BOND

KNOW ALL MEN BY THESE PRESENTS, that the Declaration of Taking having
been filed the 11th day of AUGUST, 2000, by the Cooper Township Municipal
Authority, ("obligor") a body politic and corporate organized and existing under the laws of the
Commonwealth of Pennsylvania ("obligee") for the use and benefit of the owners of the property
condemned as hereinafter noted, and other proper parties in interest, for such amount of damage
as the owner of the property and other parties in interest shall be entitled to receive after the same
shall have been agreed upon or assessed in the manner prescribed by law, by reason of the
condemnation by obligor of certain land located in Cooper Township, Clearfield County,
Pennsylvania, and described as follows: [PROPERTY SHOWN IN THE ATTACHED PLAN,]
to which payment well and truly to be made, the obligor does bind itself and its successors, and
assigns, firmly by these presents.

WHEREAS, the obligor has condemned the said property and cannot agree with the
owner of said land upon the just compensation to be paid for the damages sustained by said
owner as a result of the condemnation:

NOW THE CONDITION of this bond is such that if the obligor shall pay or cause to be paid such amount of damages as the said owner of the property and other parties in interest shall be entitled to receive by reason of such condemnation, after the same shall have been agreed upon or assessed in the manner provided by law, then this obligation shall be void; otherwise, to be and remain in full force and effect.

SEALED with the corporate seal and duly executed this 20th day of July, 2000.

REPORT OF VIEWERS

TO: THE HONORABLE JOHN K. REILLY, JR.
PRESIDENT JUDGE OF SAID COURT

The undersigned Board of Viewers respectfully reports:

1. A Declaration of Taking by Petition of Cooper Township Municipal Authority, whose address is P. O. Box 446, Winburne, Clearfield County, Pa., was filed on June 1, 2000.
2. The purpose of the Condemnation is to secure land for a wastewater treatment system as more fully described in the Act 537 Plan approved March 31, 1997, as prepared by Hess & Fisher Engineers, Inc.
3. Said Declaration of Taking was authorized by Resolution of the Cooper Township Municipal Authority, approved April 11, 2000.
4. The Condemnation is authorized by 26 P.S. §1-101 et seq.
5. The Condemnee(s) are: **Beth Shimel, P. O. Box 116, Lanse, Pa.,**
16849.

6. The property condemned is a portion of that tract of land situate in Cooper Township, Clearfield County, Pennsylvania, as more fully described in the Declaration of Taking and as shown in the map attached hereto designated as Exhibit "2".
7. The nature of the title acquired is a permanent easement of 10' in width and a 20' in width construction easement.
8. By Order of your Honorable Court dated August 21, 2000, J. Richard Mattern, II, Esquire, Samuel B. Yost and Evo G. Facchine, were appointed Viewers to perform the duties in accordance with the law and Act of Assembly and, basically, to assess damages to which the Condemnee(s) are entitled, and to assess benefits, if any, arising from the above mentioned Condemnation.
9. That the View was scheduled for December 15, 2000, and the Board of View Hearing was scheduled for December 20, 2000.
10. Notice of the View and Hearing was served on the Condemnee(s) by United States Mail, First Class, mailed November 22, 2000.
11. The Board of Viewers conducted their View and Hearing at the aforesaid date and place.
12. That the following Exhibits were presented to the Board and accepted as exhibits and evidence by the Board, to aid in their decision in the matter, copies of which are attached hereto:
 - a. Board Exhibit "1" - John E. West, CPE, CREA, Appraisal;

b. Board Exhibit "2" – Map of premises prepared by Hess & Fisher Engineers, Inc.

13. That after the View and Hearing, the Board of Viewers has determined that the wastewater system lines, pumps, grinders, manhole covers and all facets are consistent with prudent and necessary requirements and comprise the best locations with minimal impact on the property owner(s).

14. That after View and Hearing in this matter and in consideration of all testimony and evidence, the Board has determined that before condemnation the subject property described on Exhibit 2 had a value of \$13,000.00. As there has been no change in value, and therefore, no damages after condemnation, the property has a value of \$13,000.00. Therefore, no damages are awarded by the Board to the Condemnee(s).

