the Warner Laboratories of Cresson, Pennsylvania. In making the November analyses, each agency followed the methods approved by the A.S.T.M., and each used its own equipment in making all November analyses as they had used in making the August analyses and the subsequent December analyses.

(15). Finding of Fact 15 is restated as follows:- Defendant asserted that the portion of the November samples retained by it were unfit for analyses after the demand made December 5th.

(16). Finding of Fact 16 is restated as follows: Warner Laboratories, a neutral agency used before by the parties, testified through its chief executive, Charles L. Warner, that the remainder of the samples taken by Defendant in November would be fit and adequate for analyses, and that the samples would retain the same quality on "an as received basis" for a period of 60 days.

(17). Finding of Fact 17 is restated as follows:- The analyses made by Warner Laboratories of the November shipments showing BTU's of 12.641 is acceptable as the correct analyses and the Arbitrator so finds.

CONTINUED ON PAGE 384

CONTINUED FROM PAGE 383 - NO. 81 FEBRUARY TERM, 1965 MAPLE HILL COAL CO. -vs- PENNA. ELECTRIC

(18). Finding of Fact 18 is restated as follows:- The results of the analyses of August, 1963 and December 1963, indicate both Warner and the Defendant arrived at almost the same number of BTU's with a slight difference in August of 00.014 and in December of 00.007.

(19). Finding of Fact 19 is restated as follows:- The claim that the ashwas not properly calculated by Plaintiff's laboratory and Warner Laboratories is not borne out by the results shown on the analyses nor by the testimony of Penn Central Laboratory and Warner Laboratories.

(20). The method of analyzing coal for BTU's contemplated removing and calculating the moisture in each sample, and after a sample was dried, then tested in a calorimeter for BTU's. The chemist then calculated the BTU's, considering the content of moisture as already ascertained.

(21). The difference in the BTU's ascertained by Plaintiff's laboratories, Penn Central and Warner, and the Defendant's laboratory, is claimed by the Defendant to be because Plaintiff's analyses did not contain the moisture. Penn Central and Warner Laboratories both calculated the ascertained moisture in the samples in arriving at the BTU's, as set forth by them in Fact No. 8.

DISCUSSION

The Defendant contended that the requests on either December 5th or December 12th, 1963, after completion of coal shipments for the month of November, were not allowable under the terms of the contract, Section 6.03.

Section 6.03 of the contract is not ambiguous. The BTU analysis as a basis for payment of the coal began in June of 1963. Before the August coal was shipped, the Plaintiff requested analyses. The same was true before coal was shipped in December.

A request for analysis of the November coal, after the shipment, was not precluded by the contract. There is no provision fixing at what date the Plaintiff must request a neutral analyzing agency. The Plaintiff had no way of knowing what the analyses of any coal would be in future shipments. The Plaintiff could not tell whether or not it had received correct analyses for the coal already shipped without having that coal analyzed by itself or its neutral laboratory. In terms of Paragraph 6.03, the only advantage in having the Defendant agree to a neutral analyzing agency would be to make such analyses of such neutral agency binding on both parties. Not until the coal had been shipped and analyzed would the Plaintiff be able to determine whether or not it was getting a correct analysis.

All other exceptions other than those to the 4th, 5th and 6th Finding of Fact filed by the Defendant are refused. All exceptions to the Arbitrators's refusal to find facts submitted by the Defendant in its Requests for Findings of Fact and Conclusions of Lae, are dismissed.

CONCLUSIONS OF LAW

The Arbitrator reaches the same Conclusions of Law which are restated as follows:-

(1). Plaintiff under the terms of the contract in Section 6.03 would have the right to demand, if dissatisfied, a neutral laboratory analyze the coal, whether the demand was made at the beginning of a month's shipment or at the end of a month's shipment, there being nothing in the contract to limit the time when such demand be made, so long as samples of coal taken are available from which a proper analysis could be made, and there is no evidence in this action that the remainder of the November samples taken could not be submitted to Warner Laboratories.

(2). The refusal of the Defendant to agree to the neutral laboratory, Warner Laboratories of Cresson, Pennsylvania, was based upon reasons not supported by facts.

FINAL AWARD

NOW, the 15th day of March, 1966, the Arbitrator finds in favor of the Plaintiff in the sum of $18,762.65, with interest form December 20, 1963, in the sum of $2,251.50, or a total of, debt and interest, $21,014.15, and judgment for the same be entered by the Prothonotary of Clearfield County in favor of Maple Hill Coal Company andagainst Pennsylvania Electrie Company. s/ John J. BY THE COURT, John A. Cherry, President Judge.

