Report of viewers filed 10 Aug 1893

To the Honorable David L. Krebs President Judge of the Court of Quarter Sessions of Clearfield Co. Pa.
We the undersigned Viewers appointed by the aforesaid Order of Court to view the site for a Public
Bridge across Big Beam Run in Deeater Township Respectfully report that having given notice
of time and place of meeting according to the act of assembly and being duly sworn & affirmed
in pursuance of said Order of Court view the said site for a bridge and in our opinion
find that at this point a bridge is absolutely necessary and as the present wooden
structure is unsafe for travel a new bridge is needed as soon as same can possibly
be constructed that owing to the great amount of travel on said bridge should
be built at the above mentioned place. It should have a clear span of forty
four (44) feet and be eight (8) feet in the clear above low water mark. That
where it is situated on the main road of travel across the Southern & Eastern End
of the County which road is used as much as if not more than any other
road in the County and whereas the said bridge is situated on the extreme
Southern border of Deeater Township and the expense of building said bridge
would be too great for the Township of Deeater to bear the County should bear
three fourths $\frac{3}{4}$ of the Cost of said bridge and Deeater Township one fourth $\frac{1}{4}$ of
the Cost.

Petition 10 May 1893 of Sunday Citizens of Karthaus Twp
Representing that the
Public road leading from Karthaus to Moskannon
Creek Bridge near Schuarrs Mill has in places become
dangerous and expensive to repair and they further
believe a new road could be located between the
Catholic Church and Schuarrs Bridge and made at
much less expense than to repair said part and
they further ask your honor to appoint Viewers to
vacate and supply such part of said road as they
may deem best and they will ever pray

And now 10 May 1893 petition presented and
read and the Court appointed Harry Byers George
Heckendorn and L. C. Hertline Viewers to view the ground
of the proposed road and report to the Court at
next Term

Now Dec 5.8 1893 Confession absolute

By the Court

To The Honorable the Judge of Quarter Sessions of Clearfield County, Pa.
We the undersigned viewers appointed by the within order of Court to view, vacate
and supply the road therein mentioned respectfully report that we gave good and
lawful notice of said road view and met agreeable thereto on the 27th July 1893
and having been severally sworn or affirmed we have viewed the grounds of
roads proposed to be vacated and supplied and are of opinion that owing to the
dangerous condition and cost to keep in repair the present road should be vacated and
a new one made and we have therefore laid out the following road to wit:
Beginning at a point 1.44 per St of a small bridge (being on road from Catholic Church
to Schuarrs bridge) thence through unimproved land of Karthaus Estate S 9 1/2° E 6.3 per
to post, thence S 28° E 11.4 per to post, thence S 24° E 5.9 per to white pine sapling, thence S 15 1/2°
E 4.2 per to a Birch, thence S 44° E 17.2 per to Birch sapling, thence S 53 1/2° E 6.9 per to a white
pine sapling, thence S 62° 25' E 17.5 per to post, thence S 37° 35' E 11.6 per to a post in Market street
extended in village of Karthaus, thence by centre of said street extended N 81° E 29.4 per
to point opposite Catholic Church,

Which road is necessary in our opinion for a public road.

The following road beginning at a point opposite the Catholic Church, thence N 47°
5' W 24.6 per S 77° 5' W 26.2 per N 82° 50' W 15.9 per N 71 1/2° W 19 per N 44 1/4° W 10.9 per N 30°
40' W 21.1 per N 16° 45' W 6 per to said point 1.44 per St of bridge being part of road from
Mosquito Creek bridge to Schuarrs Mill has become useless inconvenient and should
therefore be vacated. We believe no owner of land is entitled to damages by reason
of location and opening said road.

A plot or draft showing roads as above described and set forth is herewith annexed
showing courses distances and improvements.

Witness our hands this 27th day of July 1893.

Petition for Public Road Filed 10 May 1893

Representing That a road hath been lately laid out by order of Court to begin at or near the east end of the iron bridge across the Susquehanna River at or near the east end of the Iron bridge across the Susquehanna River at the upper end of G.L. Reed farm on the Cerraville and Clearfield road and to end at or near the east end of the Iron Bridge across the river at Cerraville which road if confirmed by the Court will be very injurious to your petitioners and burdensome to the inhabitants of the Townships through which the same will pass, as the road is laid out. That the portion of the public road vacated by the views from a point at or near the residence of M & Aules in Lawrence Twp to a point in said Township where the new road intersects the Township road leading from said Iron Bridge at the upper end of of the G.L. Reed farm to the old Erie Pike (near when the new Iron Bridge is now being built across said river near the residence of Robert Porter) should not have been vacated which part of the old road vacated is better than the portion of the new road laid out in its stead. Said portion of the new road being swampy and expensive to make and to maintain and much longer than the old route

That the new road as laid out leaves one of the most dangerous railroad crossings on the old road at its river splits that is the crossing at the end of the railroad cut near the iron bridge across said river at the upper end of the G.L. Reed farm

That your petitioners are interested in said road and that said road as laid out is to the great damage of the farms of the said M.G. Aules and Robert Boyd and is more destructive to private property than need be if said road be properly laid out

Your petitioners therefore pray Your Honor to Appoint proper persons to review the said road and parts adjacent with power to inquire of and vacate such parts or parts of the public road now open between the same points as may be necessary and to make report to the Court according to law and they will ever pray &c

The Petition of the undersigned Citizens of Decatur Sup. Respectfully
Represent

First That by proceeding in your said Court to No 12 Sept 5. 1892, a public Road. was laid out from a point near center School House on public road leading from Philipsburg to Osceola via Fish Town. in Decatur Sup. and to end in the public 10.60 road leading from Garhartville to Osceola at a point near Bullenoth Gali in Decatur Sup. which said road was confirmed absolutely at July 5. 1893. and are opening order 1.50 is now in the hands of the Supervisor of said Sup. for the opening 1.50 of said Road.

Second, That in the opinion of your petitioners a large proportion of said road. would be expensive to build & keep in repairs owing to its being located on a high hill over very stony ground. That while the said is but one mile & 300 yds it is estimated that it will cost the Sup. over \$3000 to make the said Road passable.

Third That in the opinion of your petitioners a much better

Location could be secured for that portion of the Road leading from the line of Just Hughes property Eastward to the junction at Edwin Bullenoths by a new location running from Garhartville to Osceola at or near the Red Dump. & a much better grade secured. & that the road. would be much less expensive to build & keep in repairs.

They therefore pray your Honor to appoint viewers to view & locate that portion of the said road. leading from the line of John Hughes property Eastward through the properties of Richard Hughes, Andrew Garhart, Edwin Bullenoth to a point designated as Bullenoths Gali on public road leading from Garhartville to Osceola & supply the same by a road leading from the line of Just Hughes property on the said road to a point on the public road leading from Garhartville to Osceola at or near what is known as the Red Dump. belonging to Messrs Hall. & they will ever pray &c. To the Hon David L. Krets President Judge of Clearfield County Pa We the undersigned Subscribers appointed to View the location for a public Bridge in the town mentioned after being solemnly sworn or affirmed as within directed. Having first given due notice of time and place of meeting do hereby report that we have examined the present Bridge over Clearfield Creek where the public road leading from Coalport to Glen Cornell crosses said Creek and are of the opinion that a new bridge is necessary and the expense to great for said Township. And further report that after careful examination are of the opinion that a change in the location of said Bridge can be made that would be an advantage to the traveling public and be less expensive than to erect a new Bridge on the location or site of the present bridge. and therefore report that in our opinion the proper place for a new bridge to be built across said Creek would be at the Southern line of Coalport Borough and opposite the end of Blain Street a distance of about 800 feet down said Creek from the old or present bridge. and do recommend that the location for the proposed new bridge be at the point above named and that the approach or public road there to be so changed as to suit location above named a draft or sketch of which is hereto named & attached all of which we respectfully submit

To the Honorable Cyrus Gorham Judge of the Court of Quarter Sessions of the Peace in and for the County of Clearfield

We the undersigned persons appointed by the Court to view the place proposed for a bridge in the within order mentioned Respectfully Report that after giving due and legal notice of the time and place of the view we met on the Twentieth day of February A.D. 1894 at the view of the place proposed for the bridge within mentioned and having all been first severally sworn or affirmed in pursuance of said order we have viewed the premises aforesaid and are of the opinion that an iron bridge over Roaring Run Creek at the place where the Snow and Parker's Turnpike Road crosses the said creek in the Village of Woodland Bradford Twp is necessary and that the erecting of said iron bridge would be attended with more expenses than it is reasonable the said Township should bear. And we also further report that after proper examination we are of the opinion that the span of said bridge should be thirty foot span in the clear and said bridge should be raised one foot higher than the present bridge. All of which is respectfully submitted.

Petition filed 24th June 1894 of the Inhabitants of the Borough of Mahaffey and Vicinity in said County Respectfully Sheweth a Bridge is much wanted over the Susquehanna River at the place where Market Street crosses the said river in the Borough aforesaid as the present bridge is a wooden structure and is wholly inadequate and insufficient for the needs of the public and that the expense of erecting said bridge would be too burdensome upon the Inhabitants of said Borough. Your petitioners therefore pray your Honor to appoint proper persons to view the premises and to take such order on the subject as is required and directed by the act of the General Assembly in such case made and provided and they will ever pray &c

By the Court

To the Honorable Judge of the Court of Quarter Sessions of Clearfield County: We the undersigned viewers appointed by the within order of Court to view the site for a public bridge across the Susquehanna River in the Borough of Mahaffey, respectfully report:

That having given notice of the time and place of meeting according to the Act of Assembly and being all present at the view of the site proposed for said bridge, and being all sworn in pursuance of the said order, we have viewed the situation and find that a public bridge is necessary at that point on the site where the old bridge now stands. Said old bridge being a wooden structure and so badly wrecked by high water and ice that it is very dangerous to the travelling public for the reason that in our opinion it is liable to tumble down at any time under heavy teams, the abutment on the west side being already undermined and partly washed away, neither of them being fit to support a bridge and withstand the force of the water and ice, the span being too short.

The new bridge will require a span One hundred and sixty five feet in length and nineteen feet high above low water mark, to be built of iron. And we also recommend that a sidewalk four feet wide be constructed on each side of said bridge for the use of foot travel.

The expense of erecting the said bridge in our opinion would be too great for the Borough of Mahaffey to bear and we recommend that the County be at the expense of building the said bridge.

Witness our hands the 23rd day of July A. D. 1894.

Remonstrance:

The petition of the undersigned citizens of Bloom Township Clearfield County respectfully represent. That they are taxpayers of the said township of Bloom and they ask that the Court refuse to confirm a certain report, laying out a certain road in Bloom Township, leading from the Erie Turnpike at or near Gilbert Thomas house in Bloom Township to Whitakers siding and station on the Clearfield & Mahoning Railroad in Bloom Township, said road proceeding being to No 14 May Term 1894. That the said road as laid out is not needed for public use and that the same will be very expensive to make and will cost from seven to twelve hundred dollars to make the said road. That the taxpayers of the township are not at the present time able to build the same at great expense. That your petitioners believe that the petition for the road as laid out has been changed since it was presented to them for their signatures and that the same has been changed since they signed it, that is your petitioners signed a petition for a public road to lead from the Erie Turnpike to Blooms Run station on the C & M R.R. and they did not sign a petition as first above set forth. Your petitioners therefore pray the Court to refuse to confirm said road. And they will ever pray: &c.

Petition filed 29th September 1894 of the Inhabitants of the Township of Beckand Clearfield County Penna. Respectfully Represents that they labor under great inconvenience for want of a public Bridge across Clearfield Creek where the road from Coalport to Glenconell crosses said Creek south of the Borough of Coalport the present structure being in dangerous condition and liable to be washed away at any time and the expense of constructing the same will be greater than it is reasonable that the Township of Beckand should bear. They therefore pray the Court to appoint Viewers to view the premises and make report according to law and they will ever pray &c.

