**CONTINENTAL CONSTRUCTION, INC.,

Defendants

COMPLAINT

1. Plaintiffs **SHAWN EVANS** and **BARBARA EVANS**, are husband and wife who currently reside in Boggs Township, Clearfield County, with an address of 3123 Old Erie Pike, West Decatur, PA 16878.
2. Defendant **CONTINENTAL CONSTRUCTION, INC.**, (hereinafter "Continental") is a corporation believed to be organized and existing under the laws of the Commonwealth of Pennsylvania having a place of business located in Elk County, Pennsylvania with a mailing address of PO Box 126, PO Box 126 Johnsonburg Road, Ridgway, PA 15853
3. Defendant **SWEETLAND ENGINEERING & ASSOCIATES, INC.**, (hereinafter "Sweetland") is a corporation believed to be organized and existing under the laws of the Commonwealth of Pennsylvania having a place of business located in Centre County, Pennsylvania with a mailing address of 600 Science Park Road State College, PA 16803
4. Defendant **PENNSYLVANIA AMERICAN WATER** (hereinafter "PA American") is a corporation believed to be organized and existing under the laws of the Commonwealth of Pennsylvania having a place of business located in Dauphin County, Pennsylvania with a mailing address of 800 West Hershey Park Drive, Hershey, PA 17033.

5. By deed dated June 26th 2000 and recorded in Clearfield County Recorder's Office as Instrument No. 2000-09009 on June 27, 2000 The Plaintiffs' became the owners of a house and two parcels of land located in Boggs Township, Clearfield County, Pennsylvania identified as tax parcel ID # 105-011-577-16 and # 105-011-577-17, a copy of said deed is attached hereto as Exhibit "A" and incorporated herein by reference as if set out in full.

6. On or about November 12, 1998 Wallaceton-Boggs Municipal Authority contracted with Sweetland to design the construction and installation of a sanitary sewer line for the Authority which ultimately crossed the plaintiffs' land and damaged their basement drain system at or about what has been designated, Manhole No. AE-5.

7. On or about June 21, 2000 Wallaceton-Boggs Municipal Authority contracted with Continental as the lowest bidder to construct and install the sanitary sewer line for the Authority.

8. On August 29, 2000 the Plaintiffs granted an easement and perpetual right-of-way to the Wallaceton-Boggs Municipal Authority for the installation of a sanitary sewer line., a copy of the Grant of Easement and Map outlining the right-of-way are attached hereto as Exhibits "B" and "C" respectively and incorporated herein as if set out in full. The Map shown as Exhibit "C" shows in the upper right corner a Manhole designated as AE-5.

9. On or about the fall of 2001 Continental installed a sanitary sewer line along the right-of-way across the land of the Plaintiffs' described in Exhibit "A" and along the road in front of the plaintiffs through and including what has been designated Manhole AE-5.

10. The said sanitary sewer line as engineered by Sweetland and constructed by Continental ultimately crossed the plaintiffs' land and damaged their basement drain system at or about what has been designated, Manhole No. AE-5 and a prior to a point where said drain empties into a small stream across from plaintiffs' house and North of SR 2024.

11. The design and construction were defective and performed in a negligent manner by Sweetland and Continental in that they failed to account for or failed to take care of the existing basement drain of plaintiffs and the construction collapsed the terra-cotta drain line and made it non-

functional such that thereafter, each time water infiltrated the plaintiff's basement it failed to drain out the front of the basement and into the stream as it was designed to do and as it had done previous to the construction.

12. Prior to the construction by Continental the water in plaintiffs' basement drained properly and adequately through the floor drain in their basement, into a terra cotta pipe and thence under SR 2024 into a small stream to the North of their house.

13. On or about 2001 or 2002 PA American installed new water lines which crossed the plaintiffs' basement drain system prior to where it empties into a small stream across from their house and North of SR 2024.

14. It is believed and therefore averred that the construction of the water lines contributed to the failure of the plaintiffs' basement drain to function as it had before such construction.

15. In the fall of 2001, as a result of heavy rains, the basement in the Plaintiffs' residence began to fill with water, to such an extent as to require them to purchase a sum pump to remove the water from the basement.

16. On December 19, 2001 Plaintiffs' hired a Roto-Rooter technician to see if the drain line from the basement could be opened,

17. The Roto-Rooter technician determined that the drain was blocked approximately 20 feet in or up (i.e. South) from the small stream and in an area near to where the sewer line was installed, in proximity to Manhole AE-5. He further determined that the terra-cotta pipe was crushed and or broken and rocks (crushed stone) would keep falling into the drain as he tried to clear it.

18. Attached is a copy of the determination by the Roto-Rooter technician and marked as Exhibit "D" and incorporated herein by reference as if set out in full. The cost for said evaluation was \$130.00.

19. Every heavy rain resulted in a repeat of the water build-up in plaintiffs' basement and required them to expend time and energy and on occasion required them to take a day off of work to avoid damage to their furnace.

20. After finding no relief from the water build-up plaintiffs' called Bowman Masonry (hereinafter Bowman) for assistance. Upon reviewing the situation ,Bowman determined that the solution would require a water removal system costing \$8,000.00. A copy of the Proposal from Bowman, dated January 21, 2004 is attached hereto, marked as Exhibit "E" and incorporated herein as if set out in full.

21. This complaint is filed in response to an appeal from the decision of District Magistrate Rudella by Continental. All costs incurred in District Justice matter are herein sought as additional legal costs by plaintiffs.

WHEREFORE, plaintiffs, **SHAWN EVANS** and **BARBARA EVANS**, demand judgment against defendants in the amount of \$8,130.00, plus costs at District Justice level and in this action.

