1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The population of the United States has increased from about 100 million in 1900 to over 200 million in 1950. At the same time, the population of rural areas has decreased from about 100 million in 1900 to about 50 million in 1950. This has led to a concentration of the population in urban areas, which has had a profound effect on the economy and society.

feet to a post; thence North 77° degrees West 300 feet to a post; thence North 75° degrees West 100 feet to a post; thence North 55° degrees West 200 feet to a post; thence North 74° degrees West 200 feet and ending at a point on public road near Pleasant Valley Orchard Farm. That the public road aforesaid traverses a barren country hillside, with no inhabitants and dangerous for public travel: and therefore recommended for vacation.

Fifth:- Beginning at a point on public road leading from Pleasant Valley Church to Egypt via Graham Fording, at or near the residence of John Graham; thence North 21° degrees East 440 feet to post; thence North 12° degrees East 100 feet to a post; thence North 20° degrees 30 minutes East 200 feet to a post; thence North 17° degrees 30 minutes East 600 feet to a post; thence North 17° degrees East 400 feet to a post; thence North 27° degrees 30 minutes East 100 feet to a post; thence North 14° degrees East 100 feet to a post; thence North 9° degrees East 300 feet to a post; thence North 2° degrees West 100 feet to a post; thence North 28° degrees West 200 feet to a post; thence North 49° degrees West 150 feet to a post; thence North 20° degrees 30 minutes West 50 feet to a post; thence North 7° degrees East 200 feet to a post; thence North 23° degrees East 100 feet to a post; thence North 50° degrees East 50 feet to a post; thence North 28° degrees East 50 feet to a post; thence North 28° degrees West 100 feet to a post; thence North 60° degrees West 100 feet to a post; thence North 59° degrees West 200 feet to a post; thence North 58° degrees West 50 feet to a post; thence North 8° degrees West 50 feet to a post; thence North 26° degrees East 100 feet to a post; thence North 37° degrees 30 minutes East 200 feet to a post; thence North 8° degrees East 400 feet to a post; thence North 28° degrees West 100 feet and ending at Gaines Fording. That the aforesaid Road leads down into the river and over a 20% grade, that for a distance of 1640 feet from the beginning it passes over and through the cultivated and timber-land of John C. Graham and for the remainder of its distance passes through wooded land which is uninhabited, and the Road therefore serves no public benefit and is recommended for vacation.

North 63 degrees West 200 feet to a post; thence North 51 degrees 30 minutes West 300 feet to a post; thence North 58 degrees West 400 feet to a post; thence North 73 degrees West 500 feet to a post and thence North 80 degrees West 128 feet and ending at the Graham Township line. That said road has long since been abandoned and now in disuse and in dangerous condition, and recommended for vacation.

Third: Beginning at a point on public road leading from Bigler to Shiloh, at or near the residence of Ed. Williams; thence North 90 degrees East 1138 feet to a post; thence North 90 degrees East 262 feet to a post; thence North 15 degrees East 1100 feet to a post; thence North 11 degrees East 1800 feet and ending at a point in the public road leading from Bigler to Shiloh, near the residence of David Williams. That this road is a short cut across the hill in the Bigler to Shiloh road, drifts and becomes impassable in winter weather, whereas the long road is in constant use and serves as the U. S. Mail Route. We therefore recommend the vacation of this "short-cut" road.

Fourth:- Beginning at a point on public road leading from Woodland to Shiloh near the residence of Lloyd Hoover; thence North 27 degrees West 200 feet to a post; thence North 14 degrees 30 minutes West 100 feet to a post; thence North 2 degrees East 200 feet to a post; thence North 15 degrees West 100 feet to a post; thence North 24 degrees West 200 feet to a post; thence North 35 degrees West 100 feet to a post; thence North 50 degrees West 100 feet to a post; thence North 77 degrees West 200 feet to a post; thence North 69 degrees West 200 feet to a post; thence North 55 degrees West 100 feet to a post; thence North 42 degrees West 400 feet to a post; thence North 36 degrees West 100 feet to a post; thence North 23 degrees 30 minutes West 100 feet to a post; thence North 13 degrees West 200 feet to a post; thence North 31 degrees West 200 feet to a post; thence North 53 degrees West 200 feet to a post; thence North 61 degrees 30 minutes West 100 feet to a post; thence North 12 degrees West 200 feet to a post; thence South 81 degrees West 100 feet to a post; thence North 89 degrees 58 minutes West 100 feet to a post; thence North 73 degrees West 100 feet to a post; thence North 71 degrees West 800 feet to a post; thence North 72 degrees West 600 feet to a post; and that a plan, or draft, of said road to be vacated showing the courses and distances, and over whose property the said road passes, is hereto attached and made a part hereof.

The undersigned Viewers further report that they endeavored to procure from all parties affected by the vacation of said road, or over whose properties said road passes, or in any way damaged by the vacation of said road, a release in writing of all claims to damages that may arise from the vacation thereof, and that they procured such release from:

And that the following persons having, in the opinion of the Viewers, been damaged by the vacation of said road, and having refused to release the damages to which they may be respectively entitled to by reason of the vacation, and closing up of the said road, we, the undersigned Viewers, after having considered the advantages to be derived to them, do assess them damages and make report thereof, as follows:

No damages claimed or assessed.

and we herewith return releases obtained, and copy of the notices.