Now Sep 29th 1894 the within petition presented and it appearing that a previous report has been filed on this Bridge which has not been acted upon by the Commissioners for the reason of the location of the same was for irregularities and Harry Byers James Savage and Miles Whigley are appointed in the place of the previous Viewers to make a review and report to the Court at December Sessions 1894

By the Court

Order for Review given to Harry Byers Nov 19th 1894

Report of Viewers filed 3rd Decr. 1894. - The Hon. Cyrus Gordon Pres. Judge of the Court of Quarter Sessions of Clearfield County Pa. At the undersigned Viewers appointed by within order of Court to view the bridge therein mentioned. Respectfully Report - That having given good and lawful notice of said bridge view with notice to Commissioners of aforesaid County, we were present at view of premises conformable to said notices and having been severally sworn or affirmed we respectfully submit - That a New Bridge, is needed where the road from Coalport to Glenconell, crosses Clearfield Creek and that the cost thereof is greater than is reasonable that the Township should bear, but it should not be placed where the present structure is located, we further report, that the said road should be changed so as to reach the new location of bridge which proposed New Road and bridge are located as follows - Beginning in the Centre of Blaine Street Coalport Borough at the South end of Main Street where it is intersected by road to Glenconell, thence by Centre of said Blaine Street South 83° 39' West 270 feet to end of proposed bridge in Coalport Borough, thence South 78° West, 110 feet to post, on land of Whitner Land and Lumber Co., - in Beckand Township, which last course and distance we would recommend as the location for a New Bridge, thence continuing South 78° West through unimproved land of said Whitner Land and Lumber Co. 300 feet to a post thence through the same South 20° West 1050 feet to road now in use from Coalport to Glenconell, at a point 601 feet West of Old Bridge - A plot or draft of which proposed Bridge and road as laid out showing courses and distances, improvements, etc - is hereto annexed - which road as aforesaid laid out is necessary for a Public Road. We recommend that the bridge be fifteen feet high above low water - that Coalport Borough build the East abutment and fill approach with dirt taken from road to Clinton at point of hill near bridge to better the grade of said road. That Beckand Township - build the West abutment and fill approach with material from hill at a point aforesaid on road to Clinton - That the County Commissioners of Clearfield County appropriate the Superstructure to said district - Whitner on hands this 28th day of November 1894.

Now Dec 14, 1894 the Grand Jury Approve the Report of Viewers and recommend that the County Comrs erect the Superstructure of the said bridge.

Exceptions to public road laid out from a point in the public road leading from the Borough of Clearfield to Stoneville 1396.6 feet South west corner William Litz house to the private road of Alex. Spackman in public road leading from the Borough of Clearfield to Curwensville in Lawrence Township.

Robert Boyd and M. L. Aides by their Attorney Oscar Mitchell, except to the confirmation of the said road absolute by the Court for the following reasons:

First. That the said road laid out does not begin at the public road leading from Clearfield to Stoneville, as set out in the petition for view, but the same begins in a public road leading from Clearfield to Bloomingtown known as the Ridge Road.

That the road leading from Clearfield to Stoneville is about one mile east of the point made the terminus of the said road as laid out.

Second. That the road as laid out does not end at the house of William Litz but 1396.6 feet from said point as shown by the draft accompanying said report.

Third. That the report of viewers does not show that any notice of the view was posted in the vicinity of the road as required by law, nor does it show that the owners of the lands through which the proposed road was laid out had notice of the view, nor does it show that the County Commissioners had notice of the view as required by the rule of Court.

Fourth. That the land owners or at least some of them, had no opportunity given them to be heard on the question of damages done them, the owners of part of the cleared land through which the proposed road is located.

Fifth. That the report does not show that the viewers tried to obtain release of damages from land owners nor does the report show that personal notice was given to the persons whose land the proposed road is laid out.

Sixth. That the order to view does not have the seal of the county on it.

Seventh. That the viewers did not apply to your exponents, land owners, through which the road is laid out for release of damages done to them by reason of the laying out of and the construction of the said road.

Oscar Mitchell. Atty for Exponents.

Walter H. Now - the Judge of the Court of Quarter Sessions held in and for the County of Clearfield. He the undersigned viewers appointed by the foregoing order of Court to view a site for a Bridge across the Susquehanna River at the place therein described. Do Report, That first having given more than five days notice of the time and place of meeting according to law we all met and upon due examination had and considerations taken with reference to wants and accommodations of the public travel, we are decidedly of the opinion that a Bridge is necessary at this place and further that the expense of erecting the same would be greater than the township of Burnside could reasonably be expected to bear, and recommend that said Bridge be erected by the County - It having been duly sworn or affirmed - All of which we respectfully submit to the Grand Inquest held for said Court in and for Clearfield County - The length of span required for said Bridge - 80 feet.

In witness whereof we have hereunto set our hands this fourth day of May A.D. 1895.

Petition filed 6. May 1895. Respectfully Represents that a public road beginning at a point on a public road near Hoover Hughes & Co's Mill in Huron township, in said County and running to a point on a public road near J. H. Brown in the said Township laid out by Order of Court was confirmed at the Sessions in the year of our Lord One thousand eight hundred and and that said road runs directly across the public School grounds on which is located what is known as the "Hill" School house thus preventing the fencing in beautifying of said grounds, and also that said road will better accommodate the public travel by being changed so as to begin and end at the same point but not through the said School lot. The petitioners therefore pray the Court to inquire

of and vacate and supply the said road and for that purpose to appoint three persons qualified according to law to view the said road and the ground proposed for the said change and to inquire of the premises and make report of their proceedings at the next term of Court. And they will ever pray &c.

And now May 6. 1895. the petition read and approved and thereupon L. Bird, P. H. Flynn & E. W. Dougherty are appointed Viewers to view the premises and report to the Court at the next term. By the Court.

Now 7 Sept 1895 Confirma ni Si

Now 8 July 1896 Confirma Absoluti and County to pay the Cost By the Court

To the Hon. Cyrus Gordon, Judge of the Court of Quarter Sessions, Clearfield County Penn.

The undersigned, two of the viewers appointed on petition to vacate and supply a public road between Hoover Hughes & Co's mill in Huron Township and J. H. Browns in said township respectfully report.

They made proper advertisement of the time of viewing the road.

On Aug 19th 1895 after being duly sworn to perform the duties of their appointment with impartiality and fidelity, they viewed the entire route covered by the petition.

There is no necessity to vacate and supply any of above road for the benefit of public travel.

Evidently the change contemplated in the petition is at the Pleasant Hill School House lot, and if made would increase the distance about 20 feet and increase the grade very slightly, perhaps two feet in eight rods, but there is still no serious grade it being very slight.

The only benefit of the proposed road change is to improve the school house lot which was located before the present road was surveyed.

The accompanying map is part of our report.

The red color indicates the present road. The blue color indicates the new road required to meet the requirement that seems to be intended by the petitioners.

We report that the change is not necessary for a public road.

Respectfully submitted.

To the Honorable Judge of the Court of Quarter Sessions of the Peace in and for the County of Clearfield State of Penna. - The petition of the undersigned inhabitants of the Township of Huston in the said respectfully sheweth that your petitioners labor under great inconvenience for want of a public road or highway to lead from Henry Singers on the public road from Penfield to Pleasant Hill and to end on the public road from Mill Run to the Mountain at or near James Buckner in Huston Township - Your petitioners therefore pray the Court to appoint proper persons to view and lay out the same according to law and they will ever pray &c.

To the Honorable Judge of the Court of Quarter Sessions, Clearfield County, Pa.

The undersigned viewers on a proposed new road from Henry Singers to near Jas. Buckner in Huston Twp. respectfully report; After being duly sworn they viewed the grounds proposed for said road and made survey as follows on 17th & 19th Aug 1895.

1st. From the turn of the present road at the rock near Henry Singers marked #1 on the accompanying map around to #2 on the map, where the road turns Northward again between James Buckner and John Bowen - one mile. This is through old settled and cleared farms by a good road and no severe grades.

2d. A direct line from #1 to #2 is $1\frac{1}{4}$ rods less than a quarter of a mile. This is through cleared fields, along the line of Henry Singers and Samuel Lee, and then along line of John Bowen and James Buckner, Buckner being cleared land.

This road is entirely unpracticable on account of steep hills on each side of a branch on the last part of the line.

3d. The best route is to begin at the rock, thence $N 4\frac{3}{4}^{\circ} E$ by the red dotted line on the map $15\frac{2}{10}$ rods. Then diagonally across Lees field $N 48\frac{1}{2}^{\circ} E$ $34\frac{1}{10}$ rods to a stake in line of Lee and Buckner. Then $N 19\frac{1}{4}^{\circ} E$ crossing Buckners field $31\frac{2}{10}$ rods to the present road, at a stake standing $33\frac{7}{10}$ rods E from the turn of the road toward Toby giving 81 rods of new road on a good route and easily built. Samuel Lee objects positively to this route because the only spring on his farm is thus cut off from the principal part of his farm. We consider that this would damage him not less than \$350.

4th. A possible route is from the rock $N 4\frac{3}{4}^{\circ} E$ 39 rods to Samuel Lees corner. Thence by line of Lee and Buckner $S 86\frac{1}{2}^{\circ} E$ $24\frac{4}{10}$ rods to a stake, thence $N 19\frac{1}{4}^{\circ} E$ $31\frac{2}{10}$ rods to the present road at a stake $33\frac{7}{10}$ rods E from the turn of the road toward Toby giving 94 $\frac{1}{10}$ rods of new road.

Samuel Lee declines to sign a release of damages and we estimate his damage on the last route at \$175. James Buckner declines to sign a release of damages and we estimate his damage on route 3 at \$225 and on route 4 at \$275. - Henry Singers was not present. We estimate his damage on route #3 at \$50. and on route 4 at \$100. There is no settlement in Huston Twp. beyond the farms of Jas. Buckner and Jas. Bowen.

Petition filed 2 September 1895 -

The petition of the subscribers respectfully sheweth that they labor under great inconvenience for want of a public road or highway to lead from a point on a public road leading from Grampian to Halls Mill Perm Township - Clearfield County - Starting near lands belonging to Catholic Congregation in Perm Township and running to or near Hepburnia intersecting a road intersecting a road leading to Halls landing to Grampian we also pray the Court to take measures to vacate a public road leading from Cross Roads near Catholic Church to W. W. Morris as said road is on high ground and is always badly drifted in winter and most of the time in winter is completely obstructed by drifts - We therefore pray the Court to appoint persons duly qualified to

view the ground proposed for said road and to lay out the same according to Law -

And now Sept 2 - 1895, the within petition presented and thereupon the Court appoints Thomas Moore, John Peutz and John Coons to view and report upon the necessity of said road -

To the Honorable Cyrus Gordon, President Judge of the Court of Quarter Sessions of Clearfield County.

We the undersigned Viewers appointed by the foregoing order of Court to view the road therein described and also to vacate a portion of a Public Road or highway beginning at the cross roads near the Catholic Church to W. W. Morris in Perm Township do report, That after first having given due notice of more than five days by partly written and printed advertisement put up according to law, of the time and place of meeting, we all met and first having been duly affirmed we have viewed the ground upon which said road is proposed to be located and that in our opinion there is not sufficient demand for the traveling public to justify the opening of said road which a considerable thereof would be over low swampy ground and be expensive to make and would also go through improved land so as to materially damage the same. Therefore taking all the circumstances surrounding the case in consideration we are of the opinion that the necessity does not exist to locate and build the road. And we also report no occasion to vacate any part of the Public road above described.

All of which we respectfully submit.

notice of more than five days of the time and place of meeting, we all met
and being duly affirmed according to law have viewed the site for said pro-
posed bridge and find that the bridge now spanning said creek on Brady
street in consequence of the widening of said street is found to be very much
too narrow to accommodate the public travel when said street is completed
and whereas a bridge is now needed a short distance below an said
Creek near Fullers Mill we think and would recommend that the bridge
now on Brady street be removed and placed at the crossing near Fullers
Mill on — street and that the County furnish a bridge of the proper
width and have it erected where the present one is now located on Brady
street, which we respectfully submit.

To the Honorable the Judge of the Court of Quarter Sessions of Clearfield County.

We the undersigned viewers appointed by the foregoing order of Court to view and report as to necessity of a Bridge across Sandy Lick Creek at the point where the leading highway from New Salem to the Berwind White shaft crosses the same in Sandy Township, Do Report,

That after having first given notice of more than five days of the time and place of meeting, We all met and being duly affirmed according to law have viewed the said site for said proposed bridge and find said creek spanned at present with a wooden bridge resting on a wooden superstructure entirely and consequently would be liable any time during a high stage of water to be more or less damaged or washed away;

We therefore think and it is our opinion that said Bridge should be replaced with a more permanent structure and would therefore recommend that the County should erect said Bridge or at least furnish the iron for the same and Sandy Township erect the abutments and approaches to the same.

All of which we respectfully submit. In witness whereof we hereunto set our hands this 3rd day of Feb A. D. 1896.