PRELIMINARY OBJECTIONS TO PLAINTIFFS' COMPLAINT

AND NOW, comes Defendant, Continental Construction, Inc. by and through their attorneys, Burns, White & Hickton, John M. Steidle, Esquire, and files the within Preliminary Objection to Plaintiffs' Complaint averring as follows:

**I. PRELIMINARY OBJECTION IN THE NATURE OF A MOTION TO STRIKE OR IN
THE ALTERNATIVE A MOTION FOR A MORE SPECIFIC PLEADING PURSUANT
TO Pa. R.C.P. 1028 (a)(2)**

1. Plaintiffs commenced this action by the filing of a Complaint in the Magistrate's District Court 46-3-03 in Clearfield County, State of Pennsylvania, Docket No. CV-0000071-04.
2. A hearing was held before District Justice Rudella on *March 12, 2004*.
3. District Justice Rudella entered a judgment on *March 12, 2004* against Continental Construction, Inc.

4. Defendant Continental Construction, Inc. filed a Notice of Appeal and a Praeclipe to Enter a Rule to File a Complaint on *March 19, 2004*.

5. In response to the Rule, Plaintiffs filed a Complaint on April 12, 2004. Plaintiffs' Complaint is attached hereto and incorporated herein as Exhibit "A".

6. Plaintiffs have named Continental Construction, Inc., Sweetland Engineering and Associates, Inc., and Pennsylvania American Water as Defendants.

7. Paragraph 10 of Plaintiffs' Complaint provides as follows:

The said sanitary sewer line as engineered by Sweetland and constructed by Continental ultimately crossed the plaintiffs' land and damaged their basement drain system at or about what has been designated, Manhole No. AE-5 and prior to a point where said drain empties into a small stream across from plaintiffs' house and North of SR 2024.

8. Paragraph 11 of Plaintiffs' Complaint provides as follows:

The design and construction were defective and performed in a negligent manner by Sweetland and Continental in that they failed to account for or failed to take care of the existing basement drain of plaintiffs and the construction collapsed the terra-cotta drain line and made it non-functional such that thereafter, each time water infiltrated the plaintiff's basement it failed to drain out the front of the basement and into the stream as it was designed to do and as it had done previous to the construction.

9. Rule 1028 (a)(2) of the Pennsylvania Rules of Civil Procedure provides that Preliminary Objections are warranted if a pleading fails to conform to law or Rule of Court.

10. Rule 1022 of the Pennsylvania Rules of Civil Procedure provides that each paragraph shall concern as far as practical only one material allegation.

11. The purpose of Rule 1022 of the Pennsylvania Rules of Civil Procedure is to make certain that the Complaint is clear enough for the Defendant(s) to prepare their defense(s) based upon accurate information, the specific basis upon which recovery is sought.

12. Consequently, the Complaint's failure to comply with the requirements of Rule 1022 of the Pennsylvania Rules of Civil Procedure mandates that all such paragraphs be stricken or, in the alternative, the Plaintiffs ordered to amend their Complaint to assert only one material allegation in each paragraph.

WHEREFORE , for the reasons set forth herein, Defendant Continental Construction, Inc. hereby respectfully requests this Honorable Court enter the attached Order striking the Plaintiffs' Complaint pursuant to Pennsylvania Rule of Civil Procedure 1028(a)(2) or, in the alternative, ordering the Plaintiffs to amend their Complaint to comply with Pennsylvania Rule of Civil Procedure 1022 setting forth averments of negligence against each defendant in separate counts.

Respectfully submitted,

CIVIL ACTION - LAW

FIRST AMENDED COMPLAINT

NOW come the plaintiffs by their counsel Timothy E. Durant, Esq. and in response to Preliminary Objections filed by Continental Construction, Inc., on September 16, 2004 alleging more than one material allegation in two paragraphs of the original Complaint (as filed on April 12, 2004) Plaintiffs do file this their First Amended Complaint averring the following:

1. Plaintiffs **SHAWN EVANS** and **BARBARA EVANS**, are husband and wife who currently reside in Boggs Township, Clearfield County, with an address of 3123 Old Erie Pike, West Decatur, PA 16878.

2. Defendant **CONTINENTAL CONSTRUCTION, INC.**, ("Continental") is a corporation believed to be organized and existing under the laws of the Commonwealth of Pennsylvania having a place of business located in Elk County, Pennsylvania with a mailing address of PO Box 126, PO Box 126 Johnsonburg Road, Ridgway, PA 15853

3. Defendant **SWEETLAND ENGINEERING & ASSOCIATES, INC.**, ("Sweetland") is a corporation believed to be organized and existing under the laws of the Commonwealth of Pennsylvania having a place of business located in Centre County, Pennsylvania with a mailing address of 600 Science Park Road State College, PA 16803

4. Defendant PENNSYLVANIA AMERICAN WATER (“PA American”) is a corporation

believed to be organized and existing under the laws of the Commonwealth of Pennsylvania having a place of business located in Dauphin County, Pennsylvania with a mailing address of 800 West Hershey Park Drive, Hershey, PA 17033.

5. By deed dated June 26th 2000 and recorded in Clearfield County Recorder's Office as Instrument No. 2000-09009 on June 27, 2000 The Plaintiffs' became the owners of a house and two parcels of land located in Boggs Township, Clearfield County, Pennsylvania identified as tax parcel ID # 105-011-577-16 and # 105-011-577-17, a copy of said deed is attached to the original Complaint as Exhibit "A" and is incorporated herein by reference as if set out in full.

6. On or about November 12, 1998 Wallaceton-Boggs Municipal Authority contracted with Sweetland to design and set out the terms for the construction and installation of a sanitary sewer line for the said Authority.

7. The said sewer line as designed ultimately crossed the plaintiffs' land.

8. As a consequence of the design and/or the installation of the said sewer line, plaintiffs' existing basement drain system was damaged and rendered useless.

