OPINION AND ORDER

(S) L

JOHN J. PENTZ  
PRESIDENT JUDGE  
CLEARFIELD, PENNSYLVANIA

the Court, since all defendants occupy premises abutting upon the same street, and the same questions of law and fact are exactly the same in each municipal lien.

The Borough of Curwensville created a Municipal Authority for the construction of a sewage treatment plant and the necessary connecting sewer lines, under the provisions of the Municipal Authorities Act of 1945, (53 PS 301, et seq.).

Following the creation of the Authority, and in compliance with the regulations and provisions of the Municipal Authorities Act, a resolution was adopted by the Authority, on April 24, 1958 containing an estimated cost of the construction of connecting sewer lines in the Borough of Curwensville, together with a plan for the connecting sewer system, and on this date (April 24, 1958) was submitted to the Borough of Curwensville, which by Ordinance No. 246, approved and accepted the plan of construction and the estimated cost.

In pursuance of the proceedings, the connecting sewer system was constructed and completed, and the cost thereof fell well below the estimated cost. but it was discovered upon the filing of the municipal liens for the cost of the sewer construction on each of these five properties, that there had been omitted from the plan of construction submitted on April 24, 1958, the street upon which these five properties abut, so that the plan submitted did not cover the properties of these several defendants.

Following the discovery of this omission the Borough of Curwensville then enacted Ordinance No. 270 on the 16th day of October, 1961 , assessing these properties for the cost of the sewer improvements and directing the Authority to file liens therefor against the several properties of the five defendants.

The general validating Act of December 15, 1939, P. L. 1774 (53 PS 7444, et seq.) went into effect prior to the enactment of this latter Ordinance.

There is no dispute on the part of the defendants but that the Authority acted generally within the frame of the Municipal Authorities Act, supra, and the Borough of Curwensville acted within the framework of the Borough Code, as well as the Municipal Authorities Act. The only exception being the failure to submit in the plan of construction submitted to the Borough in April 1958, the street and sewer lines therein on which the five defendants have their properties abutting.

The defendants take the position that the validating Act of December 15, 1938 (53 PS 7444) supra, and Ordinance No. 270 are not effective, but retroactive in nature and that Ordinance No. 270 is not effective as coming too late after the issuance of *Sci Va sur Municipal Lien*.

It is asserted by the plaintiff, and not disputed by the defendants, that the sewer has been constructed, the several dwelling houses connected thereto, and that they are enjoying the

benefits and services of the sewer line.

The plaintiff further sets forth that the lien filed against these defendants by virtue of the validating Act of 1959, supra, and Ordinance No. 270, is on the same assessment per foot front, namely, \$4.18 per foot, as was assessed against all other properties in the Borough abutting on streets in which sewers were laid, and that the addition of these assessments on the five properties at the foot front rate above mentioned, will still leave the cost of construction substantially less than the estimated cost when the plan was originally adopted.

The Validating Act of 1959 (53 PS 7444, et seq.) supra, is extensive, and is drawn to cover all classes and types of cities, boroughs and townships, and the various and sundry proceedings and actions taken by the several municipalities.

In addition to the validating Act, Ordinance No. 270 makes the assessment against these properties for the benefits afforded by the construction of the sewer, at the same foot frontage rate, and the Borough has the authority and power to authorize a reassessment, as was effected by Ordinance No. 270.

In ALLEGHENY VS. STEWART, 43 Pa. Superior Ct. 534, 537, the Superior Court states,

"The original assessment for a local improvement proving insufficient, the legislature may, in the absence of special constitutional restriction, authorize a reassessment, and make it operate upon the property benefited, that is, upon all that was originally liable to contribute; and such a law is valid, even against a person purchasing intermediate the assessment and reassessment."

and again in **BELLEVOUE BOROUGH VS. GIBSON**, 43 Pa. Superior Ct. 561, the same rule is adopted. The Superior Court said a borough may pass a remedial ordinance assessing costs against abutting properties by ordinances validating or corrective in effect, even though passed subsequently to the date of the improvement, and in **ALLEGHENY VS. STEWART**, supra, it was also held that when it is decided that retroactive legislation is valid which charges property with benefits conferred, no reason exists why the property benefitted should not be charged with its share of such benefit, and that a period of five years is not too long between the construction of the improvement and the ordinance assessing the cost thereof on the abutting land.

Therefore, the position taken by the several defendants must be overruled.

#### O R D E R

NOW, March 23, 1962, motion for judgment on the pleadings made absolute, and judgment to be entered against each of the several defendants in the amount set forth in the lien, together with costs and interest as provided by the Municipal Lien Law. Exception noted. It is directed that one copy of this Opinion and Order shall be filed in each lien proceedings consolidated herein.