Petition filed December 19, 1895,

The petition of the undersigned Citizens of Burnside Township^{the} Borough in said County respectfully represents that your petitioners labor under great inconvenience for want of a direct road from the Iron Bridge across Cuck Creek on the Mail Route to O. W. Whites House, that the present road follows the bends of the Creek^{the} river & by reason of washing is not now over about 14 feet wide at Cuck Creek. It is unsafe, that the proposed route would shorten the distance nearly one third between the points named, and that the Pittsburg and Eastern Rail Road now being made, crosses the road near Cuck Creek about 9 feet above public road, and the necessary fill to cross the road would

reach the narrow part of said road would not be permanent.

Petition filed 31st December 1895

To the Honorable Cyrus Gordon, Judge of the Court of Quarter Sessions of Clearfield Co.

The petition of the undersigned inhabitants and tax payers of Goshen Township Clearfield County Pa. respectfully represents.

That a new bridge over Lick Run is much needed at or near the mouth of Lick Run in Goshen Township said County where the public road leading from Clearfield to Sparthaus crosses said run: that said bridge is necessary that the bridge across said run is rotten and unsafe and that the expense of erecting said bridge would be burdensome upon the inhabitants of said township and more

than it is reasonable they should bear.

Your petitioners therefore pray the Court to appoint proper persons qualified according to law, to view the place proposed for said bridge and to inquire whether said bridge is necessary as aforesaid and make report at the next term of Court.

At a Court of Quarter sessions of the Peace, held at Clearfield in and for said County of Clearfield on 18th day of Dec 1895 before the Judge of the said Court upon the petition of the inhabitants of the Township of Goshen in the said County setting forth "that a new bridge over Lick Run is much needed at or near the mouth of Lick Run in Goshen Township said County where the public road leading from Sparthaus to Clearfield crosses said run: that the said bridge is necessary, that the bridge across said run is rotten and unsafe and that the expense of erecting said bridge would be burdensome upon the inhabitants of said township and more than it is reasonable they should bear" the Court on due consideration appoints John Stephenson, Blair Reed and J. M. Johnston who after being respectively sworn or affirmed to perform their duties impartially and to the best of their judgement are to view the place proposed for said bridge and if they agree that there is occasion for such a bridge and that if the erecting of said bridge would require more expense than it would be reasonable said township should bear they are to make report accordingly at the next session of the Court of Quarter Sess.

By the Court.

We the undersigned viewers, appointed by the Court to view a site for a bridge across Lick Run at the place therein described do report, that first having given more than five days notice of the time and place of meeting according to law, We all met and having been sworn or affirmed as directed and upon due examinations had and considerations taken with reference to the wants and accommodations of the public travel, we are of opinion that a bridge is necessary at this place and that the expense of erecting the same would be greater than the Township of Goshen could reasonably be expected to bear and recommended that the Town for said Bridge be elected by the County and that the Township build the abutments. A plot or draft showing location of same is hereto annexed. Witness our hands this 28th Jan'y 1896.

Petition filed 3^d Feby 1896.

The petition of the undersigned citizens of Lawrence Township and Clearfield Borough respectfully represents that the erection of a bridge across the Susquehanna River at a point known as Leads fording one mile Southeast of Clearfield is greatly needed for the accommodations of the citizens living in Lawrence, Gosport, Conington Girard and Karthaus Townships; that the road over which the citizens of above named townships have to travel to reach the Borough of Clearfield is in a bad condition from the point where the said bridge is wanted to the Second street bridge:

That a great portion of it has been washed away and in the Spring and Fall is rendered unpassable on account of the high water and ice: That there is a large amount of travel over the road which is greatly inconvenienced

for want of better facilities in getting to the County seat: That a bridge at the point above named would shorten the distance more than a mile besides giving them a good and safe road to travel over.

We therefore pray your Honorable Court to grant the prayer of the said petitioners for the erection of a bridge at the point above named. And they will ever pray

15th Jan 1897 Supplemental petition filed.

Petition filed 18 May 1896.

The petition of the undersigned respectfully sheweth: That your petitioners labor under great inconvenience for want of a public road or highway to lead from James Cambett's house at a point on the old road leading from Centre to Houtzdale to connect at Thomas Batemans house with road leading from Centre street Osceola Borough. Your petitioners therefore pray the Court to appoint proper persons to view and lay out the same according to law: and they will ever pray, etc.

Now 18 May 1896 the within petition presented and thereupon John Stephenson, Geo. W. Kephart and Wm. Krause are appointed viewers to view the road asked for in the within petition.

Now April 6 1897 the argument on the exception to this report of viewers having come up for a hearing and it appearing that the report did not show affirmatively that a proper notice had been given to the land owners through which the road passes and of the view when in fact said notices were given, the report of the viewers in this case is referred back to the viewers to amend the same to conform with the facts and leave of Court is hereby granted to file said amended report By the Court Cyrus Garson J.

7th Sept 1896 Report of Viewers filed.

Sept 1896 Confirmed Nisi

The undersigned viewers appointed by the Court to view the premises and report upon the advisability of vacating and supplying the road set forth in the petition respectfully report.

That having given due legal notice and notice to County Commissioners of the time and place of meeting they met upon the line of said road on the 27th day of August 1896 at 10 o'clock A. M. and having all been first severally sworn, they proceed to attempt to obtain releases of damages from the persons affected by the action of the viewers as herein set forth, which was done after having carefully viewed said road proposed to be vacated and all the ways by which it can be supplied and they report in favor of the vacation of the road set forth in the petition, the precise courses and distances thereof being herein set forth, that they find that the said road is no longer necessary for public use.

The viewers however believe that a private road should be maintained on the present route for the benefit of John Lightner.

The viewers further report in supplying the said vacated road by a road running as set forth in this report from a point at or near the residence of John Fryer on public road leading from Blair City to Irona to a point on said road a distance of 450 feet from slaughter shop of Mrs. Laughenbaugh in Irona Borough and they have therefore laid out said road for public use believing the same to be necessary.

A draft is hereto attached showing the courses and distances as

well as the lands through which the said vacated and proposed road passes said draft being hereto attached and made part hereof.

The viewers further report that they find no land owner entitled to receive damages as herein set forth.

The part of the road vacated by this report is as follows: Beginning at a point near John Fryer thence $N 4^{\circ} 00' W$ 527 feet thence $N 1^{\circ} W$ 997 feet thence $N 3^{\circ} E$ 350 feet, thence $N 74^{\circ} 30' E$ 557 feet to intersection of road leading from Utahville to Ironsboro.

The petition of the undersigned represents.

That that portion of the Public Township road leading from Amesville to Belena School House, beginning at a point at or near lane of A.P. Shoffs to a point in public road between James Minds and Alexander property, has become useless and burdensome.

That a new safer and better road could be laid out to supply the old road.

The petitioners therefore pray your Honorable Court to appoint viewers to view and lay out such a road beginning at a point on the aforesaid public road at A.P. Shoffs lane and ending at a point on said public road at or near line of James Minds and Alexander properties. And they will ever pray, &c.

Saw this 9th Sept 1896 the within petition read and upon due consideration Harry Byers, R.P. Fleming and John B. McEach are appointed viewers to view, lay out and vacate a public road between the points designated in said petition and to make report returnable to next term.

To the Honorable Cyrus Gordon, President Judge of the Court of Quarter Sessions,

We the undersigned viewers appointed by the within order of Court to view vacate and supply the road therein mentioned respectfully report that we gave good and lawful notice of said road view and met agreeable thereto on the 19th Oct 1896 and having been severally sworn or affirmed, we have viewed the following road to wit: Beginning at the present township road leading from George Hall's to road leading from Hartshorns to Cumminsville Borough, where said first mentioned road is crossed by the line of the farm of William Lawheads thence through land (improved) of said Wm. Lawhead N 82 1/2° E 90 feet E 250 feet; N 75° E 354 feet thence N 77° E 308 feet thence N 84° E 351 feet thence N 88 1/2° E 100 feet to point in said road at Eastern line of land of William Lawhead which road described has been laid out (No 38 Sept 1892) but never opened and in our opinion is useless, inconvenient and burdensome and should therefore be vacated to supply which road we have viewed and do return for public use the road at present between point to aforesaid to wit: beginning at Western line of Wm. Lawheads farm thence N 89 1/2° E 266 feet thence N 79 1/2° E 221 feet thence N 75 1/2° E 238 feet thence N 88 1/2° E 730 feet to Eastern line of Wm. Lawhead which road is necessary in our opinion for a public road.

We recommended that the road in use through said farm of Wm. Lawheads and which we have viewed be widened to the 33 feet required by law by adding the necessary distance to the lower side measured from fence at upper side of road. A plot or draft of which roads aforesaid is herewith annexed showing courses distances and improvements.

The petition of the undersigned represents.

That a public road has recently been laid out in said Township beginning at a point in the public road in the village of Beccaria to a point in a public road at or near the house of Jacob Mathews.

That a portion of said road as viewed and laid out will be expensive to make and that the same as laid out runs through a dwelling house recently built by George McFarish, That a new road to supply that portion of the aforesaid road running by the aforesaid house and lots can be cheaply constructed.

Your petitioners pray your Honorable Court to appoint viewers to review and lay out a road to supply

Petition filed 21st Dec 1896.

The petitioners respectfully represent.

That a public road was laid out opened and used leading from the Boro of Cummerville through Rice and Reem townships to the Boro of Grampian.

That by reason of building an extension of the T. & C. R. R. from Cummerville to Grampian a portion of said township road commencing at a point on said road at or near what is called the Big Hill in Rice township and extending to a point on what is called the Widener farm in Reem township a distance of about one eighth mile by reason of its nearness to and crossing said rail road has become dangerous for the travelling public.

That the grade of said road as now laid out can be improved and danger removed by changing its location and between the points named.

Your petitioners pray the Court to appoint viewers to view, vacate and supply that portion of said public road between the Big Hill and the Widener farm as above described. And they will to Now Dec 21st 1896 Petition read and James A. Moore, James Savage and N. McDonald are appointed to view vacate and supply as aforesaid is prayed for. Returnable to next term.

To the Honorable Cyrus Gordon President Judge, The within named persons appointed by order of Court to review a road (made) being a change of location for a distance of six hundred & twenty feet (660) on road leading from Cummerville to Grampian at the Woodland & Rice River corners beg leave to report. That after having given due notice by three written & printed notices posted up near the location of said change of road or part of road, the time & place of meeting to review said road we met at the above named place on the 9th day of January A.D. 1897th after being duly sworn in pursuance of said order we reviewed & examined said road to its courses & distances & levels which are hereby attached to this report, the courses & distances on the new road are as follows. Beginning at the intersection of the old road south 83° 30' to one hundred & twenty five feet thence south 76° 15' East two hundred & twenty four feet. Thence south 64° East three hundred & twenty nine feet to intersection of old road - By the change the alignment is much improved as it eliminates several sharp curves, the grade is somewhat increased at the Eastern end of the new road. It could be modified and the grade made much lighter and at small cost if the road were graded as indicated by the dotted lines of profile hereto attached. As there is no fence or stakes defining the boundaries of the present road, we can make no report, the road bed as at present is on an average of sixteen feet. Ample room for wagons to pass. Attached to this report is a tracing of the old & new road, a profile showing grades of same. N. McDonald Aug 2^d } viewers

 The petition of the undersigned Citizens of Greenwood Twp, said County respectfully represent -
 That an Iron Bridge is much needed over Curry Run in said Township in Clearfield County Pa at a point where the Public Road leading from Curwensville to Mahaffey via Beels Landing crosses said Stream. That the Draining of logs &c on said Stream makes it necessary that a structure of a more substantial character than wood be built and the expense of building such a bridge would be too burdensome upon the inhabitants of said Township and more than it is reasonable that they should bear - Your petitioners therefore pray your Honor to appoint proper persons to view the place proposed for said bridge and inquire whether such bridge is necessary as aforesaid and make report at next Term of Court -

To the Hon. &c in accordance with the accompanying order of the Court to view vacate and lay out a portion of the main public road leading from and through the village of Woodlands Bradford Twp. Clearfield Co. Pa. being that portion beginning at a point opposite the School House in Lower Woodlands and leading to a point beyond or west of the lower Fire Brick Works of Harbison & Walker Co. in said village of Woodlands. we the undersigned viewers appointed to view vacate and lay out the same do respectfully report. That having given due and public notice of the time and place of said view, by printed handbills as required by Act of Assembly we met on the 17th day of January 1898 at 9 o'clock A.M. at the lower fire brick works of Harbison & Walker Co. Bradford Twp. Clearfield Co. Pa. which were the time & place named on the notices of the view after each having been duly sworn or affirmed according to law and all the viewers being present we viewed that portion of the main public road to be vacated, and the grounds for the proposed road.