9. The point of damage to plaintiffs' basement drain system is at or about what has been designated on the relevant maps as Manhole No. AE-5.

10. On or about June 21, 2000 Wallaceton-Boggs Municipal Authority contracted with Continental as the lowest bidder to construct and install the sanitary sewer line for the Authority.

11. On August 29, 2000 the Plaintiffs granted an easement and a perpetual right-of-way to the Wallaceton-Boggs Municipal Authority for the installation of a sanitary sewer line., a copy of the Grant of Easement and the Map outlining the right-of-way are attached to the original Complaint as Exhibits "B" and "C" respectively and are incorporated herein by reference as if set out in full. The Map (Exhibit "C"), shows in the upper right corner a Manhole designated as "AE-5".

12. On or about the fall of 2001 Continental installed a sanitary sewer line along the right-of-way across the land of the Plaintiffs' described in Exhibit "A" and along the road in front of the plaintiffs through and including what has been designated Manhole AE-5.

13. It is believed, and therefore averred, that the relevant parts of the construction of the sanitary sewer line were constructed in accordance with the engineering plans as designed and according to the specifications as prepared by Sweetland.

14. The said sanitary sewer line as constructed by Continental ultimately crossed the plaintiffs' land and damaged their basement drain system at or about what has been designated, Manhole No. AE-5 and a prior to a point where said drain empties into a small stream across from plaintiffs' house and North of SR 2024.

15. Prior to the construction by Continental any water coming into plaintiffs' basement drained properly and adequately through the floor drain in their basement, out through a terra cotta pipe and from thence under SR 2024 into a small stream to the North of their house.

16. On or about 2001 or 2002 PA American installed new water lines which crossed the plaintiffs' basement drain system prior to where it empties into a small stream across from their house and North of SR 2024.

17. In the fall of 2001, as a result of heavy rains, the basement in the Plaintiffs' residence began to fill with water, to such an extent as to require them to purchase a sum pump to remove the water from the basement.

18. On December 19, 2001 Plaintiffs' hired a Roto-Rooter technician to see if the drain line from the basement could be opened or if in the alternative the cause of the blockage could be determined.

19. The Roto-Rooter technician determined that the drain was blocked approximately 20 feet in or up (i.e. South) from the small stream (and conversely down i.e. North from the plaintiffs' house) and in an area near to where the sewer line was installed, in proximity to Manhole "AE-5".

20. The Roto-Rooter technician further determined that the terra cotta pipe was crushed or broken and rocks (comprised of crushed stone) would keep falling into the drain even as he tried to clear it.

21. Attached to the original Complaint is a copy of the determination by the Roto-Rooter

technician which determination is marked as Exhibit "D" and incorporated herein by reference as if set out in full. The cost for said evaluation was \$130.00.

COUNT I

Shawn Evans and Barbara Evans vs. Continental Construction, Inc.

Paragraphs 1-21 above are incorporated herein by reference as if set out in full

22. The relevant section of the sanitary sewer construction was defective and performed in a negligent manner by Continental in that they failed to account for or failed to take care of the existing basement drain of plaintiffs and the construction collapsed the terra-cotta drain line and made it non-functional such that thereafter, each time water infiltrated the plaintiff's basement it failed to drain out the front of the basement and into the stream as it was designed to do and as it had done previous to the construction.

23. Plaintiffs sustained a continuing loss each time it rained and each time the snow melted.

WHEREFORE plaintiffs demand judgment against Continental in the amount as set forth below.

COUNT II

Shawn Evans and Barbara Evans vs. Sweetland Engineering & Associates, Inc.

Paragraphs 1-23 above, are incorporated herein by reference as if set out in full

24. The relevant section of the sanitary sewer design was defective and prepared in a negligent manner by Sweetland in that they failed to account for or failed to take care of the existing basement drain of plaintiffs and they failed to remedy a situation where construction as designed would cause or was likely to cause a collapse of the terra-cotta drain line and make it non-functional such that thereafter, each time water infiltrated the plaintiffs' basement it failed to drain out the front of the basement and into the stream as it was designed to do and as it had done previous to the construction.

25. Plaintiffs sustained a continuing loss each time it rained and each time the snow melted.

WHEREFORE plaintiffs demand judgment against Sweetland in the amount as set forth below.

COUNT III

Shawn Evans and Barbara Evans vs. Pennsylvania American Water

Paragraphs 1-25 above are incorporated herein by reference as if set out in full

26. It is believed and therefore averred that the construction of the new water lines by PA American crossing the plaintiffs' terra cotta basement drain was negligent and the installation of such lines in a carelessness manner contributed to the failure of the plaintiffs' basement drain to function as it had functioned before such construction.

WHEREFORE plaintiffs demand judgment against PA American in the amount as set forth below.

27. After the construction of the sanitary sewer and the installation of the water line, every heavy rain resulted in a repeat of the water build-up in plaintiffs' basement and required them to expend time and energy to remove the water and on occasion even required them both to take a day off of work to avoid damage to their furnace.

28. After finding no relief from the water build-up plaintiffs' called Bowman Masonry ("Bowman") for assistance. Upon reviewing the situation, Bowman determined that the solution would require a water removal system costing \$8,000.00. A copy of the Proposal from Bowman, dated January 21, 2004 is attached to the original Complaint, marked as Exhibit "E" and is incorporated herein by reference as if set out in full.

29. This complaint is filed in response to an appeal from the decision of District Magistrate Rudella by Continental.

30. Plaintiffs expended \$126.50 in filing costs in the District Justice matter and such costs are herein sought as additional legal costs by plaintiffs.

