in		
Beccaria Township		

To the Honorable Allison O. Smith, President Judge of the said Court:

The petition of the undersigned citizens of the Township of Beccaria, and the Borough of Coalport, in said county, respectfully represents:-

That a petition was presented to your Honorable Court, on Sep 22nd, 1910, praying for a view on a proposed public road from the end of Mill Street in the Borough of Coalport to a point where Union Street in the village of Rose Bud intersects the public road leading from Blain City to Irvona; that thereupon the Court appointed J.S. McCreery, P.B. Zentmyer and D.R. Fullerton, viewers, who filed their report in due form recommending the opening of said road for public use, which finding and report was duly confirmed absolutely, by the Court, at the February Session of said Court, 1911; and the opening order was issued on the 27th day of February, 1911, the said opening order lodged with the Supervisors of said Township of Beccaria, in which the whole of said road lies, and due notice given to all of the supervisors of the issue of said opening order, at or near that time.

That a petition had been presented to your Honorable Court to No 3 Dec Sessions 1910, praying for a public Bridge over Clearfield Creek, at the lower end of Mill Street in the Borough of Coalport, in said county, which would be at the end of this proposed public road, which was finally approved by the viewers, the Court and the County Commissioners together with two Grand Juries, and a contract let for said bridge, in due and legal form, by the County Commissioners, on Sep 23rd 1911, to J.A. Lord, who complied with all conditions and legal requirements and is now en-

gaged in the construction of said bridge.

That the Supervisors, of Peccaria Township, William Gates, L.Z.Nevling and N.S.Lyle, after a long delay, opened that part of said proposed public road along the line of Union Street in the village of Rose Bud, but have neglected and refused to complete the opening of said road by ^{re}constructing that portion between Union Street and the end of Mill Street, at the point where said public bridge is being erected , and to the repeated notices and requests of those interested in the opening of the same, have refused and neglected to obey the order of your Honorable Court and open the same. That the expense of the same will be small and there is no reason why it should not be opened at once, and that the failure to open the same is seriously interfering with the building of the bridge, which is much needed for public use.

Your petitioners would therefore pray the Court that an attachemnt be issued for the said William Gates, L.Z.Nevling and N.S.Lyle, and they will ever pray &c

IN THE COURT OF QUARTER SESSIONS OF CLEARFIELD COUNTY, PENNA.

In Re- Public Road)
) No. 4 December Sessions 1910.
in Beccaria Township.)

The answer of William Gates, L. G. Neveling and M. S. Lyle, supervisors of Beccaria Township to the petition for attachment issued in this case respectfully represents:-

First:- That this proceeding is oppressive and designed for the purpose of accumulating costs and expense and was presented without notice to the respondents or their attorneys, it being well known to the petitioners that respondents were represented by counsel residing in Clearfield.

Second:- That at the time the petition in this proceeding was presented praying for public road a petition was presented praying for public bridge at the lower end of Mill Street in Coalport Borough which would be at the end of the proposed public road and which proceeding was for a long time under consideration by the various authorities having jurisdiction thereof.

Third:- That at the time the opening order for this road issued there was no means of crossing Clearfield Creek at the location proposed and the construction of the road until the question of the construction of the bridge was finally settled was utterly useless. That the respondents and their counsel conferred with the County Commissioners and informed them of the readiness of the supervisors to construct the road, if the proceedings for public bridge were approved, and when informed that the commissioners had finally approved the construction of the bridge proceeded to open the said public road, and opened the proposed public road along the line of the Union Street. That from the corner of Peck lot near the Blain Run Colliery which road extends

178 feet to Railroad sidings, thence another one hundred feet to railroad siding; thence 173 feet to the Main line of the P. R. R., running from ^{Crosson} Bellwood to ^{Irona} Punxsutawney; thence 276 feet to the bank of the Creek and the opening of said road and travel across the said railroad tracks and to the bank of the creek was not only useless but dangerous and incurred the risk of subjecting the Township to damages and travellers to injury.

That crossings have not yet been constructed at the points where the said road crosses the said railroad sidings and track, and even if constructed there is no legitimate travel which could exist upon said road until the construction of said bridge, as the said road does not connect with any other road between Union Street and Mill Street.

That the respondents are informed by the contractors for the construction of said bridge, that the bridge will not be ready for travel for about two months and were further informed by the said contractor that he would not use the said road in the building of the said bridge as his materials and equipment would be handled from the Coalport side.

That the said bridge is located a very short distance from the bridge across Clearfield creek at Blain City, and this whole proceeding is much more designed for the use, benefit of the few individuals than the use of the general public.

That the respondents at the time the petition was presented were engaged in working upon the opening and construction of the said road, and were so engaged when the rule for attachment was served upon them, all of which was known to the petitioners or some of them.

That the averment in said petition that the failure to open the road is seriously interfering with the building of the bridge is untrue.

That your petitioners are neither refusing nor neglecting to obey the opening order but would have said road in proper condition for public use whenever the same can be used in connection with the bridge being constructed but deny that there is any duty imposed upon them to render said road a place of danger to the public and of liability to the Township.

They, therefore, pray that the rule issued be discharged at the costs of the petitioners.