Owing to the construction of a branch of the Beech Creek Railroad from their main line to the lower Fire Brick Works of Harbison & Walker Co. this portion of the main public road has become inconvenient and dangerous so we agreed to vacate that portion of road described as follows

residence of Thomas Bateman. After carefully examining all the citizens
on the ground with respect to the road we found that almost without
exception all was in favor of a Road between the points named
in the view; after further conversation we discovered that some of
those present desired only a change of location for the road. After
carefully considering all points placed before us we have concluded
that it would be unwise to vacate the road as we do not
feel warranted by the facts in subjecting the Township to the
additional expense of a new view and the further expense of a
new Road when much of the present Road is pretty completed
and all of it brushed out and one of the taxpayers offers to finish
and complete his end for seventy five dollars and so we have
concluded the best location for the Road is in its present
position we herewith recommend that Andrew Colaudes be paid
for damages done to his property sixty (60) dollars and George Heider
for damages to his property twenty (20) dollars. A plan showing

Clearfield Pa, Oct 22-1899

To the Honorable Cyrus Gordon, Of etc etc

We the undersigned appointed by the aforesaid order do report, that having all been present at the view of said road and having all been severally affirmed in pursuance of said order we have viewed the said road and report as follows: The road proposed to be vacated we find in very bad condition. In its course along the river from the fording to above Shaw's mill, the floods in the river have washed away the banks and in several places there is not room for two teams to pass without going on private property, at the next end where it turns from the river the crossing is near the middle of the Beech Creek rail road yard with three tracks to cross, the necessary shifting of cars to make up trains causes great delay to teams wishing to cross besides making it dangerous to teamster and team alike. The Beech Creek Pumping proposes to lay four more tracks which will increase the danger.

The new road as proposed crosses the Beech Creek tracks nearly opposite the fording and at the extreme eastern limits of the shifting tracks as is shown by the plot herewith appended thereby avoiding the great danger that always menaces teams at the present crossing.

J. of the Court of Quarter Sessions of Clearfield County Pa. We the undersigned viewers appointed by the within order of Court to view, vacate and supply the road therein mentioned respectfully report that we gave lawful notice of said road view with notice to County Commissioners of Clearfield County and having met at the time appointed in said notice all being present and having been first severally sworn or affirmed in accordance with the said order we have viewed the road proposed to be vacated, and the ground for road which petitioners have prayed to be laid out, and we find and report that the road aforesaid now in use has for a distance of more than twenty rods a grade of over eight degrees, and is by reason of the steep grade unsafe and burdensome to travelers and can be greatly improved by a change of location and therefore we have laid out and do return for public use the following road to wit: Beginning at a point near the West End of the Garden of David Dale on road leading from the Shiloh Road at David Dale's residence to Woodland Thence through improved farm land of Edward Dale South sixty eight and one half degrees West twenty five and four tenth perches to a post. Thence North Eighty four degrees West five perches to a post. Thence North sixty four degrees West

five perches to a post, Thence North twenty nine degrees West five and nine tenth perches to a Maple Sapling. Thence North twelve degrees West, Through land of said Edmund Dale and improved farm land of David Dale ten and three tenth perches to a post. Thence North thirty four degrees West fourteen perches to said road leading to Woodland at a point about twenty rods East of the Bradford M.E. Church. which road so as aforesaid laid out is necessary in our opinion for a public road. In pursuance of said order we have inquired of and vacated the road now open from point near West End of David Dales garden, the following courses and distances. North Eighty five and one half degrees West thirty two perches. Thence North Thirty eight degrees west twenty and four tenth perches. Thence North Sixty two degrees West four and two tenth perches to point about twenty rods East of the Bradford M.E. Church aforesaid, which road has become useless, inconvenient and burdensome and should therefore be vacated, a plot or draft of which roads as vacated and laid out as aforesaid is hereto annexed showing courses distances and improvements. Thence N 2° E. still on improved lands of said Heath Six hundred (600) feet to a post in the Hickory road near line of lands of said Heath and Bundy. The undersigned further report that there are no damages resulting to any of the owners of the land through which said road passes by reason of the opening of the same. except to Thos. Bundy and therefore having taken into consideration the advantages, as well as the disadvantages from the road passing through his land we have assessed the damages sustained by the said Thomas Bundy at Twenty Five (\$25.00) dollars.

We further report that before the said view, public notice of the time and place of the meeting of the viewers was given by advertisements put up at three of the most public places in the vicinity. Notice of said meeting was given to John Lyons, and N. Shoemaker supervisors of Sandy Township and also to the County Commissioners and to J. C. D. Boe, Chas. Shoemaker, Thos. Bundy and Mahaman Heath owners of the land through which said road passes ten days before said meeting. said shoemaker, Bundy & Heath being present at the time of the view. We annex a plot or draft of said road laid out, stating the courses and distances and noticing briefly the improvements through which the same passes.

To the Honorable Cyrus Gordon President Judge of the Court Quarter Sessions of Clearfield County We the undersigned viewers appointed by the within order of Court to view and examine the bridge herein mentioned and lay out the same, respectfully report: That we gave good and lawful notice of said bridge view and met agreeable to said notices and on account of absence of one of the Viewers adjourned the view until this twenty seventh day of November A.D. 1899 and at which time, all being present and having been first severally sworn or affirmed we have viewed the said Bridge and find that in our opinion. There is occasion for the within mentioned Bridge and that its erection would be attended with more expense than it is reasonable the said Township of Ferguson should bear. We recommend that the County of Clearfield appropriate a sufficient sum to pay for the Superstructure, and that the Township of Ferguson build the Abutments. We further recommend, that the span be forty feet in the clear. That the new bridge be made one foot higher than the highest end of the present structure and that the South end be placed ten feet and the North end be placed three feet west of the present structure a plot or draft of the Bridge as laid out aforesaid is herewith annexed. The Petition of the undersigned citizens and inhabitants of the Township of Bigler, said County, respectfully represents: That a public road passing through said township is crossed by Muddy Run, a large creek or rivulet tributary to Clearfield Creek, at a point in the village of Smoke Run, said Township, near to the hotel lately conducted by James McGuire and to the store and premises of L. M. Beyer. That said public road is extensively used as a means of communication between Houtydale, Ramey, and Glen Hope, Utahville, Irona, and Coalport. That the bridge by which said creek is crossed by the public road aforesaid is delapidated, weak and rotten, so that the erection of a new bridge is imperatively necessary; That the erecting of a bridge across said creek would be more expensive than it is reasonable Bigler Township should bear; and same should be born by the County of Clearfield.

Wherefore your petitioners pray the Court to appoint viewers to view the site of said bridge and proposed bridge, and to make report to your Honorable Court according to law, and they will ever pray.

Now 27 Sept. 1899 Upon due consideration appoint D. R. Good, Geo D. Benn and John L. Lightner, who after being respectively sworn or affirmed to perform their duties impartially and to the best of their judgment, are to view the place proposed for the said bridge, and if they view the same, and agree that there is occasion for such bridge and that the erecting of said bridge would require more expense than it would be reasonable the said township should bear, they are to make report accordingly and a map or plot thereof to be made, which shall accompany said report: the said report to be made at the next term of Court.

The Petition of the undersigned citizens and taxpayers of Glen Hope Borough and vicinity would respectfully petition and ask the Board of Commissioners of Clearfield County, Pa. To build and erect a Bridge across Clearfield Creek at this place at their earliest convenience. The present wooden Bridge was built Fifty Three years ago (1846) At the present time the Bridge is in a dangerous condition, from water running on North end of the Bridge. The timbers are decayed and liable to break down with heavy teams passing over it and cause heavy damages to the County of Clearfield.

Whereupon your petitioners pray the Court to appoint viewers to view the site of said bridge and report to next term of Court, and they will ever pray

February 10th 1900 Petition filed

To the Honorable Judges & etc

The petition of the undersigned, respectfully represent, that they are inhabitants of the Township of Lawrence, County of Clearfield, Penna. That a road has long been laid out in said township through what is known as the Betts Farm, now owned by Thomas W. Barrett, that said road joined the Public road leading from Clearfield to Woodland, at a point near the James Read residence and led from there to the fording at the Susquehanna River, or near the point known as Shaw's Red Mills.

Your petitioners further represent that that portion of the road between the Pennsylvania Railroad, to the point on the Public road above mentioned, leading from Clearfield to Woodland has become useless by reason of the plotting of the said land or farm of Thomas W. Barrett into town

lots. That in said plot streets and alleys have been laid out, leading from the railroad to the said public road and also at right angles therewith leading to Clearfield town. That by reason of the said streets and alleys being laid out and opened the said road has become useless and burdensome, your petitioners therefore pray the Court to appoint Viewers to vacate the said road in accordance with the Act of General Assembly in such case made and provided, and they will ever pray. Now Feb'y 10, 1900 The within petition presented and considered and Harry Byers, Ephraim Shaw and John Porter are appointed Viewers, to act upon the prayer of said petition, and make report thereon at May Sessions 1900. That about the year 1846 a Wooden Bridge was built by Clearfield County as a County bridge where the highway crosses Clearfield Creek at Glen Hope and that said bridge has remained a County bridge since that time.

That said Bridge is now in an unsafe condition for public travel and cannot be repaired and that there is danger of said bridge breaking down and causing heavy damages to said County.

Your petitioners further sheweth that a County bridge is much needed at said place to take the place of the old County bridge. Your petitioners therefore pray the Court to appoint viewers to view and make report to your Honorable Court upon the necessity of a new County bridge at said place.

The Petition of the undersigned residents of the Township of Jordan in the County of Clearfield and the State of Pennsylvania respectfully represents. That by proceedings in said Court to No 19 Sept. Sessions 1896 to vacate and supply a road laid out by said Court Commencing at a point near the Johnson School House on a public road leading from Ansonville to Glen Hope. Thence extending to a point on a public road leading from Berwindale to Irvana, a Road was laid out and Confirmed absolutely on the

8th day of May 1897 which vacated a portion of said road and supplied the same by a new road. That a part of the said road supplied has been opened by the Supervisor and a part has not yet been opened, to wit; The part marked on the draft as being 59 perches in length and South 5° East in direction being the section West of the point marked point of vacation, on the draft attached to the proceedings in said case, not as yet being opened. But the old road indicated by the green dotted line on said draft and located partly on the line between Hunternd Johnson is opened and used at that place. That the old road is a good road and has been traveled for about five years is in good state of repair and but very little longer in distance than the road made to supply it. That \$50.00 damages was awarded to Mary J. Johnson for damages in the construction of that section of the road. The payment of which would be obviated by leaving the road as it now is at said point as well as costs of opening the said road as laid out.

Your petitioners therefore pray the Court to Change the location of this road returned to No 19 Sept. Sess. 1896 so that the road shall at the point indicated be located upon the ground upon which it was located prior to said proceedings and to vacate the section of road consisting of 59 rods heretofore mentioned, and supply the place thereof by the old running straight run between Johnsonnd Hunter in an Easterly direction and thence along the said line in a Northerly direction to the point of vacation on the said draft, and they will ever pray

Now 28th May 1900 petition readnd considered and thereupon J. S. McCreery, George J. Blacknd James M. Keenaw are appointed viewers to view the road to be vacated and the supply thereof in accordance with the prayer of the petitioners and to make report thereof the next term of Court.

3rd Sept. 1900 Petition filed

To The Honorable Judges & etc

The petition of the undersigned inhabitants of Union Township in the County of Clearfield respectfully represents. That they labor under great inconvenience for want of a Public Road to begin at a point on the Public road leading from Home Camp to the Sabula Road at "Boot Jack" near Wm H. Brown's barn at west end of a place on said road known as "the fill" and to end at a point on Sabula road known as "Boot Jack" following division line between lands of J. H. Vause and James Cunningham in said Township of Union to the Sabula road. Thence point known as "The Boot Jack"

The petitioners Therefore pray the Court to appoint three disinterested persons qualified according to law. to view the ground proposed for such road, and if they see occasion to lay out the same, and to inquire of and vacate the public road now opened from that point known as the "fill" near Wm H. Brown's barn aforesaid on line of, and point of beginning of the proposed road to the point on the Sabula Road known as the "Boot Jack" in said Township of Union, which said last mentioned road will by reason of the laying out of the proposed road become useless, and make report of their proceedings to next Court.

And Now 3rd Sept 1900 The within petition having been presented and considered. The following named persons are appointed to wit Geo. C. Kirk, Charles Shoemaker and Earl Brubaker to view and lay out said road and make report to Dec. Term of said Court, By the Court

8th Dec. 1900 Road^{2d} Confirmed Ni Si. By the Court.