WHEREFORE, plaintiffs, **SHAWN EVANS** and **BARBARA EVANS**, demand judgment against all the defendants jointly and severally in the amount of \$8,256.50 plus interest at the legal

PRELIMINARY OBJECTIONS TO FIRST AMENDED COMPLAINT

NOW COMES Defendant, Pennsylvania American Water, by and through its counsel, Miller, Kistler, Campbell, Miller, Williams & Benson, Inc., and files these Preliminary Objections to Plaintiffs' First Amended Complaint, of which the following is a statement:

1. Plaintiffs commenced this action on February 20, 2004, by the filing of a Complaint in Magistrate District Court 46-3-03 in Clearfield County, Pennsylvania to Docket No. CV-0000071-04.
2. On March 12, 2004, District Justice Michael Rudella entered judgment in favor of Plaintiffs and against Defendant Continental Construction, Inc.
3. Defendant Continental Construction, Inc. filed a Notice of Appeal and Praecept to Enter a Rule to File a Complaint on March 19, 2004.
4. On April 12, 2004, Plaintiffs filed a Complaint in the Court of Common Pleas of Clearfield County, Pennsylvania.
5. Plaintiffs filed a First Amended Complaint on October 5, 2004.

6. Plaintiffs' First Amended Complaint alleges that Defendant Sweetland Engineering & Associates, Inc. designed and set out the terms for the construction and installation of a sanitary sewer line which crossed the Plaintiffs' land, and that Defendant Continental Construction, Inc. constructed said sanitary sewer line in accordance with the specifications prepared by Defendant Sweetland Engineering & Associates, Inc.

7. In Count I of the First Amended Complaint, Plaintiffs allege that Defendant Continental Construction, Inc. was negligent in its construction of the sanitary sewer line, in that it failed to account for or to take care of Plaintiffs' existing basement drain, and the construction collapsed the Plaintiffs' terra cotta drain line and made it non-functional.

8. In Count II of the First Amended Complaint, Plaintiffs allege that Defendant Sweetland Engineering & Associates, Inc. was negligent in designing the sanitary sewer system, in that it failed to account for or take care of the Plaintiffs' basement drain, and that it failed to remedy a situation where construction would cause or was likely to cause a collapse of the terra cotta drain line and make it non-functional.

I. DEMURRER

9. Paragraphs 1 through 8 above are incorporated herein by reference thereto as though the same were set forth at length.

10. The allegations against Defendant Pennsylvania American Water in the First Amended Complaint are minimal.

11. The First Amended Complaint alleges that “[o]n or about 2001 or 2002, PA American installed new water lines which crossed the plaintiffs’ basement drain system prior to where it empties into a small stream across from their house and North of SR 2024.” (First Amended Complaint, paragraph 16).

12. Thereafter, in Count III of the First Amended Complaint, Plaintiffs allege that “[i]t is believed and therefore averred that the construction of the new water lines by PA American crossing the plaintiffs’ terra cotta basement drain was negligent, and the installation of such lines in a careless manner contributed to the failure of the plaintiffs’ basement drain to function as it had functioned before such construction.” (First Amended Complaint, paragraph 16).

13. These allegations are not sufficient to set forth a cause of action for negligence against Defendant Pennsylvania American Water.

14. The Plaintiffs have not set forth any facts to support that Defendant Pennsylvania American Water breached any duty of care owed to the Plaintiffs.

15. The Plaintiffs have not alleged that in constructing and/or installing the water lines which crossed the Plaintiffs’ basement drain, Defendant Pennsylvania American Water committed any acts or omissions which constitute negligence or carelessness, as would be necessary to state a cause of action for negligence.

16. Plaintiffs’ allegation that Defendant Pennsylvania American Water installed new water lines which crossed the Plaintiffs’ basement drain is insufficient to set forth a basis for liability against Defendant Pennsylvania American Water.

17. Count III of the First Amended Complaint fails to state a cause of action upon which relief may be granted against Defendant PA American Water.

WHEREFORE, Defendant PA American Water prays that Count III of Plaintiffs' First Amended Complaint be dismissed with prejudice.

II. MOTION FOR MORE SPECIFIC PLEADING

18. Paragraphs 1 through 17 above are incorporated herein by reference thereto as though the same were set forth at length.

19. Plaintiffs' First Amended Complaint fails to set forth material facts sufficient to support a cause of action against Defendant Pennsylvania American Water for the reasons set forth above.

20. Without prejudice to the above, if Count III of Plaintiffs' First Amended Complaint is not dismissed, then Defendant Pennsylvania American Water requests that Plaintiffs be required to file a more specific pleading setting forth material allegations and facts sufficient to inform Defendant Pennsylvania American Water of the basis for which it must defend itself.

21. Pursuant to Pa. R.C.P. 1019(a), the Plaintiffs are required to plead the material facts on which a cause of action is based in a concise and summary form.

22. Plaintiffs' First Amended Complaint fails to set forth material facts pursuant to Pa. R.C.P. 1019(a) upon which Plaintiffs cause of action is based, specifically identifying what acts or omissions were committed by Defendant Pennsylvania American Water which contributed to the failure of the Plaintiffs' basement drain to function.

WHEREFORE, Defendant Pennsylvania American Water prays that Count III of Plaintiffs' First Amended Complaint be dismissed or, in the alternative, that the Plaintiffs

be required to file a more specific pleading setting forth specific acts of negligence in accordance with Pa. R.C.P. 1019(a).

III. MOTION TO STRIKE

23. Paragraphs 1 through 22 above are incorporated herein by reference thereto as though the same were set forth at length.

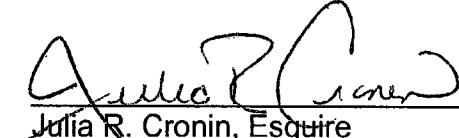

24. Pa. R.C.P. 1020(a) states that "the plaintiff may state in the complaint more than one cause of action cognizable in a civil action against the same defendant. Each cause of action and any special damage related thereto shall be stated in a separate count containing a demand for relief."

