RETURN, OF, VIEWERS

To the Honorable, the Judge of the Court of Quarter Sessions of the Peace in and for the County of Clearfield Pa:-

We the undersigned viewers, duly appointed by your Honorable Court by the foregoing order, from and among the County Board of viewers who have been duly appointed by your Honorable Court, and have filed their oaths of office in the Court of Common Pleas of Clearfield County Pa; beg leave to report as follows.

That notice of the time of the view was duly served according to law, upon the County Commissioners of Clearfield County Pa and on each member of the board of Supervisors of Beccaria and Gulich Townships, and that three notices thereof were posted along the public road in each of said townships, at and near the location of said bridge, giving notice of the time and place of the view, and that the view was made on wednesday the first (1) day of September A. D. 1915 at nine (9) oclock A. M at the location of said bridge, being the time and place appointed for the making of the view, and that there were present at the view, N S Lyle, Thomas Dawson, and B S Oshall the Supervisors of Beccaria Township and George Hart, John W Miller and George Burkholder the Supervisors of Gulich Township with several citizens of Gulich and Beccaria Townships all in favor of the bridge; and the viewers all being present and after having made the view do agree that there is a necessity for a new bridge across big Muddy Run where the public road leading from the village of Utahville in Beccaria Township to a point in the public road leading from the village of Beccaria in Beccaria Township to the village of Janesville in Gulich Township crosses said run; to replace the old wooden structure now there ~~which~~ which is in an unsafe and dilapidated condition on account of the timbers being rotten and the abutments which are constructed of logs about ready to tumble down. They would therefore recomend, that a one span Concrete Bridge, thirty (30) feet in length with a roadway sixteen (16) feet in width, with Concrete Abutments, seven (7) feet in highth above low water mark be erected at said point:- And as in the opinion of the viewers the cost or expense of the erection of said bridge will be about sixteen (\$1600.00) hundred dollars; and as said amount would in the opinion of the viewers owing to the financial conditions of the said townships be to heavy and burdensome upon the said townships to bear, they therefore recomend that one half of the cost or expense of the erection of said bridge be paid by the County and one fourth by the Township of Beccaria and the remaining one fourth by the Township of Gulich.

Witness our hands and seals this the first day of Sept A. D. 1915