14 Feby. 1901 Confirmed absolute. Grant H. Thompson P.

We the undersigned appointed by the annexed order do report. That in pursuance thereof, after having been severally duly sworn according to law. All the viewers appointed by said order, viewed the ground proposed for the within mentioned road and we do agree that there is occasion for a road as desired by the petitioners and that the same is necessary for a public road, and having had respect to the shortest distance and the best ground for such. We have laid out in such manner as shall in our opinion do the least injury to private property and as far as practicable agreeably to the desire of the petitioners and do return for public use the following described road to wit. Beginning at a point on Sabula road and known as the "Boot Jack". Thence S. 10 $\frac{1}{2}$ ° W. in road now laid out on lands of John Vause 528 ft. Thence still on lands of said Vause S. 23 $\frac{1}{2}$ ° W. 416 ft to a point in the line between lands of said Vause and James Cunningham Thence N. 89 $\frac{1}{2}$ ° E. on the line between lands of said Vause, James Cunningham and Joseph LaRock. and partly on lands of Wm H. Brown 1984 ft. to a point in the public road leading from the "Boot Jack" to Home Camp.

We further report that there are no damages accruing to any of the owners of the land over which said road passes by reason of the opening of same, except Wm H. Brown and therefore having taken into consideration the advantages as well as the disadvantages to be derived to the said Wm H. Brown from the road passing through his land, we have assessed the damages sustained by the said Wm H. Brown, at the sum of \$5.00 as hereinafter stated that we have enquired and do recall the following described public road to wit. Beginning at a point in the public road leading to Sabula (also the beginning point of the first mentioned road) Thence S. 80 $\frac{1}{2}$ ° E. 390 ft. Thence S. 84° E. 213 ft. Thence S. 34 $\frac{1}{2}$ ° E. 270 ft. Thence S. 49 $\frac{1}{2}$ ° E. 444 ft. Thence 73 $\frac{1}{2}$ ° E. 277 ft. Thence S. 83 $\frac{1}{2}$ ° E. 414 ft. Thence S. 49° E. 181 ft to a point where the above described road ends. That before the said view public notice of the time and place of the meeting of the viewers was given by advertisements put up at three of the most public places in the vicinity, that notice was given to the County Commissioners by mailing a notice to them, that personal notice was given to the supervisors of Union Township as well as to all the owners of the land over which said road passes and the road to be vacated. Ten days before said view. And we annex a plot or draft of said road laid out stating the courses and distances, and noticing briefly the improvements through which the same passes, and also a description and draft of the road vacated.

3rd Sept. 1900 Petition filed

To The Honorable Judges & etc

The undersigned citizens of Giard Township respectfully represent. That in 1857 a public road was laid out leading from Wolf run in Lawrence Township to Northaus in what is now Northaus Township. - That portions of said road have been opened up but that the portion of said road located in Giard township leading from Tyler Murays to the farm of Alexander Murays was never opened. That the above mentioned portion of said road is not needed for the reason that there is a public road running parallel with the same between the above mentioned points which affords all the accommodation that

the traveling public needs. - That the said road would be very expensive to make and would not be passable in winter on account of the drifts. - That Giard Township at the present time is heavily in debt and unable to make new roads. - That this piece of road being useless by reason of the other road having been made through between the same points should be vacated. - They therefore pray your Honorable Court to appoint three viewers to view and vacate the same and make return to the next term of said Court and they will ever pray.

We the undersigned citizens of Pike Township in said county respectfully represent that a road was long since laid out from Little Clearfield Creek to connect with a public road leading from near the town of Clanta to New Millport at or near the farm of Abram Snyder. That a portion of said road has become dangerous from where the said road now crosses the Beech Creek Rail Road and should be vacated and supplied, 1st because the grade at point of crossing rail road is very steep 2nd Because after crossing rail road the Engine of the Erhard saw mill being located close to the road makes it dangerous to drive horses along the same. 3rd Because the tramway of Erhard's leading into mill is too low to allow of high loads to pass under the same.

4th Because by changing route of said road at this point a better place can be obtained for building a bridge across to Clearfield Creek in order to connect with a public road on opposite side. We therefore pray your Honorable Court to appoint viewers to view vacate and supply that portion of above mentioned road from where the same crosses the Beech Creek Rail Road at or near Erhard's Mill to bank of Clearfield Creek and to supply the same from said Rail Road crossing to Clearfield Creek, and they will ever pray

The petition of the subscribers respectfully
 sheweth; That they labor under great inconven-
 ience for the want of a better public road
 leading from Shawsville in Loshen township
 to Woodland in Bradford Township, said
 road to start at a point in present road at
 Oak Tree about midway between the Archibald
 Shaw Homestead and the Grant Luzier
 residence in Bradford Township on south
 side of old road and extending about 190
 perches to a point in said road near
 line of A. H. Wilson in said Township

and your petitioners would further state
 that said road is greatly needed for the reason that the old
 road is unsafe and unfit for travel having a grade of 18 feet
 to the 100. and the proposed new road for supply can be
 had at a grade not to exceed 7 feet to the 100 at any point

To the Honorable Cyrus Gordon, President Judge of the Court of Quarter Sessions of Clearfield Co. Pa. We the undersigned viewers appointed by the within order of Court to view and lay out the bridge therein mentioned. Respectfully report that we gave good and lawful notice of the said view and met agreeable thereto and, having been severally sworn or affirmed we viewed the place for the proposed bridge. We are of opinion that a bridge is necessary there and that its erection would cost more than it is reasonable the taxpayers of Pike Township and the Borough of Curwensville should bear. We therefore recommend that the County of Clearfield build the Superstructure and the abutments and that the Township of Pike, and the Borough of Curwensville fill the respective approaches, and that the bridge be made 210 feet in length in the Clear and 18 feet from Low Water to the floor of Bridge. To reach the said Bridge if built we hereby lay out and do return for public use the following road to wit: beginning at a post on the Bloomington Road near the house of James A. Norris Thence North 16 degrees 30 minutes West 986 feet to the end of the said Bridge, which road is necessary in our opinion for a public road if the said bridge is built.

To The Honorable Judges etc

The petition of the undersigned inhabitants of the Township of Bell, in the said County respectfully sheweth;

That a bridge is much wanted over Chest Creek near Robert Mahaffey's Mill at the place where the public highway from New Washington to Mahaffey crosses said Creek in the Township aforesaid, the ford there being frequently rendered impassable by reason of ice and high waters and that the expense of erecting said Bridge would be too heavy and burdensome upon the inhabitants of the said Township

May 1st 1901 Report of Viewers filed

We the Grand Jury after hearing the evidence on the proposed bridge as to its necessity and as to the burden being too great for the Township of Bell to bear. We recommend the within as a County Bridge and do further find that said Bridge is necessary and would be too expensive for the Township of Bell to bear.

J. Gallagher - Foreman

11 May. 1901 Approved. By the Court. Cyrus Gordon J.

We the undersigned viewers appointed by the within order of Court to view the bridge. Therein mentioned respectfully report that we gave good and lawful notice of said Bridge view and met agreeable thereto and having been severally sworn or affirmed we viewed the ground and stream at site proposed for Bridge and roads leading thereto and are of opinion that the Bridge now in use at said point is unsafe being built on cribbing, some of which is liable to give away at any time. further that a new Bridge is needed across Chest Creek on road leading from New Washington to Mahaffey as within named. and that the erection thereof would cost more than it is reasonable the Township of Bell should bear. We therefore recommend that the County build the abutments and Superstructure and that the said Twp. of Bell make the new road necessary to reach Bridge in new location and fill the approaches to the said bridge, which bridge we recommend to be 150 feet span in the clear and roadway 15 feet above low water. to reach Bridge in new location we have laid out and do return for public use the following location. we have laid out and do return for public use the following road to wit: Beginning at a post in public road leading from New Washington to Mahaffey. Thence North 67 3/4° East 47 feet to a post thence North 35 1/2° East (at + 83 feet end of proposed Bridge) a total distance of 298 feet to post in said road leading from New Washington to Mahaffey about 70 feet from where said road crosses Penna. and Northwestern Rail Road. which road as laid out is necessary in our opinion for a public road and which having been laid out the following road to wit: Beginning at starting point of road laid out thence by road now in use South 89° East 142.4 feet thence by the same crossing bridge now in use North 44° 10' East to road leading from Mahaffey to Lappan. which road by reason of laying out of road aforesaid has become useless inconvenient and burdensome and should be vacated. By virtue of a commission given the 6th day of July A.D. 1903 appointing C. B. Alexander, A. B. Reed and T. A. Gaulin Inspectors to view the County Bridge recently built and completed over the Susquehanna River
at the end of Susquehanna Avenue in Curwensville Boro. where the said Avenue would cross the river to a point on the oppo-
site side of said river on the public road leading to Bloomington, Pa, and report whether said bridge has been built according
to plans and specifications and if said bridge should be paid for in accordance with the terms of the Contract made
for the building thereof. Therefore we the said three inspectors, being duly sworn, do respectfully make
report as follows; That we the said Inspectors being provided with plans and specifications and contract
for the building of this bridge, met at said bridge on July 22nd 1903 and proceeded to examine same
and make comparison with plans. we found said bridge to the best of our knowledge to measure up to the
plans given in the contract for same, to have the required strength, and to be placed as per contract. All ^{the} parts of the
structure seemed complete and to be properly fitted, excepting the absence of six small bolts which are not of
material importance and were cut away to aid in the better fitting together of the parts of the bridge,
your Inspectors would therefore recommend that the bridge be accepted as per contract. Your
Inspectors would further suggest that the trench around the abutments, left open by the masons after
completing the stone work, and now full of water, be filled with gravel or dirt, as a better protection to
the groundwork of the masonry.

18th Oct. 1901 Petition filed

To the Honorable the Judge of the Court of Quarter Sessions of Clearyfield County, We the undersigned citizens of Chest and Jordan Townships respectfully represent that a road was laid out, but not yet opened in Chest & Jordan townships, beginning at a point on public road leading from Berwensdale to M^{rs} Therron in Chest Township, and extending from said point through said townships to a point on public road in Jordan township commonly called the Witmer Road. That said road was duly confirmed Febry, 14th 1901. That said road as laid out is to steep to be of any use it being in many places over 8° and would add a useless burden to the people of said townships. - They therefore pray your Honorable Court

to appoint viewers to vacate the same.

And they will ever pray.

18 Oct. 1901 The within petition read and considered and Thomas W. Moore, John W. Hurd and J. Cortes Bell are appointed viewers to view and vacate said road and make report thereof to the next term of court.

the County of Clearfield furnishing the Iron or
Superstructure of said Bridge and also gave
\$1000. towards the erection of the Abutments of said
Bridge. Your petitioners would further represent
that the care maintenance and responsibility of
said bridge in greater than it is reasonable
that the said Township or Townships could bear
and that said Bridge is rusting for want of

Paint and also requires other repairs to maintain said bridge
and keep it a good condition.

Your petitioners therefore pray the approval of said Court to the entry of

The petition of the undersigned inhabitants of the Township of Chest. County of Clearfield and State of Pennsylvania, respectfully represents: That a bridge is much wanted over Chest Creek at St. Lu. Mill where the main road leading from New Washington to Westover in said County crosses said Creek, the fording being frequently rendered impassable by reason of ice and high waters; and that the expense of erecting said bridge would be burdensome upon the inhabitants of said Township and more than is reasonable they should bear.

Your petitioners therefore pray the Court to appoint proper persons, qualified according to law, to view the place proposed for said bridge, and inquire whether such bridge is necessary as aforesaid, and make report at next term of Court.

And they will ever pray, &c.

We the undersigned Viewers appointed by the foregoing order of Court to view the site for a Bridge at St. Lu. Mill in Chest Township across Chest Creek where the main road leading from New Washington to Westover crosses the said Creek. Do Report that having given due notice of ten days of the time and place of said View. We all met and being duly sworn or affirmed we have viewed the site for said proposed Bridge, and are of the opinion that a Bridge is needed at this point and that the expense of erecting the same would be greater than said Chest Township could bear, and would respectfully recommend that the County should erect the same. We further find that the length of said Bridge should be 100 feet, and width 16 ft, and Abutments, about 12 feet above low water, all of which we respectfully submit.

Now therefore your Inspectors pray to report that having appointed a day of meeting, Monday November 30, 1908, and having given notice to the contractor by registered mail as directed and having also notified the County Commissioners of such date of meeting, went upon the ground on said appointed date and after being duly affirmed, proceeded to inspect the work done upon said bridge, according to the contract made, and to the specifications and plans.

In the matter of the steel superstructure we find that the requirements of the specifications - there were no plans for this part of the work - have been carried out fully in the changing of the diagonal rods adjacent the new panel; in the addition of an entire new panel as specified changing the bridge from a seven panel to an eight panel structure.