25. Pursuant to Pa. R.C.P. 1020(a), the Plaintiffs are required to set forth their claims against each of the Defendants under separate counts.

26. In Count III of the First Amended Complaint, Plaintiffs seek to assert a negligence claim against Defendant Pennsylvania American Water, yet they incorporate by reference paragraphs 22 and 23 (Count I against Continental Construction, Inc.) and paragraphs 24 and 25 (Count II against Sweetland Engineering & Associates, Inc.).

27. The Plaintiffs' attempt to incorporate the allegations of negligence raised against the other Defendants into the claims against Defendant Pennsylvania American Water is prejudicially confusing, unduly complicating and improper and violative of Pa. R.C.P. 1020(a).

WHEREFORE, Defendant Pennsylvania American Water prays that Count III of Plaintiffs' First Amended Complaint be dismissed or, in the alternative, that the incorporation paragraph in Count III be stricken.

**DEFENDANT PENNSYLVANIA AMERICAN WATER'S
REPLY TO NEW MATTER PURSUANT TO Pa. R.C.P. 2252(d)
FILED BY DEFENDANT SWEETLAND ENGINEERING & ASSOCIATES, INC.**

R.C.P. 2252(d) filed by Defendant Sweetland Engineering & Associates, Inc., and in support thereof avers as follows:

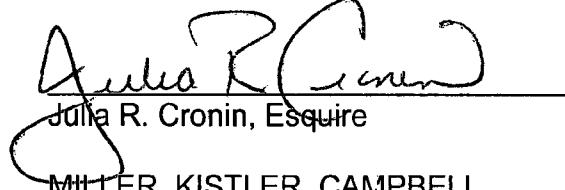

40. Defendant Pennsylvania American Water incorporates by reference herein its pleadings in response to Plaintiffs' First Amended Complaint, as though the same were set forth herein at length.

41. The allegations contained in paragraph 41 are conclusions of law to which no responsive pleading is required. To the extent a response is deemed to be required, Defendant Pennsylvania American Water denies that it is liable, in any manner, for all or any part of the damages asserted in the Plaintiffs' First Amended Complaint.

42. Defendant Pennsylvania American Water incorporates by reference herein its pleadings in response to Plaintiffs' First Amended Complaint. By way of further response, Defendant Pennsylvania American Water specifically denies that it is solely

vs.

CONTINENTAL CONSTRUCTION, INC., and

AMERICAN WATER,

Defendants.

**DEFENDANT CONTINENTAL CONSTRUCTION, INC.'S MOTION FOR
SUMMARY JUDGMENT**

AND NOW comes Defendant, Continental Construction, Inc. (hereinafter "CCI"), by and through its attorneys Burns, White & Hickton LLC and John M. Steidle, Esquire, and files the within Motion for Summary Judgment, and respectfully submits as follows:

1. Plaintiffs purport to have sustained damage to an underground drain during the construction of a municipal sanitary sewer project.
2. On February 20, 2004, Plaintiffs initiated an action at the District Justice level against CCI, Pennsylvania American Water ("PAW") and PennDot. *See Exhibit "A".*
3. The matter came before District Justice Michael A. Rudella for hearing on March 12, 2004. At the conclusion of the hearing, judgment was entered against CCI and PAW. PennDot was dismissed from the action.
4. On March 19, 2004, CCI filed a Notice of Appeal and a Rule was issued directing the Plaintiffs to file a Complaint within twenty (20) days. *See Exhibit "B".*

6. On or about September 20, 2004, CCI filed Preliminary Objections to Plaintiff's Complaint.

7. On or about October 5, 2004, Plaintiffs filed a First Amended Complaint. (See Exhibit "C").

8. Under Pennsylvania law, a cause of action for trespass to real property must be commenced within two years from the date of a cause of the action first occurred. (See 42 PA §5524).

9. In the fall of 2001, Plaintiff's began to experience problems with their basement drain.

10. On December 19, 2001, Plaintiffs hired a Roto-Rooter technician to determine why the drain line servicing their basement was not properly draining. *See Exhibit C ("Plaintiffs' First Amended Complaint") at ¶ 18; Exhibit D ("Deposition of Shawn Evans") at pp. 15, 17-18; Exhibit E ("Deposition of Barbara Evans") at pp. 13-14.*

11. As a result of the Roto-Rooter inspection, Plaintiffs determined that the drain line was blocked at the area where the Sewer Line had been installed, *See Exhibit C at ¶ 19 and 20, and attached exhibit "D" to 1st Amended Complaint; Exhibit D at pp. 25-26, 29; Exhibit E at pp. 13-14.*

12. Plaintiffs initiated the District Justice Action on or about February 20, 2004, more than two (2) years after the Roto-Rooter inspection.

13. Under Pennsylvania law, a cause of action for trespass to real property must be commenced within two years from the day the cause of action first accrued. *See 42 Pa. § 5524.*

14. A cause of action for trespass to land is deemed to have accrued at the time the trespass was committed unless (a) the injured party could not, in exercising reasonable diligence, ascertain the fact of a cause of action, *see Pocono International Raceway v. Pocono Produce*, 468 A.2d 468, 471 Pa. (1983), or (b) the action involves a continuing trespass. *See Dombrowski v. Gould Electronics, Inc.*, 954 F.Supp. 1006, 1011, (M.D. Pa. 1996).