:

No. 106 February Term, 1960

Municipal Lien

PLAINTIFF'S REPLY TO AFFIDAVIT OF DEFENSE  
AND NEW MATTER

1. Admitted.
2. Admitted.
3. Admitted, but the entire applicable portion of

Subsection (s) reads as follows:

"To charge the cost of construction of any sewer or water main constructed by the Authority against the properties benefited, improved or accommodated thereby according to the foot front rule. Such charges shall be based upon the foot frontage of the properties so benefited, and shall be a lien against such properties. Such charges may be assessed and collected and such liens may be enforced in the manner provided by law for the assessment and collection of charges and enforcement of liens of the municipality in which such an Authority is located: Provided, That no such charge shall be assessed unless prior to construction of such sewer or water main the Authority shall have submitted the plan of construction and estimated cost to the municipality in which such project is to be undertaken, and the municipality shall have approved such plan and estimated cost; and provided further, That there shall not be charged against properties benefited, improved or accommodated thereby an aggregate amount in excess of the estimated cost as approved by the municipality."

4. Paragraph 4 is denied and on the contrary the plan of construction of the sewer system was submitted by the Authority to the Borough of Curwensville together with the estimated cost thereof, and the Borough of Curwensville did approve the plan of construction, the estimated cost thereof, and the estimated assessable cost, all of which is more fully set forth in New Matter.

NEW MATTER

5. On April 24, 1958 the Curwensville Municipal Authority adopted a Resolution approving the petition of Curwensville Municipal Authority submitting to the Borough of Curwensville for its approval a plan of construction and estimated cost of sewers to be constructed by the Authority, and that said petition was presented to the Council of the Borough of Curwensville the same day.

6. That in the aforesaid petition of the Curwensville Municipal Authority to the Borough of Curwensville, the Authority set forth that the total estimated cost of the proposed collection sewers and trunk line sewers amounted to \$601,135, and further that the estimated total assessable cost of said construction amounted to \$209,925.

7. That on April 24, 1958 the Borough of Curwensville, by its Ordinance No. 246, approved the plan of construction submitted by the Curwensville Municipal Authority and also approved the estimated cost of construction in the amount of \$601,135, and further specifically approved the estimated assessable cost of the construction in the amount of \$209,925. Said Ordinance was approved and signed by the Burgess on April 26, 1958, was recorded in the Ordinance Book of the Borough on April 28, 1958, and was duly advertised according to law on May 1, 1958.

8. That through inadvertance the sewer constructed in front of the premises of the defendant herein was not included in the plan as submitted by the Authority to the Borough of Curwensville.

9. That while the Borough of Curwensville authorized the assessment of \$209,925 of the cost of construction of the sewer system, the actual total amount of the assessed cost of construction was \$165,767.

10. That the inadvertant omission of the sewer in front of the defendant's property from the plan as submitted to the Borough did not increase the total assessable cost of construction as actually assessed, and the total assessed cost of construction was substantially less than the amount authorized by the Borough in its Ordinance No. 246.

11. That the defendant herein is connected with the sewer line as set forth in its Affidavit of Defense, and is enjoying all the benefits of said sewer system and treatment plant as are enjoyed by any of the other residents of the Borough of Curwensville.

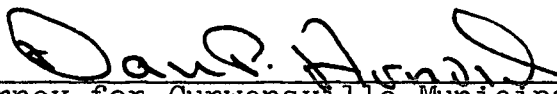

12. That the construction of the sanitary sewers and the sewage treatment plant was completed on the 10th day of November 1959, and after proper notice of said assessment and failure to pay the same by the defendant herein, the above captioned municipal lien was filed against his property on the 19th day of February 1960 in the amount of \$368.77.

13. On the 15th day of December 1959, the General Assembly of the Commonwealth of Pennsylvania adopted the Act of 1959, P. L. 1774 (53 P. S. 7444).

14. The aforesaid Act of Assembly was a curative or validating Act and cured any and all defects in the assessing of municipal liens for the construction of sewer systems entered prior to the effective date of the Act and validated all such liens.

15. That the within captioned municipal lien was valid when filed and the provisions of the Act of 1945, as amended, 56 P. S. 306 B (s) were complied with by the plaintiff herein, and in the alternative, the plaintiff herein pleads that the validating Act of 1959, P. L. 1774, 53 P. S. 7444, has cured any defects in the procedure followed by the plaintiff herein, and makes the above captioned lien valid.

WHEREFORE, plaintiff asks that judgment be entered in favor of the plaintiff in the above captioned municipal lien, and the plaintiff be awarded the costs of the proceeding and an attorney's fee in the amount of \$18.44 in accordance with the provisions of the Act of May 1923, 53 P. S. 7187.

Vs.

JAMES J. LODDO

NO. 106 FEBRUARY TERM, 1960

MUNICIPAL LIEN

AFFIDAVIT OF DEFENSE

1. This lien was filed assessing the property of the Defendant bounded on the North by an Alley, on the East by Michael H. Lezzer, on the South by Bloomington Avenue Extension, and on the West by Grandview Avenue, for the construction of a sewer on Bloomington Avenue Extension fronting the said property.