APRIL 18, 1967, MEMORANDUM AND ORDER, filed.
Plaintiff has filed exceptions to the report of the Master which recommended that a divorce be refused. The Court has reviewed all of the testimony and considered the arguments of both sides, with the conclusion that there is no basis upon which the exceptions can be sustained. The evidence is not only insufficient to sustain the allegations that the defendant was guilty of indignities to the person of the Plaintiff (as declared by the Statute and the cases); but was also sufficient to found a determination that plaintiff was not an innocent and injured. spouse. Basically also, the Master, who heard and viewed the witnesses, chose to believe defendant's testimony; and we find no basis for rejecting his findings. Among other arguments, the plaintiff objects that proof was admitted as to acts of the plaintiff amounting to adultery; but this proof was accompanied with credible evidence that such activities had been engaged in for a period prior to and after the separation of the parties. Under the decisional law, such proof is not only competent but is relevant and material to the case. Although opinion will be filed in the event of an appeal, the Court has satisfied itself that under the facts and the applicable law, it must enter the following:

			April 7, 1966, OPINION, filed. On November 4, 1960, the petitioner was arrested and taken before a Justice of the Peace where he was charged with burglary and larceny. Unable to furnish bail, he was committed to the Clearfield County Jail; and thereafter entered a plea of guilty on November 16, 1960. Stamped upon the indictment was the statement that he had been advised of his right to counsel, but waived such right. This, of course, has been deemed to be insufficient to sustain the actual fact of his having been so advised. On this cahrge, he was sentenced and committed to the Pennsylvania Industrial School at Camp Hill; and thereafter was paroled on August 9, 1962. While on parole, and on July 19, 1963, he was again arrested and charged on two counts of burglary and larceny; was taken before the Justice of the Peace on July 24, 1963 where he entered a plea of guilty. At this time he was being held in the Elk County Jail on another charge. The Court does not deem it necessary in the course of this opinion to refer to the Constitutional provisions or the cases which have interpreted such provisions; this being solely a case of fact as to whether or not (1) this petitioner was denied counsel at any critical stage of the proceedings, and (2) whether he had been fully advised of his rights to such counsel and had knowledgeable waived such right. Upon petition filed, this Court considered all matters, after full hearing, and is left without any doubt whatsoever that the allegations of the petitioner are without foundation. The petition, it would appear, provides as petitioner's sole complaint, that he was refused counsel which he requested to obtain at his own expense, both during interrogation and at all proceedings thereafter. This Court is satisfied that these reasons have been created by the petitioner solely in the belief that he would be brought within the pronouncement of the recent cases decided by our Courts as well as the United States Supreme Court; an examination of the record as well as the testimony fully establishes that there is no basis in fact or law for his contentions. Beyond peradventrue, the proof establishes that he was fully advised of his rights to counsel and chose not to proceed with an attorney at any stage of the proceedings. In so far as his right to counsel at the time of interrogation is concerned, this Court finds that this was not such a critical stage of the proceedings; that even if he had not been advised of his right to counsel he would have any just cause to complain. This interrogation was had at the time of his arrest and within such a short time threafter, that there is no question that the matter was in investigation rather than in accusation of this petitioner. Conclusive too, is the fact that the cases of Gideon vs. Wainwright, and cases following, certainly do not apply because the petitioner's sole complaint seems to be that he had been denied his request for right to be represented by counsel at his own expense, rather than to raise any question concerning a knowledgeable waiver of the right to any counsel.

8. Section 511 (10) of the Eminent Domain Code provides that the Board of Viewers may, in their report, make comment on such other matters as they deem relevant. It is the opinion of the Board of View that the present intersection of Pennsylvania Route 313 and 668 has been left in a condition, following the construction work at the intersection, that constitutes an eye sore. The Board of View respectfully suggest that the Pennsylvania Department of Highways should earth fill and install the necessary drainage pipes, catch basins and man holes to eliminate a traffic hazzard at an irregular triangular shape piece of land between Pennsylvania Route 313 and Route 668. The top of this fill should be a gradual slope from the existent berm fills at Route 313 and Route 668 to the existing ground level of the west property line of Leroy Thompson and Isabel Thompson, which is also the east right of way line of the Pennsylvania Department of Highways. The top of the fill area should be cultivated, grass seeded and planted with evergreen trees and shrubs, in such a manner as to beautify the area.

9. As provided in the Eminent Domain Code Section 513, ten days notice before the filing of this report has been given to the attorneys of record. Attached hereunto is a copy of a letter to said attorneys which letter included a copy of this report.

All of which is respectfully submitted. Signed L. E. Soult, Jr., Roland Bechtel and Ernest Baum.