15. Because December 19, 2001, (*i.e.*, the date of the Roto-Rooter inspection), has unequivocally been established as the date Plaintiffs discovered the damage to the Drain Pipe, *see Exhibit D at pp. 26, 29; Exhibit E at pp. 13-14*, and because the alleged injury constitutes a permanent trespass under Pennsylvania law, Continental submits that the Statute of Limitations for Plaintiffs' claim began to run at the time of the Roto-Rooter inspection on December 19, 2001.

16. Under Pennsylvania law, "a continuing trespass must be distinguished from a trespass that effects a permanent change in the condition of the land. The latter, while resulting in a continuing harm, does not subject the trespasser to a liability for a continuing trespass." *Sustrik v. Jones & Laughlin Steel Corp.*, 197 A.2d 44, 46 (Pa. 1964) (citations omitted).

17. As the alleged injury caused a permanent change in the condition of Plaintiffs' land, Plaintiffs' cause of action clearly must be considered a permanent trespass rather than a continuing trespass.

18. Continental now moves for Summary Judgment on the grounds that Plaintiffs failed to comply with the two-year statute of limitations set forth at 42 PA § 5524.

WHEREFORE, Continental respectfully requests that this Honorable Court grant its Motion for Summary Judgment and dismiss Plaintiffs' case with prejudice.

Respectfully submitted,

Dear Judge Ammerman:

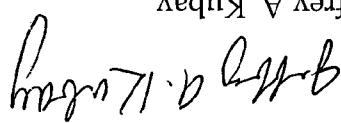

I represent co-Defendant Sweetland Engineering & Associates, Inc. in the above-captioned matter. I am in receipt of Defendant Continental Construction, Inc.'s Motion for Summary Judgment and this Court's Order dated March 29, 2005 scheduling argument thereon. Please note that Judgment of Non Pros was entered in favor of Sweetland and against Plaintiffs on January 24, 2005 based upon Plaintiffs' failure to file the requisite Certificate of Merit under Pa.R.C.P. 1042.1 et seq. Accordingly, it is Defendant Sweetland's intention not to appear at the Oral Argument scheduled for April 29, 2005 at 10:30 a.m. Defendant Sweetland does not oppose Continental Construction, Inc.'s Motion for Summary Judgment and submits this letter, with the Court's indulgence, in lieu of a formal brief.

CIVIL ACTION - LAW

REPLY TO MOTION FOR SUMMARY JUDGMENT

NOW come the plaintiffs by their counsel Timothy E. Durant, Esq. and in reply to Motion for Summary Judgment filed by Continental Construction, Inc., in March 2005 do respond as follows:

1. Admitted.
2. Admitted.
3. Admitted.
4. Admitted.
5. On April 12, 2004 Plaintiffs filed their initial complaint.
6. Admitted.
7. Admitted.
8. Denied, on the contrary, the rule does not say "...from the date of a cause of the action first occurred.". Section 5524 of the Judicial Code (42 Pa.C.S. §5524) provides, in full as follows:

>>§ 5524. Two year limitation

The following actions and proceedings must be commenced within two years:

(1) An action for assault, battery, false imprisonment, false arrest, malicious prosecution or malicious abuse of process.

(2) An action to recover damages for injuries to the person or for the death of an individual caused by the wrongful act or neglect or unlawful violence or negligence of another.

(3) An action for taking, detaining or injuring personal property, including actions for specific recovery thereof.

(4) An action for waste or trespass of real property.

(5) An action upon a statute for a civil penalty or forfeiture.

(6) An action against any officer of any government unit for the nonpayment of money or the nondelivery of property collected upon on execution or otherwise in his possession.

(7) Any other action or proceeding to recover damages for injury to person or property which is founded on negligent, intentional, or otherwise tortious conduct or any other action or proceeding sounding in trespass, including deceit or fraud, except an action or proceeding subject to another limitation specified in this subchapter.

For further answer theplaintiffs' reply to paragraph 13 (infra) is incorporated herein as if set out in full.

9. Admitted.

10. Admitted.

11. Admitted.

12. Admitted.

13. Denied, on the contrary the law of Pennsylvania is that suit can be brought within two years of the last injury occurring under the doctrine of "continuing trespass" as explained in the seminal case of Graybill v. Providence Township, et al. 140 Pa.Cmwlth. 505, 593 A.2d 1314 (1991) and affirmed Per Curiam by the Supreme Court in 533 Pa. 61, 618 A.2d 392 (1993).

The court in Graybill, reversed the dismissal of Graybill's action by the lower court and found as follows,

"The allegations of the present case concern acts of construction by the defendant Findleys upon their own land. Those acts did not directly and immediately cause any injury to Graybill's land; rather, those acts, coupled with the effects of rainfall, allegedly resulted in *consequential* damage to Graybill. That distinction prevents the straightforward application of the Section 162 commentary to cases such as this.

The material facts of *Leggieri* are indistinguishable from those of the present case. In our view, *Leggieri* represents a misapplication of *Sustrik* and an incorrect analysis of cases involving overflow

of water.

In the annotation, *When Statute of Limitation Commences to Run Against Damage from Overflow of Land Caused by Artificial Construction or Obstruction*, 5 A.L.R.2d 302 (1949), the annotator noted that courts have frequently stated that the subject under annotation is one "beset with extreme difficulties, on which the authorities are in greatest conflict and exhibit a good deal of confusion." *Id.* at 309-10 (footnotes omitted). Courts have uniformly based their holdings, concerning when the statute began to run, on the distinction between permanent change (sometimes called "original injury" or damage resulting from structures "necessarily injurious") versus **continuing trespass** (also referred to as "temporary", "transient" or "recurring" injury, *see id.* at 310). However, the cases reveal that determination of that question usually involves the close analysis of many factors. [Emphasis mine]

Among the factors that courts have considered for this purpose are the closely related questions of the ascertainability or predictability of the injury involved (i.e., whether it is possible for the plaintiff to calculate all of his future *511 damages in one action), and the question of the regularity **1317 of the incidents of overflow (i.e., whether the incidents happen frequently and predictably or only intermittently).