15. That attached to this Report are the following:

1. Notice of Board of View as to date of View and Hearing, dated November 22, 2000 - Exhibit "A";
2. Notice of Intention to File Report – Exhibit "B";
3. Board of Viewers' Schedule of Costs to be filed separately.

16. That a copy of this Report with Notice of Intention to File Report as required by 26 P.S. §1-513 is being forwarded to:

Attorney for Condemnor – Cooper Township Municipal Authority

Dear Mr. Gable,

In accordance with your request, I have personally inspected and appraised the real property at:

SR 2035, P.O. Box 116
Lanse, Pa., 16849

The purpose of this appraisal is to estimate the market value of the subject property, as vacant.
The property rights appraised are the fee simple interest in the site.

In my opinion, the estimated market value of the property as of November 6, 2000 is:

\$13,000
Thirteen Thousand Dollars

The attached report contains the description, analysis and supportive data for the conclusions,
final estimate of value, descriptive photographs, limiting conditions and appropriate certifications.

Sincerely Yours,

John E. West CPE, CREA, RL-000292-L

ADDENDUM FOR EASEMENT DAMAGE VALUE ESTIMATE

As per instructions I have determined the land value of the subject property in order to estimate the overall damage incurred by placing a sewer line easement over part of the property. The subject property would require a 10' permanent easement across the front of the property. There is a 35' building setback on the front of the property and all of the easement is within this setback area. In addition to the permanent easement there is a need for a construction easement that is 20' Wide and runs across the front of the property 48' at the corner of SR 2035 and Chestnut Street. This temporary easement is also within the required setback, but I feel it will have an small effect on the property value, if only a temporary one. This is a relatively small area of the property, About 1.8% of the area of the property and this area is far away from the house and all access areas to the house. There is a split rail corner fence here, but this can be restored after the construction. For this reason I feel that there should be no damage consideration to the present owners. Since there is a building set-back requirement in Cooper Township on the front of the property of 35' the easement would not effect future construction nor would it effect the access to the property. I would conclude that there would be no damage to this property due to the construction easement in the yard. The CTMA will place the sewer line and restore the property to original condition, including the fence corner and, therefore, would cause no actual physical damage to the subject property.

It is my opinion that there is no change in value to the subject property because of this construction easement and subsequently no monetary damages to the property, from the sewer easement.

TOTAL DAMAGE TO PROPERTY IS: \$0.00.

Comments on Sales Comparison

A search of the Clearfield-Jefferson MLS, public records and broker files indicated that these sales are the most recent, closest, similar, closed sales available as of the date of the appraisal. The comparables chosen are considered to be good indicators of value. After variation adjustments, a value range of \$9,850 to \$13,800 is indicated. The Subject property has been developed over the years as a homesite and all of the comparable land sales have been adjusted for the homesite value. The indicated land value for the subject in its present condition, in my opinion, would be \$13,000.00, or \$.26 per Sq. Ft.

Condition of Appraisal Comments

This appraisal assumes competent, professional marketing with a reasonable time to sell. No value is assigned to the buildings in this appraisal because the purpose is to determine the overall damage from an easement for a sewer line. The land value is being considered with full knowledge that there is a house on the property, but the right-of-way has no effect on the value of the home or any other buildings on the property.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the Appraiser's judgment.