The dimensions of all members of the new panel are as the corresponding members of the rest of the bridge; the workmanship is as good,

Thomas W. Moore (2355)
 J. P. P. (2364)
 Rodney Charles (2365)

The petition of the undersigned inhabitants of the Township of Penn. in the County aforesaid, respectfully represents:

That a public road has long since been laid out, beginning at a point on the public road leading from Grampian to Luthersburg, at or near the residence of George Dursch, thence in a southerly direction, through lands of formerly Wm. Bigler, to bridge on Curry Run about 80 perches below the main forks of said run. Thence down Curry Run to the Southern line of Penn Township, being the boundary line between Penn and Greenwood Township, which road has become useless, inconvenient and burdensome.

Your petitioners therefore pray the Court to inquire of and vacate said road and for that purpose to appoint three persons qualified according to law, to view said road and inquire of the premises and make return of their proceedings at the next term of Court.

Now May 12th 1902 the within petition read and considered and Jno Penty, Rodney Charles and Thomas W. Moore are appointed Viewers as within prayed for to make report to next term of Court.

No 11 - September Term, 1902

We, the undersigned viewers appointed to review on view previously made by Messrs. Harry Byers, James Savage and Aaron Shirey - April 22nd. 1904; to vacate and supply public roads herein mentioned, respectfully report that we gave good and lawful notice of said review to the County Commissioners of Clarfield County, to the Supervisors of Laurence and Goshen Townships and notices were posted along route of said review. On May. 1st, 1905 as per notices given your viewers met as appointed and all being present were severally affirmed and proceeded to receive testimony and to review to vacate and supply public road herein mentioned.

Your viewers respectfully report that they carefully considered the testimony given in favor of and against the proposed change in roads also examined into the location and benefits of said roads. Your viewers note that heavy damages

were asked by the property owners in making said changes and that it would be of considerable expense to construct said new road. Your viewers also found much opposition to making these changes from citizens interested. In the opinion of your viewers the proposed changes in said roads will cause a heavy expense on the townships concerned without sufficient benefits. Your viewers would therefore respectfully recommend that no change be made in these roads, that is no vacation and no supply. This report is filed with report of previous view as mentioned above. Witness our hands this 5th day of May A. D. 1905.

The petition of the undersigned citizens and residents of the Township of Brady, respectfully represents:-
That the public road leading from Adam Schocke residence to Fred Knarrs residence in said Township, has been laid out for many years and open for public use. That that part of said road beginning at a point at G. F. Winger's house and ending at Fred Knarrs farm at his dwelling house and lying between the public road leading from Abraham Gallentine to Jacob Foudy and the public road leading from Schocke's watering trough to Alvin Sugats, has become useless and burdensome and inconvenient and has been replaced by other public roads.

Your petitioners therefore pray the Court to inquire of and vacate said road and for that purpose to appoint three persons qualified according to law to view said road, and inquire of the premises, and make report of their proceedings to next term of this Court, and they will ever pray.

1st Sept. 1902 petition read and thereupon Geo. C. Kirk, E. Ashenfelter and C. H. Goodlander are appointed viewers as prayed for to report to next term of Court.

We the undersigned, appointed by the annexed order do report: That in pursuance thereof, after having been duly sworn, all the viewers appointed by said order, viewed the road to be vacated, and we do agree that there is occasion to vacate said public road as desired by the petitioners, and we do therefore vacate the following described public road, which by reason of having been supplied by other public roads in the vicinity has become useless: Beginning at a point in the public road leading from Gallentines to Foudy's, thence North 52.5 ft to a post, thence N 53° 15' W. 289 ft. to a post, thence N. 41° 45' W., 100 ft. to a post, thence N. 48° 45' W. 127.5 ft to a post, thence N. 40° 45' E. 200 ft to a post, thence N. 10° 00' E., 1092 ft. to a point in the public road leading from Luthersburg to Alvin Sugats. That before said view, public notice of the time and place of the meeting of said viewers was given by advertisements put up at three of the most public places in the vicinity, ten days before said meeting, that notice was served on the Supervisors of Brady Twp., and on the owners of the land through which said road passes, and on the County Commissioners. That there are no damages resulting to any one of the owners of the land over which said road passes, by reason of the same. We annex a plot or draft of said road vacated stating the courses and distances and noticing briefly the improvements through which the same passes.

Petition of the undersigned citizens of Brady Township, in said County, respectfully represents:

That a bridge is necessary across the East Branch in said Township, on the public road leading from Troutville to Newtonburg, the old bridge across said stream being substantially worn out.

That the cost of a new bridge at said point would be in excess of what the township of Brady is able to bear, and would be burdensome. They therefore pray that said bridge be made a county bridge, to be built and paid for by the County of Clearfield, and that viewers be now appointed to view the same and report at the next term of said Court.

We the undersigned appointed by the annexed order, do report, that in pursuance thereof, after having given due and legal notice by public hand bills, and also after giving notice to the Supervisors and the County Commissioners, we did meet on the ground in pursuance of said notice and viewed the premises. We further report that a bridge across said stream at the place indicated in the petition is necessary, and that it should be a thirty foot span, sixteen wide, with stone abutments supporting the same. We further report that the expense of said bridge would be burdensome to the Township of Brady, and we recommend that it be built at the expense of the County of Clearfield. We herewith annex the plot and draft of said bridge and its location.

We the undersigned, appointed by the annexed order do report: That in pursuance thereof after having been severally sworn, all the viewers appointed by said order, viewed the ground proposed for the within mentioned, and we do agree that there is occasion for a road as desired by the petitioners, and that the same is necessary for a public road. And having had respect to the shortest distance and the best ground for such road, we have laid out in such manner as shall, in our opinion, do the least injury to private property, and as far as practicable agreeably to the desire of the petitioners, and do return for public use the following described road to wit: Beginning at a point in the Erie Turnpike on the line between lands of John Lankard and the Samuel Postlethwait heirs; thence N. 17° 45' E. on line between lands of said Lankard and Postlethwait heirs respectively, 1416 ft. to a line tree, thence N. 0° 45' W. on improved lands of said Postlethwait heirs 956 ft. to a post. Thence still on said lands N. 17° 45' E. 141 ft. to a post, thence still on same North 172.5 ft. to a post on line, between lands of said Postlethwait heirs and Henry Walburn; Thence partly on land of said Henry Walburn, and partly on land of John McCurdy 96.5 ft. to a point in the public road leading from Luthersburg to DuBois, that there are no damages resulting to any one of the owners of the land over which said road passes, by reason of opening the same, except to John McCurdy and Henry Walburn, and therefore, having taken into consideration the advantages as well as the disadvantages to be derived to the said John McCurdy and Henry Walburn, respectively, from the road passing through their lands we have assessed the damages sustained by them as herein after stated. That before the said view, public notice of the time and place of the meeting of said viewers was given by advertisements put up at three of the most public places in the vicinity two days before said meeting that notice was served on the supervisors of Sandy Twp. and on the owners of seated lands through which said road passes, and on the County Commissioners, and we annex a plot or draft of said road laid out, stating the courses and distances, and indicating briefly the improvements through which the same passes.

We the undersigned appointed by the annexed Order, report in pursuance thereof. After having been severally sworn according to law to perform the duties of our appointment with impartiality and fidelity to the best of our abilities, all the viewers appointed by said Order on the 10th day of October 1902, viewed the ground proposed for the within mentioned road and also the section of road to be vacated and do agree that there is no occasion for said section of road to be vacated as we have not found it undermined, unsafe or useless as claimed by your petitioners. But we do agree with your petitioners that the proposed road would be better and shorter therefore less expensive to keep up. We therefore agree that the proposed road be made at the expense of your petitioners as they are the parties that will be benefitted by the change of road. We therefore vacate and supply that portion of the public road as desired by your petitioners on the above conditions and do vacate and supply the following portions of the public road respectfully, viz: Beginning at a point N. 70° E. 611 ft. from Houtzdale Borough line, thence N. 73° 30' E. 469 ft. to a point, thence N. 64° E. 199.3 ft. to a point, thence N. 44° E. 331.8 ft. to a point, thence N. 39° 30' E. 234 ft. to a point on the Houtzdale and Osceola road and terminus of vacated portion of said road. That a road has long since been laid out for public use and been used in the said Township, which is a part of the public road leading past the residence of Fred S. Bloom to the Borough of Curwensville.

That by reason of the growth of the Borough of Curwensville, the land along a part of the said road running through land formerly of Zachariah McNaul has become inconvenient and burdensome, and that as streets have been laid out in that section, the road should be changed so as to make a less

crooked road and to better accommodate the inhabitants and the public.

That that portion of said road beginning at the point where said road intersects Bloom Street in the Village of Naulton, to the point where said road crosses the line of land now or formerly of Fred S. Bloom, is useless, inconvenient and burdensome, and should be supplied by another public road. They therefore pray the Court to appoint viewers to view the said road and make report thereon to the Court at next term of Court.

The petition of the undersigned, who are citizens residents or property owners of the Township of Pike and adjoining neighborhood in the County and state aforesaid, respectfully represents: That by proceedings had in said Court to No. 3 Sept. 1892 a public road was laid out and was subsequently confirmed by the Court. That the greater part of said road was opened and has ever since been used by the public.

That part thereof, viz: Beginning at a point on land of Zachariah McRaul. Thence North $8\frac{3}{4}^{\circ}$ East 411 feet to a post on land of Fred S. Bloom Thence North $19\frac{1}{2}^{\circ}$ East 464 feet to a point on land of Fred S. Bloom "has never been opened as each end thereof was in the then existing public road, which was never vacated and has ever since been used by the public.

That the part of the road hereinbefore described is useless, inconvenient and burdensome, will be expensive to build and in the view of the now thickly settled character of that region, injurious to private property and will spoil the regularity of the streets being there laid out. We, the undersigned, appointed by the annexed order do report; That in pursuance thereof after having been severally duly sworn, all the viewers appointed by said order, reviewed the ground proposed for the within mentioned road, and we do agree that by reason of the very heavy grade on the old road, there is occasion for a change of the said road as desired by the petitioners, and that the same is necessary for a public road. After having had respect to the shortest distance and the best ground for such road, we have laid out in such manner as shall, in our opinion, do the least damage to private property, and as far as practicable, agreeably to the desire

of the petitioners, and do return for public use, the following described road, to wit:—Beginning at a point in the Woodland road leading to the road leading from Egypt to Grahampton, near Cyrus Nephew's House, thence S. $7\frac{1}{2}^{\circ}$ W., 133 ft. to a post, thence S. $26\frac{1}{4}^{\circ}$ W., 120 ft. to a post, thence S. $12\frac{3}{4}^{\circ}$ W., 99 ft. to a post, thence S. $22\frac{1}{2}^{\circ}$ W., 122 ft. to a pine, thence S. 9° W. 90 ft. to a pine, thence S. $31\frac{1}{2}^{\circ}$ E., 98 ft. to a Red oak, thence S. $46\frac{1}{4}^{\circ}$ E., 448 ft. to a pine, thence S. 30° E., 277 ft. to a post, thence S. 41° E. 200 ft. to a post, thence S. $31\frac{1}{2}^{\circ}$ E., 195 ft. to a post, thence S. $24\frac{3}{4}^{\circ}$ E., 145 ft. to a post, thence S. $35\frac{3}{4}^{\circ}$ E., 230 ft. to a post, thence S. $29\frac{1}{2}^{\circ}$ E., 154 ft. to a post, thence S. 35° E., 238 ft. to a Pine stump, thence S. $9\frac{1}{2}^{\circ}$ W., 129 ft. to 129 ft. to a post, thence S. $30\frac{1}{2}^{\circ}$ W., 245 ft. to a post on woodlands of J.  J. M. Smith 2676 250

That a bridge is much wanted, over the Luthersburg Branch of Sandy Creek at the place where the Public Highway leading from St. Bois, in said County to Rockton, in said County, crosses said creek, that said crossing requires a bridge about forty five feet long; and that the expense of erecting said bridge would be burdensome upon the inhabitants of said Township, and more than it is reasonable they should bear.

We met and being duly qualified, we have viewed said site and find the Bridge, at that point, in an unsafe condition (and being a wooden one, must be replaced soon) and as we are of the opinion that the expense of erecting such a structure as the traveling public require, would be too great an expense for the Citizens of said Sandy Township to bear. We would recommend that the County should build the same. Have also ascertained that length of span should be 50 feet and 16 feet (in the clear) roadway, all of which we respectfully submit.