In *Naylor v. Eagle*, 227 Ark. 1012, 303 S.W.2d 239 (1957), plaintiffs alleged continuing injury to cropland three miles upstream from the point where the defendant had obstructed the flow of a watercourse. The Supreme Court of Arkansas held that, if the nature of the structure causing the overflow is such that damage to the plaintiff must necessarily result, and the nature and extent of this damage may be reasonably ascertained and estimated at the time of its construction, then there can be but a single recovery, and the statute of limitations against such cause of action is set in motion on the completion of the obstruction. However, if it is known merely that damage is probable or that, even though some damage is certain, the nature and extent of that damage cannot reasonably be known and fairly estimated, but is only speculative and conjectural, then the statute of limitation does not begin to run until the injury occurs, and there may be as many successive recoveries as there are injuries.

In *Clawson v. Garrison*, 3 Kan.App.2d 188, 592 P.2d 117 (1979), a landowner had leveled and irrigated cropland that naturally drained onto neighboring land, increasing the runoff from that land onto the neighbor's. The landowner then created an obstruction in the form of an elevated roadway

with culverts at the point where the water discharged onto the adjacent property, increasing the amount and the velocity of the discharged water. The court held that damage to the neighboring property was a temporary injury, because the flooding was an infrequent and virtually unpredictable occurrence, and the amount of both present and future damages could not reasonably be determined in a single action. The statute of limitations, the court determined, started to run at the time of each successive flow.

By considering the ascertainability of the plaintiff's damages, or the intermittent nature of the injury, we keep the focus of our analysis on the factor that the Restatement *512 commentary, quoted in *Sustrik*, regards as crucial, namely, the permanence of the change *to the physical condition of the plaintiff's land*, rather than on the permanence of the defendant's structure that allegedly causes the injury.

In *Archer v. J.S. Compton, Inc.*, 238 Iowa 1182, 30 N.W.2d 92 (1947), a plaintiff claimed damages for intermittent flooding of his land allegedly due to the defendant's construction of a dike along its side of a creek running between the properties. The Supreme Court of Iowa held that

[T]he term 'permanent,' as here used, 'has reference not alone to the character of the structure or thing which produces the alleged injury, but also to the character of the injury produced by it. In other words, the structure or thing producing the injury may be as permanent and enduring as the hand of man can make it; yet if the resulting injury be temporary or intermittent, depending on future conditions which may or may not arise, the damages are continuing, and successive actions will lie for successive injuries.'

Id. at 1190-91, 30 N.W.2d at 96 (quoting *Harvey v. Mason City & Ft. Dodge Railway Co.*, 129 Iowa 465, 474, 105 N.W. 958, 961 (1906)).

In the present case, Graybill has not alleged, contrary to the assertion in Findleys' brief, that he suffers flooding after every rain. Rather, as his response to interrogatories from the Findleys indicates, he alleges fewer than ten incidents of flooding over a period of almost four years, each at a time when he believes that the amount of rainfall was over one inch. (Brief for Appellee Providence Township, Exhibit A.) Graybill has not alleged that the defendants' actions resulted in permanently submerging his land, or even that they caused such regular flooding as to have the same effect as submergence,

causing him to abandon his house and to seek damages for its full value.

The damages that Graybill has enumerated include the replacement of appliances such as furnace, hot water heater and washer and dryer. In a single action to recover all *513 damages, past, present and future, **1318 it is impossible to calculate how many such replacements should be alleged. Under these facts, it is impossible to know exactly how many incidents of flooding would occur, and the severity of them. The effect of the holding in *Leggieri* is to compel a plaintiff to seek recovery in one action for future damages based on pure speculation, because of the intermittent and unpredictable nature of the injury involved. These cases assume that the construction of a permanent structure such as a house by a defendant on his own land necessarily creates a permanent change to the condition of the plaintiff's land, for which an accurate assessment of all damages is possible, without a close examination of the factual circumstances. Such a blanket assumption could have the effect of placing an impossible burden on a plaintiff.

In the instant case plaintiff Shawn Evans stated in his deposition at page 34 that the water backs up in his basement , "only when there's a substantial rain" (pg. 34 ln 20) and "melting snow" (pg. 34 ln 22-24).

Furthermore in the case of Miller v. Stroud Township, et al., 804 A.2d 749, Pa.Cmwlth., (2002) the Commonwealth Court recently reversed the lower courts dismissal of a claim based upon the passage of the two year statute and found in a case similar to ours that,

"Appellants' complaint, however, does set forth a **continuing trespass** claim. The complaint alleges that the Township constructed a sanitary sewer line on, near or about Appellants' property. The construction, coupled with the effects of rainfall, resulted in a **continuing trespass** of water and fecal matter, which caused damage to Appellants' property and an unhealthy concentration of fungi, mold and bacteria. (See complaint.) Under section 161 of the Restatement, because the Township failed to remove the water and fecal matter resulting from the sewer installation, Appellants may maintain a succession of actions against the Township based on the theory of **continuing trespass**, or Appellants may treat the continuance of water, fecal matter, fungi, mold and bacteria on the land as an aggravation of the original trespass."

[Emphasis mine].

14. Admitted. For more complete answer, in this case, the plaintiffs have alleged and suffered a continuing trespass.

15. Denied. On the contrary, this allegation is a conclusion of law, but to the extent that an answer is required the plaintiffs aver that they have incurred a continuing trespass in that when their neighborhood has substantial rain falls and large snow melts their drain backs up and they incur new damages or damages anew. These damages are new damages on a re-occurring basis dependent upon the severity of the rain or snow melt.

