TO THE HONORABLE THE JUDGE WITHIN NAMED.

We the undersigned viewers, appointed by the Court to view the location of the proposed bridge in the within order mentioned, respectfully report; that having given due legal notice to the County Commissioners and the Supervisors of Sandy Township of the time and place of meeting as per copy of said notices hereto attached as part of this report, as also to the public by four written and printed notices posted up along the public road at and near the location of said proposed bridge, stating the time and place of meeting; met at the time and place fixed in said notices, to wit at the location of the said proposed bridge, <sup>where the public road leading from Onzoot to Benfield crosses Narrows Creek</sup> on Thursday April 9th 1914 at 2 oclock P M, and having been first severly sworn or affirmed, and in persuance of said order, viewed the premises aforesaid, and respectfully report: That we found a good iron structure or bridge across the Creek known as Narrows Creek at the site of the proposed new bridge all except the roadway and the east end butment in good condition and will last at least twenty years or more; and would therefore recomend, that if upon a thorough investigation it is ascertained that the present iron bridge is of sufficient strength to carry the additional weight, that it be repaired with iron eyebeam girders and reinforced concrete roadway, using the present iron structure. And if not of sufficient strength to support the concrete roadway, that the bottom or roadway be of Creosote wood blocks, supported by iron eyebeam girters.

The east end butment which is seriously undermined by water and in bad shape, we recomend, be taken down and rebuild, or in case the foundation is all right, be underpinned and faced with cement.

In case a new bridge is build the span can be reduced to a forty (40) foot span. The Arch reinforced monolithic concrete, with a clearence of ten feet at the spring of the arch above low water.

And that in either the change and repair of said bridge as suggested, or the erection of a new bridge, that the same will be attended with more expense than it is reasonable that said Township of Sandy should bear and would therefore recomend that the expense of same be equally divided between Sandy Township and the County.

Witness our hands this the 28th day of April A D 1914.