Dec. 2nd 1903 Report of Viewers filed

We the undersigned Viewers appointed by the within order of Court to view for the bridge therein mentioned respectfully report that we gave good and lawful notice of said bridge view and met agreeable thereto and viewed the ground and stream at sight proposed for bridge and roads leading thereto and being severally sworn or affirmed do report as follows: we are of the opinion that the bridge now in use at said point being made of sternlock stringers overlaid with plank, will not give service for any great length of time, and that the length of the span and the methods of building present structure make its value doubtful for heavy hauling and that a new iron bridge or steel is needed across Bear Run opposite the Sherwood House in Bell Township and further that the construction thereof would cost more than is reasonable that the Township of Bell should bear. We have further noted that the abutments now in use at this point under the present wooden bridge are of a good class of Masonry and have the appearance of being well preserved. It is our opinion subject to the decision of the Engineer in Charge when the kind and weight of bridge for this place may be finally selected, that these abutments now in use with a few repairs will be sufficient to place thereon the new bridge.

We therefore recommend that an iron or steel bridge be placed at this point said bridge to have a length of 40 feet or such as will fit the present abutments and to be placed the same height above low water as the present bridge, and same to have a roadway of 16 feet. We further recommend that in the construction of this bridge the within mentioned County of Clearfield supply the iron work or superstructure and the erection thereof and that the within mentioned Township of Bell repair and put in proper shape for service the abutments for said bridge, all to be done under the supervision of a competent Engineer. a plot or draft of location of bridge is herewith attached.

Report that we find the present Bridge a wooden structure upon wooden abutments in a very much decayed and dangerous condition and must soon be replaced by a new one, or the Public travel will be interrupted, and further believing that the expense of a new Bridge, would be greater than the inhabitants of said township would reasonably bear, and also that a Bridge at this point is necessary, for the Public travel, we would recommend that the County build the same. And further would report, that in our opinion the Bridge should be an Iron structure placed on stone abutments, of a length between abutments we think thirty feet sufficient and Ten feet high above low water mark, with a roadway of 16 feet. We the undersigned citizens of Knox Township respectfully represent that a portion of a public road long since laid out leading from Turkey Hill school house in Jordan now Knox Township and ending near the house of Samuel Shoff in Bigler Township has become useless and burdensome to the inhabitants of Knox Township and should be vacated from a point at or near the southern line of the Abram Walker farm to a point where the private road of Calvin Snyder joins the same.

Your petitioners therefore pray your Honorable Court to appoint viewers to vacate and supply the same and make report thereof to the next term of court and they will ever pray.

23 Feb. 1904 Confirmed Absolutely By the Court Grant S. Thompson, Pro.

We the viewers all met and viewed the original location of said road, and in our opinion no necessity exists for opening road on the old view as a good and acceptable road, hereinafter described now and for many years has existed, taking the place without inconvenience or discomfort, of the original located road; We would therefore recommend the vacation of that part of the original road survey, as described in our instructions on first page of this report, on which no improvements now exist Beginning at division line of farms of A. W. Walker and A. B. Owens, and continuing thence in a southeasterly direction through farms of said A. B. Owens and J. P. Owens a distance of about 1800 feet to intersection with public Road adopted and now in use, at point on J. P. Owens' farm. We further recommend in substitution for the original survey, that road improved and reported for the most part to have been in use for 23 years; Beginning at division line between A. W. Walker and A. B. Owens' properties and ending of Public Road now on original survey and leading through the A. W. Walker farm, thence through farm land of A. B. Owens S. 32° and 30' west 140 feet to intersect with division line between properties of A. B. Owens and Isaac Wolf, and J. P. your petitioners respectfully represent that a bridge is very much needed over the Susquehanna River at a point a short distance above the breast of the old dam, formerly the property of George Patchin in Burnside Twp. said Clearfield Co.

For many years a bridge has been maintained immediately below the breast of said dam partly by the township and partly by public spirited individuals. The building and keeping in repair of this bridge in this manner has always been quite burdensome, and petitions for a County bridge at this place for some unaccountable reason have been uniformly ignored. Your petitioners believe the fact that three fourths of all the travel between Patchinville and Cherrytree passed over this bridge when it was

in repair, is sufficient evidence of the necessity of a County bridge at this place.

And your petitioners further represent that on account of the opening of Coal Mines, the building of railroads, new homes and other improvements, and the great increase in the amount of travel passing this place will in their judgment, make a County bridge at this point a prime necessity.

Dec. 7. 1903 Report of Viewers filed

We the undersigned viewers appointed by the within order of Court to view the bridge, therein mentioned respectfully report, that we gave notice of the said Bridge View, and being severally sworn or affirmed. We viewed the location of said bridge and find that a bridge has been maintained at Longdon Mill but said bridge is now gone, except foot logs spanning the river, and whereas the roads leading to the west ^{end} of said Bridge are along the River banks on low ground overflowed by floods, and each leads to a railroad crossing within half a mile, with no person living between said railroad and the bridge, and whereas the bridge if located at the point named in the within order as pointed out, would merely connect the roads on each side of said and being an unfavorable location for a public road crossing to be built over the said railroad, and whereas, the building of the said railroad on the west side of the river this year has changed conditions so that now it is safe to travel the road on the East bank of river to Cherrytree, and whereas the road from the bridge should lead directly across the railroad aforesaid to reach higher ground, whence it could be extended to accommodate the residents in the immediate neighborhood and be of use in future development of Shuhook Run County, and whereas the bridge would meet the aforesaid requirements if located where formerly kept up. Now therefore we are of opinion that a bridge should be built immediately below the old Longdon Mill. That the cost of building the same is more than it is reasonable the Township of Burnside should bear, and that the County of Clearfield should build the said Bridge which Bridge is necessary in our opinion for a public Bridge. A plot or draft showing the location of the proposed bridge is hereto annexed

We are of opinion that the road should not be laid out at this time and therefore report against granting the same. We would respectfully report further recommending that an effort be made to reduce indebtedness of road fund and when finances warrant it and Coal operations along route of said road are more fully developed, a road should be laid out up the valley as prayed for thereby providing a short road with good grade from Coalport to Utahville.

We further report that there were no claims for damages presented to the viewers by any of the owners of the lands through which said road passes except Catherine McElinsey and Henry Stagner, and therefore, having taken into consideration the advantages as well as the disadvantages to be decided to the said Catherine McElinsey and Henry Stagner respectively from the road passing through their lands, we have assessed the damages sustained by the said Catherine McElinsey at \$20.00 and the damages sustained by the said Henry Stagner at \$15.00. We further report that we have inquired of and do vacate the following described public road, which has never been opened. Beginning at a point in the public road leading from Rock Spring School House to Joseph Parish, at the South East corner of said Parish's land, thence North 104½ ft. to a post, thence N. 63° E. 700 ft. to a stemlock, thence N. 44½° E. 290 ft. to a post at end of said road on the thousand acre lot, which by reason of the laying out of the first mentioned road has become useless. That before the said view public notice of the time and place of the meeting of said viewers was given by advertisements put up at three of the most public places in the vicinity before said meeting. That personal notice was given to all the owners of the lands through which said road passes, also on Thomas Miller, Andrew Ling and G. W. The 30th 1903 Report of Viewers filed

We the undersigned Viewers appointed by the within order of Court to view for the Bridge therein mentioned respectfully report that we gave good and lawful notice of the said bridge view and met agreeable thereto and having been severally sworn or affirmed, we viewed the ground and stream, at sight proposed for bridge and roads leading thereto and are of the opinion that a bridge now in use at said point will not much longer be a safe means of transit as same has been built of wood, poorly constructed and is now much delapidated and decayed from age and use. Further that a new bridge is needed across Bell Run on Road leading from Curry Run to Lumber City as within named, and that the construction thereof would cost more than is reasonable that the Township of Greenwood should bear. We therefore recommend that an iron or steel bridge be placed at this point on properly constructed abutments, said bridge to have a span of 40 feet in the clear and to be constructed at such a height as to allow a clearance space of 6½ feet above low water mark, and further said bridge to have a roadway of 16 feet. We further recommend that in the construction of this bridge the within mentioned County of Clearfield supply the ironwork or superstructure and the erection thereof, and that the within mentioned Township of Greenwood construct the necessary abutments and prepare the approaches. The entire construction to be made under the supervision of a Competent Engineer, a plot or draft of location of bridge is herewith attached.

Review Public Road in Woodward Twp to No. 6 Sept. T. 1903

The petition of the undersigned, inhabitants of the Township of Woodward and vicinity in said County of Cheasfield, would respectfully represent;

That by a proceeding had in said Court to No. 6 September SS., 1903 the viewers have made report in vacating a certain public road wholly within Woodward Twp. said County, leading from a point known as the cross roads near the John M. Chase Homestead to a point near the Milton Hampton homestead on public road leading from Jeffries post office to James that if said report is confirmed it will be very injurious to your petitioners and the public as there are many residents along the route of said road who will have no public road by which they can travel to and from their properties.

Your petitioners therefore pray your Honor to appoint suitable persons to review the said road and parts adjacent, and make report to the Court, according to law; and they will ever pray.

Now December 7th 1903 the within petition, read and considered and thereupon, C. B. Alexander, S. J. Burge and James Savage are appointed to review the road proposed to be vacated and make report thereon at next term. By the Court

The petition of the undersigned citizens of Woodward Township would respectfully represent that viewers were appointed by your Honorable Court to No. 7 September Sessions 1903 to view and vacate a road extending from a point near Sanborn School House to a point on the public road leading from Faunce to Clearfield near Sanborn near Sanborn Bridge and reported in favor of the vacation of said road. That your petitioners feel that the confirmation of this report would seriously inconvenience them as it is the best grade and shortest road to the County seat. We therefore pray your Honorable Court to appoint Viewers to review said road and they will ever pray.

We the undersigned viewers appointed to review to vacate public road herein mentioned respectfully report that we gave good and lawful notice of said review to the County Commissioners of Clearfield County, the Supervisors of Woodward Twp. and notices were posted, all according to law. The date for said review being first set for Jan. 22, 1904, and on account of the weather and the impassible condition of the public roads, not permitting travel, said review was postponed to Jan. 27th 1904, due notice of said postponement being given to all parties concerned, a copy of notice for said review being herewith attached. On the 27th Jan. 1904 your viewers met as appointed and being severally sworn or affirmed proceeded to review said road same being shown on map herewith attached. And we further report that we find said road to be a "short cut" for travel of people of that neighborhood and especially in going to and from the County seat, saving a distance of from $1\frac{1}{2}$ miles to 2 miles travel by a more direct route. The length of this road for proposed vacation is about $\frac{4}{5}$ of a mile it is high on the hill and dry and approximately level. This piece of road is now in fair condition and can be kept so with little expense. it is free from snowdrifts in the winter time, while other courses of travel between its connecting points often become blockaded. For the above reasons and that this is a convenience to the traveling public, your viewers would respectfully recommend that it be not vacated.

We the undersigned, viewers appointed by the within order of Court to view and lay out the road therein mentioned, respectfully report:

That we gave good and lawful notice of the said road-view and met agreeable thereto, and a viewer being absent. we adjourned to April 12. 1904 and were then all present and having been severally sworn or affirmed, we viewed the ground for the proposed road and are of opinion that a public road between the points named in the within order is unnecessary, and that there is no occasion for such road, there being already a good road between the said points. we believe that a public road is needed from starting point in within order to Colorado No. 3 but such a road would not reach more than one-third of the distance to Hawk Run named as the terminus in within order.

- Ist That it would be impossible to make a road connecting the points named. Keeping within the requirements of law as to grade.
- IInd That the utility of such a road would not justify the expense and damage to property necessarily involved.
- IIIrd That the Supervisors of Knot Township recognizing the needs of Reuben Bloom for an outlet, which would be the only direct benefit derived from such a road, have this day agreed in our presence to procure right of way, supply the wire and fence a private road and maintain the same, supplying said want. we therefore report adversely.

We the undersigned Viewers appointed by the within order of Court to View for the bridge therein mentioned, respectfully report that we gave good and lawful notice of the said bridge View and met agreeable thereto and having been severally sworn or affirmed, we viewed the ground at sight proposed for said bridge and roads leading thereto and have found that the wooden bridge now in use at this point is very much decayed and broken down. We believe it is now unfit for travel and dangerous. In our opinion a new bridge is needed at this point where Big Muddy Run intersects the public road from Janesville to Utahville, as within named, and that the construction thereof would cost more than is reasonable that the township of Beccaria and Gulick should bear; We therefore recommend that an iron bridge be placed at this point on properly constructed abutments, said bridge to have a span of Thirty-Two (32) feet in the Clear, and to be constructed at such a height as to allow a clearance space of six and one half (6½) feet above low water and further said bridge to have a roadway of 14 feet. We further recommend that in the construction of this bridge the within mentioned Clearfield County supply the iron work or superstructure and the erection thereof, and that the within mentioned townships of Beccariand Gulick construct the necessary abutments and prepare approaches.