16. Denied. On the contrary, this allegation is a conclusion of law, but to the extent that an answer is required the plaintiffs aver that they have incurred a continuing trespass for the reasons and according to the legal reasoning set out in paragraph 13 (supra) which is incorporated herein as if set out in full.

17. Denied. On the contrary, this allegation is a conclusion of law, but to the extent that an answer is necessary the damage alleged was not to the plaintiffs' land but on the contrary it was to their drain as it passed through the PennDot highway right-of-way where the defendant Continental was digging the ground and laying the sewer line.

18. Denied. On the contrary, this allegation is a conclusion of law, but to the extent that an answer is necessary the plaintiffs aver that they are within the protection of the statute as interpreted by the Commonwealth Court and approved by the Supreme Court of Pennsylvania.

WHEREFORE, plaintiffs, **SHAWN EVANS** and **BARBARA EVANS**, ask that this Honorable Court dismiss the Motion for Summary Judgment.

JOINT TORTFEASOR RELEASE

KNOW ALL MEN BY THESE PRESENTS, that we, **SHAWN EVANS and BARBARA EVANS**, being of full legal age and of sound mind, for and in consideration of the sum of **ONE AND 00/100 (\$1.00) DOLLAR**, lawful money of the United States of America, to us in hand paid by **PENNSYLVANIA AMERICAN WATER COMPANY and TRAVELERS PROPERTY CASUALTY**, the receipt whereof is hereby acknowledged, do hereby release and forever discharge, and by these presents do for ourselves, our heirs, executors, successors and assigns, release and forever discharge the said **PENNSYLVANIA AMERICAN WATER COMPANY and TRAVELERS PROPERTY CASUALTY**, from any and all liability, claims, causes of action, damages, demands and controversies of any kind whatsoever, in law or in equity, which against the said **PENNSYLVANIA AMERICAN WATER COMPANY and TRAVELERS PROPERTY CASUALTY**, their agents, servants, insurers and representatives, we ever had, now have or which we may have in the future, or which our heirs, executors, successors or assigns hereinafter can or may have by reason of any property damage, trespass of real property, or personal injury and the consequences thereof, known or unknown, foreseen or unforeseen, arising or which may arise as a result of or any way connected with water line work done by Pennsylvania American Water Company and D. J. Wisor & Sons in the years 2001 and 2002 in Boggs Township, Clearfield County, Pennsylvania, including but not limited to a cause of action filed to No. 2004-385 in the Court of Common Pleas of Clearfield County, Pennsylvania.

It is understood that other than as may be recited herein, no claims or demands are being released which the undersigned may have against any other corporation or person in connection with any currently pending or contemplated lawsuits pertaining to the damages sustained by the undersigned. In the event that it is judicially determined that any of the released parties are jointly liable with any other person or entity, then the damages against such other person or entity shall be reduced by the greater of:

- A. The amount paid as consideration for this Release; or
- B. The pro-rata share of the parties released herein as to the total liability.

This reduction shall occur only if it is judicially determined that the parties released hereunder and other persons or entities are jointly and/or severally liable.

It is expressly understood that this Release is executed pursuant to the provisions of the "Uniform Contribution Among Joint Tortfeasors Act," 42 Pa.C.S.A. Section 8321 et seq. and the Comparative Negligence Statute 42 Pa.C.S.A. Section 7102.

The undersigned further acknowledge that demands may hereafter be made against **PENNSYLVANIA AMERICAN WATER COMPANY and TRAVELERS PROPERTY CASUALTY** for contribution and/or indemnity by other persons or corporations arising from the undersigneds' claims, for injury connected with the subject matter forming the basis for the litigation being ended through this Release. It is the purpose and intention of this Release to indemnify and hold harmless **PENNSYLVANIA AMERICAN WATER COMPANY and TRAVELERS PROPERTY CASUALTY** from any loss, claim, liability, cost or expenses growing out of any claim for contribution and/or indemnity. If a verdict, judgment or other determination in the undersigneds' favor results in a claim, verdict or judgment for contribution or indemnity against **PENNSYLVANIA AMERICAN WATER COMPANY and TRAVELERS PROPERTY CASUALTY**, then the undersigned agree that they will not enforce any right to collect the claim, verdict or judgment to the extent that such enforcement creates liability against the parties released herein. In such event, the undersigned agree to reduce the claim or satisfy the verdict or judgment to the extent necessary to eliminate the claim of liability of the parties released herein, either to the undersigned or to any persons or corporations claiming contribution and/or indemnity. Further, the undersigned agree to hold **PENNSYLVANIA AMERICAN WATER COMPANY and TRAVELERS PROPERTY CASUALTY** harmless from any and all claims for contribution and/or indemnity which have accrued or may accrue as a result of settlements made between the undersigned and other persons or corporations prior to, or subsequent to, the execution of this Release.

It is expressly understood and agreed that the acceptance of the consideration set forth herein is in full accord and satisfaction of the disputed claim against **PENNSYLVANIA AMERICAN WATER COMPANY and TRAVELERS PROPERTY CASUALTY**, and same is not an admission of liability, liability being expressly denied.

It is understood and agreed that this is a complete release agreement, and that there are no written or oral understandings or agreements, directly or indirectly, connected with this release and settlement that are not set forth and/or incorporated herein.

This agreement shall be construed that wherever applicable, the use of the singular number shall include the plural number, the masculine gender shall be construed to include the feminine or neuter gender, and shall be binding upon and inure to the successors, assigns, heirs, executors, administrators and legal representatives of the respective parties hereto.

WE HAVE READ THE ABOVE AND UNDERSTAND THE SAME TO BE
LEGALLY BINDING UPON US BY ALL THE TERMS OF THIS RELEASE
AGREEMENT.