STATEMENT OF LIMITING CONDITIONS AND APPRAISER'S CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
2. The appraiser has provided a sketch in the appraisal report to show approximate dimensions of the improvements and the sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in the appraisal report whether the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
5. The appraiser has estimated the value of the land in the cost approach at its highest and best use and the improvements at their contributory value. These separate valuations of the land and improvements must not be used in conjunction with any other appraisal and are invalid if they are so used.
6. The appraiser has noted in the appraisal report any adverse conditions (such as, needed repairs, depreciation, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
7. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.
8. The appraiser will not disclose the contents of the appraisal report except as provided for in the Uniform Standards of Professional Appraisal Practice.
9. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that completion of the improvements will be performed in a workmanlike manner.
10. The appraiser must provide his or her prior written consent before the lender/client specified in the appraisal report can distribute the appraisal report (including conclusions about the property value, the appraiser's identity and professional designations, and references to any professional appraisal organizations or the firm with which the appraiser is associated) to anyone other than the borrower; the mortgagee or its successors and assigns; the mortgage insurer; consultants; professional appraisal organizations; any state or federally approved financial institution; or any department, agency, or instrumentality of the United States or any state or the District of Columbia; except that the lender/client may distribute the property description section of the report only to data collection or reporting service(s) without having to obtain the appraiser's prior written consent. The appraiser's written consent and approval must also be obtained before the appraisal can be conveyed by anyone to the public through advertising, public relations, news, sales, or other media.

APPRAISERS CERTIFICATION: The Appraiser certifies and agrees that:

1. I have researched the subject market area and have selected a minimum of three recent sales of properties most similar and proximate to the subject property for consideration in the sales comparison analysis and have made a dollar adjustment when appropriate to reflect the market reaction to those items of significant variation. If a significant item in a comparable property is superior to, or more favorable than, the subject property, I have made a negative adjustment to reduce the adjusted sales price of the comparable and, if a significant item in a comparable property is inferior to, or less favorable than the subject property, I have made a positive adjustment to increase the adjusted sales price of the comparable.
2. I have taken into consideration the factors that have an impact on value in my development of the estimate of market value in the appraisal report. I have not knowingly withheld any significant information from the appraisal report and I believe, to the best of my knowledge, that all statements and information in the appraisal report are true and correct.
3. I stated in the appraisal report only my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the contingent and Limiting Conditions specified in this form.
4. I have no present or prospective interest in the property that is the subject to this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or the estimate of market value in the appraisal report on the race, color, religion, sex, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property.
5. I have no present or contemplated future interest in the subject property, and neither my current or future employment nor my compensation for performing this appraisal is contingent on the appraised value of the property.
6. I was not required to report a predetermined value or direction in value that favors the cause of the client or any related party, the amount of the value estimate, the attainment of a specific result, or the occurrence of a subsequent event in order to receive my compensation and/or employment for performing the appraisal. I did not base the appraisal report on a requested minimum valuation, a specific valuation, or the need to approve a specific mortgage loan.
7. I performed this appraisal in conformity with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place as of the effective date of this appraisal, with the exception of the departure provision of those Standards, which does not apply. I acknowledge that an estimate of a reasonable time for exposure in the open market is a condition in the definition of market value and the estimate I developed is consistent with the marketing time noted in the neighborhood section of this report, unless I have otherwise stated in the reconciliation section.
8. I have personally inspected the subject property and the exterior of all properties listed as comparables in the appraisal report. I further certify that I have noted any apparent or known adverse conditions in the subject improvements, on the subject site, or on any site within the immediate vicinity of the subject property of which I am aware and have made adjustments for these adverse conditions in my analysis of the property value to the extent that I had market evidence to support them. I have also commented about the effect of the adverse conditions on the marketability of the subject property.
9. I personally prepared all conclusions and opinions about the real estate that were set forth in the appraisal report. If I relied on significant professional assistance from any individual or individuals in the performance of the appraisal or the preparation of the appraisal report, I have named such individual(s) and disclosed the specific tasks performed by them in the reconciliation section of this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in the report; therefore, if an unauthorized change is made to the appraisal report, I will take no responsibility for it.

SUPERVISORY APPRAISER'S CERTIFICATION: If a supervisory appraiser signed the appraisal report, he or she certifies and agrees that: I directly supervise the appraiser who prepared the appraisal report, have reviewed the appraisal report, agree with the statements and conclusions of the appraiser, agree to be bound by the appraiser's certifications numbered 4 through 7 above, and am taking full responsibility for the appraisal and the appraisal report.
