

No. June 1870 Term, 190

Bridge across Mosquito Creek

versus

X

To the Honorable Judges of the Court of Quarter
Sessions of Clearfield County.

We the petitioners,
Citizens of ^{Carrolltown} Karthaus Township, labor under a very great
inconvenience, as well, as the travelling community, for
the erection of a new and substantial Bridge, over
the mouth of Musketo Creek on the public road from
Karthaus Bridge, leading to the mouth of Synnamahoning
Creek and Round Island, in Clinton County.

This road is much travelled and the Citizens of Clearfield
County one and all, are interested to have built there.
over Musketo Creek, a new Bridge, that at all
times can be depended on for crossing that stream
of water. The raft men let off at Butter Milk falls,
must all return over the Bridge and in case,
as it has often been; where the bridges that the
township have built, have been taken away by
high water, the Citizens of Clearfield County have
all felt the want and inconvenience. Therefore
the petitioners, pray the Court to direct the County ^{Commissioners} to appropriate sufficient funds for the erection of a
new Bridge over the mouth of Musketo Creek,
at Karthaus. And we will ever pray &c.

Mrs. Gilliland.