2. The said charge and assessment, according to the front foot rule, was purportedly filed in conformance with the Municipal Authorities Act of May 2, 1945, P. L. 382, as amended; the Municipal Claims and Liens Act of May 16, 1923, P. L. 207, as amended; the Ordinances of the Curwensville Borough Council in pursuance thereof, particularly Ordinance No. 246 dated April 24, 1958, and the Resolutions of the Board of the Curwensville Municipal Authority, particularly that dated November 23, 1959, providing for the construction of a sanitary sewer system, the assessment of properties therefor, and the filing of liens for unpaid sewer assessments.

3. That the said Municipal Authorities Act of May 2, 1945, P. L. 382, as amended, 53 P. S. 306, Sub-Section S, provides inter alia:

"That no such charge shall be assessed unless prior to construction of such sewer or water main the Authority shall have submitted the plan of construction and estimated cost to the municipality in which such project is to be undertaken, and the municipality shall have approved such plan and estimated cost."

4. That no plan of construction of the sewer on Bloomington Avenue Extension or the estimated cost thereof was submit-

ted to the Borough of Curwensville, nor was the same approved by such municipality as required by the said statute.

WHEREFORE, the Defendant's land is not liable to assessment for the said improvement.

All of which the Defendant avers to be true and expects to be able to prove at the trial of this suit.

Claude J. Bloom  
Justice of the Peace

MY COMMISSION EXPIRES FIRST  
MONDAY IN FEBRUARY 1962

ORDINANCE NO. 270

AN ORDINANCE OF THE BOROUGH OF CURWENSVILLE APPROVING AN AMENDMENT TO THE CURWENSVILLE MUNICIPAL AUTHORITY'S PLAN OF CONSTRUCTION OF SANITARY COLLECTION SEWERS AND TRUNK LINE SEWERS, AND RATIFYING, CONFIRMING AND APPROVING THE ASSESSMENTS OF THE CURWENSVILLE MUNICIPAL AUTHORITY MADE ON PROPERTIES ABUTTING THE SECTIONS OF SEWERS AS SET FORTH IN THE AMENDMENT OF THE CONSTRUCTION PLAN, AND IF NECESSARY TO REASSESS SAID PROPERTIES.

Section 1. The Borough of Curwensville does hereby approve an amendment of the plan of construction submitted by the Curwensville Municipal Authority with its petition to the Borough dated April 24, 1958, of the sanitary collection sewers and trunk line sewers, by adding the following sections of sewers which were constructed under the general plan but were inadvertantly omitted from the construction plans as previously submitted to the Borough. The sections of sewers inadvertantly omitted from the general plan of construction are as follows:

Anderson Avenue South - west side (Grampian Road)  
From corner of Anderson Avenue and Grampian Road 187 feet along Grampian Road.

Alley off Anderson Street -  
From corner of alley and Anderson Street 180 feet northeast on alley toward High Street, 40 feet across Anderson Street and 128 feet southwest on alley toward Hill Street, making a total of 348 feet.

Bloomington Avenue Extension  
From corner of Bloomington Avenue and Grandview Avenue 310 feet on Bloomington Avenue toward Griffith Avenue.

Alley between Pennsylvania Avenue and NYCRR  
From corner of Station Street and alley (crossing Clark Street and James Street) 940 feet to alley between James Street and Bloomington Avenue.

Alley off Filbert Street  
From corner of Filbert Street and alley 130 feet east along south side of alley.

Griffith Avenue  
From corner of Station Street and Griffith Avenue 840 feet along Griffith Avenue toward Bloomington Avenue (crossing First Street).

Section 2. The Borough of Curwensville has heretofore approved the estimated cost of constructing the said sanitary collection sewers and trunk line sewers in the amount of \$601,134, and has heretofore approved the estimated assessable cost of construction as stated in the petition of the Authority dated April 24, 1958 at \$209,925.

Section 3. The actual assessable cost of the sewers as constructed, including those set forth in Section 1, amounted to \$165,767, upon which front foot assessments in the approximate amount of \$4.18 per front foot have been made, and the Borough of Curwensville does hereby ratify, confirm and approve said assessments on properties abutting on sections of sewers as set forth in Section 1 hereof as though those sections of sewers had been incorporated in the original petition to Council, which resulted in the passage of Ordinance No. 246.

Section 4. The Borough of Curwensville does hereby authorize the Curwensville Municipal Authority, if such action is deemed necessary or desirable, to reassess the properties benefited by the sections of sewers listed above in Section 1 of this ordinance, at the rate of \$4.18 per front foot, and to file new liens therefor.

ORDAINED IN COUNCIL this 16th day of October 1961.