The petition of the undersigned citizens and taxpayers of Lawrence Township in said County, respectfully sheweth:

That the three following public township roads are useless, inconvenientnd burdensome, to wit:

First, That portion of the public township road leading from Turkey Hill to Olanta, beginning at a point on Front Street near the house of A. Emberg and where the Glen Richey road intersects with Front Street, and ending at a point on the O'Shanter road and the house of C. Norman.

Second, That portion of the public township road leading from Front Street to Glen Richey, beginning at a point on Front Street and house of A. Emberg and ending at a point on the O'Shanter road at lands of James Rummingsnd C. Norman.

Third, That portion of the public township road leading from Front Street to Mitchells, beginning at a point on Front Street near the house of Robert Stutchinson's heirs, and ending at a point on the O'Shanter road and the line fence of lands of James Norman and James Rummings.

That these three public township roads are in Lawrence Township and in the same district, being anywhere from 150 to 450 feet distant from each other and extending in distance anywhere from 100 to 225 feet; that they all lead from and to the same points, and are parallel to each other, and could be supplied by one road.

That a new road to supply said roads can be laid out at little or no cost to the township and without inconvenience and of easy access on a good grade; said new road to begin at a point on Front Streetnd house of W. Roman and end at a point on the O'Shanter road between the Glen Richey road and road leading to Mitchells being about 150 ft. Easterly from the intersection of Glen Richey roads with the O'Shanter roads. Your petitioners, therefore, pray your Honorable Court to appoint three competent Viewers to view and vacate said road and to report the new road to supply the same, with powers to vacate & supply.

Now this 2nd day of May 1904 the within petition being read and considered C. B. Alexander, W. J. Hoffer and Henry Burns are appointed viewers to view vacate & supply said roads and report at next term.

We respectfully recommend that the public road leading from Turkey Hill to Olanta, beginning at a point on Front Street near the house of A. Emberg, and where the Glen Richey road intersects with Front Street and ending at a point on the O'Shanter road and the house of C. Norman. 2. That portion of the public Twp. road leading from Front St. to Glen Richey, beginning at a point on Front St. and the house of A. Emberg and ending at a point on the O'Shanter roadnd lands of James Rummings and C. Norman. 3. That portion of the public Twp. road leading from Front St. to Mitchells, beginning at a point on Front St. near the house of Robert Stutchinson's heirs and ending at a point on the O'Shanter road and the line fence of James Normannd James Rummings, be vacated, 4. And that a new single road be supplied in place of the above roads; said road to begin at a point on Front St. and house of W. Roman and end at point on the O'Shanter road between the Glen Richey road and the road leading to Mitchells, being about 100 feet easterly from the intersection of the Glen Richey, with the O'Shanter road. We would also recommend that the junction of the Glen Richey road with the O'Shanter road be widened so as to make a safe means of entry on the said O'Shanter road in the direction of O'Shanter or Mitchells Station which latter Mr. Beson, the Supervisor of this district has agreed to do. We also respectfully suggest, since there seems to be some confusion in the roads at this place, the old road from the eastern railroad crossing leading through lands now occupied by A. Emberg to the bridge over Little Clearfield Creek not having been vacated, while the road or street now traveled by the public and leading from a point opposite the location of the proposed new railroad crossing to said bridge has not been legally adopted, that said roads be vacated and supplied.

To a point at the Irona Station of the Penna & Northwestern R.R., which point is in public st. known as Hopkins St. leading from the R.R. station to the town of Irona, respectfully report that we gave good and lawful notice of said view to the County Commissioners of Clearfield.

Sept. ss. 1904 Confirmed Ni Li. By the Court

Dec. ss. 1904 Confirmed Absolutely. By the Court

your viewers met as appointed and being severally affirmed proceeded with a hearing and view and survey for said road. your viewers have found that a road is necessary between the points given replacing a private road much traveled between the village and town mentioned, said private road being now practically closed and as same was almost the only outlet for public travel to and from the village of Wistar the residents of that vicinity are much inconvenienced for a means of ingress and regress. The proposed road has been laid out at a good grade and largely on good solid ground. The greater part of the road can be constructed without great expense. One stone or wooden culvert and bridge of about 60 feet span over Wistner Run will be required.

your viewers would therefore respectfully recommend that said road be granted and located as follows:- Beginning at a point at the South corner of the school house lot in the village of Wistar in Beccaria Twp. Thence N. 27-55 E. 1325' to a post; Thence N. 43-10 E. 224' to a post; thence N. 58-15 E. 235' to post; Thence S 84-20 E. 220' thence along right of way of railroad N. 78-55 E. 520' to a post, Thence N. 53-40 E. 600' to a point at the Irona Station of the Penna. & Northwestern R.R., which point is in public st. known as Hopkins street leading from the R.R. station to the town of Irona in Beccaria Twp. being about 3024 feet in length.

C.B. Alexander (2756) 14.00
W.C. Langford 2796 3.20
James D. Moore (2757) 6.00

That a new bridge is much needed at the place where the turn-pike leading from Glen Hope to Jamesville, crosses Clearfield Creek in the Borough of Glen Hope, as the old wooden bridge now located at said point has become much delapidated and is very unsafe. The old bridge should be replaced by a span of about 120 feet in length, and that the expense of erecting said bridge would be burdensome upon the inhabitants of said Borough, and more than it is reasonable they should bear.

We the undersigned viewers appointed by the within order of Court to view for the bridge therein mentioned, (James Moore being substituted by the Court for Dr. D.R. Good, as noted on the order to view) respectfully report that we gave good and lawful notice of said bridge view and met agreeable thereto and having been severally sworn or affirmed proceeded to view for said bridge. We found the wooden superstructure of the bridge now spanning Clearfield Creek at this point to be in a fair state of preservation and with some repairs could be made to do service for a number of years. However this being a covered bridge and leading directly out at the north end, or entering Glen Hope, on the newly constructed N.Y.C. & P.R.R. track makes an element of danger in the use of the present structure.

This however can be remedied by removing a portion of the boards in sections on the sides of the bridge, or by cutting them down in sections to such a height as would permit a person driving through the bridge to look out on either side, thus allowing one easily to note if a train was approaching before driving out of the end of the bridge. We have also found that while the abutment under the south end of the bridge is in a fair state of preservation the abutment under the North end is in such condition that it should be early rebuilt. We would therefore respectfully recommend that keeping in view the ultimate replacing of this wooden bridge by an iron structure that at the present time such repairs be made to the wood work as may be necessary that the sides of the bridge in some manner as suggested above thus permitting a view of the railroad tracks, and that a new abutment be built under the North end of the bridge of such form that it can later be used for the placing thereon of an iron superstructure, and should an iron superstructure be constructed here later same should be placed one foot higher than the present bridge and the south abutment when rebuilt be placed 15 feet farther back giving so much greater span.

The petition of the undersigned inhabitants of the Township of Bell in said county of Clearfield, Penna. respectfully sheweth that a bridge is much wanted over the West Branch of the Susquehanna River, near the Joseph Campbell hill where the main road leading from New Washington to the river road from Mahaffey to Burnside crosses said river, the ford there being very deep and frequently rendered impassable by reason of ice and high water.

That the school district for that part of Bell township lies on both sides of said river at the point aforesaid, making impossible for children living south of said river to attend the public school which is on the north side, except when the river is frozen over solid or is passable by horse.

That the expense of erecting said bridge would be burdensome upon the inhabitants of said Township and more than is reasonable they should bear. Your petitioners therefore pray the Court to appoint proper persons to view the place proposed for said bridge and inquire whether such bridge is necessary and would be too expensive for the said Township to bear, and report to next term of Court.

Now May 2nd 1904 Petition read and considered and J. W. Stephenson, W. J. Hoffer and C. K. Shirey are appointed to view location for proposed bridge and make report to next term of Court. By the Court,

12 July 1904 Petition filed

The petition of the undersigned citizens of Brady Township, Cleyfield Co., Pa. respectfully represents:—

That they labor under great inconvenience for want of a change in the public highways of the village of Stanley; That owing to the construction of the two railroads, the Buffalo Rochesternd Pittsburg Railroad and the Susquehannand Southern Railroad through the village of Stanley, the highways as at present located are inconvenient, burdensome and dangerous, as follows: First, the road commencing at the turn of the Sykesville road at the point where the road turns to the north toward D^r Bois in the said village of Stanley, the highway as at present located

are inconvenient, burdensome and dangerous, as follows: First, the road commencing at the turn of the Sykesville road at the point where the road turns to the north toward D^r Bois in the said village of Stanley, at the point marked "D" on the attached plot, and ending where the said highway or cross road intersects the Helvetia road just Southeast of the village of Stanley, at the point marked "C" on attached plot, near the first small bridge South of said railroads; Second the short piece of road commencing in the said Helvetia road in the village of Stanley near the tenement house of the Rochester & Pittsburg Coalnd Iron Company, occupied by J. N. McIntyre near windmill, at the point marked "B" on attached plot, and ending in the said D^r Bois road a little northwest of the village of Stanley, at or near twelve rods above the S. S. R. R. under crossing at the point marked "C" on attached plot. These should both be vacated, and a new highway opened between the said two railroads, commencing in the public highway in the village of Stanley known as the Helvetia road, near the dwelling house occupied by J. N. McIntyre near windmill, at the point marked "B" on attached plot, and ending in D^r Bois road near the under crossing of S. S. R. R. and north of the point where the D^r Bois road intersects the Sykesville road in the village of Stanley, at the point marked "A" on attached plot.

Your petitioners therefore pray for the appointment of Viewers to view and layout the road last described, and to vacate the two pieces of highway first above described.

Now 12 July 1904 The within petition read and considered thereupon Harry Byers, James G. Kuntznd Louis Schoch are hereby appointed viewers to view vacate & supply said roads and report at next term. By the Court.

 and for a continuance of said road from his residence to the public road and through
 lands of John Cole and others. After determining the proper position for said road
 and that said road was necessary, your Viewers were able to prevail upon the
 contending parties for and against this road to make settlement, which
 settlement is shown in this report under clause for release of damages.
 This matter being satisfactorily adjusted and the road being in our judgment
 necessary we respectfully recommend that a 16 foot road connecting points

we, the undersigned, viewers appointed to view, vacate and supply, according to law, a portion of the Township Road leading from Olanta to Stoutzdale, lying in the town of Boardman, Knot Township, pray to report as follows to wit:-
That having given due and timely notice of said view according to law, to the Commissioners of Clearfield County, to the supervisor of the said Township, to the property holders adjacent the proposed change; and to the public by numerous notices posted at various points in the Township. That on the 5th Nov. 1904, the date set forth in notices, your viewers met on the ground at the place appointed, and having been affirmed according to law, evidence of which is attached, proceeded to view and survey the portion of road to be vacated, and to view and survey the portion of road to be supplied: That we find by the erection of the numerous dwelling houses, stores, etc.: of the town of Boardman and by the probable further erection of some, that the present road as located does not serve the population living in the said town of Boardman, and that its present location is burdensome:- That the new road as laid out by your viewers will so serve said population, and meets with their approval, and your viewers could learn of no opposition to or remonstrance against the proposed vacating and supplying said road as petitioned. your viewers would respectfully recommend the vacating of that portion of said public road lying in the town of Boardman, and described as follows Beginning at a pine stump in the edge of the driveway, 650 feet Northeastly from the "Cox Barn" and running thence the following courses and distances:- S. 39 1/2° E. 300 feet to post, thence S. 20 1/2° E. 350 feet to post, thence S. 1° E. 400 feet to post, thence S. 15 1/2° E. 268 feet to post, thence S. 44° E. 118 feet to post in road opposite the south end of a log stable, And furthermore, your viewers would recommend the supplying of the following described public road, as being on a fair grade, the distance not excessive, and the expense of building not large, there being no clearing or grubbing to be done, the ground smooth land, but only small culvert to be built. Beginning at the same point as for the road to be vacated. Thence S. 43° E. 296 feet to post, thence S. 37° E. 513 feet to post, in new road surveyed July 19th 1904, and reported favorably, and running thence to as far as said new road extends, and farther S. 56° W. 392 feet to post, thence S. 35° E. 403 feet to post, thence S. 35° E. 139 feet to post described as end of road to be vacated, being 1743 feet in length, or excepting the part above referred to as surveyed July 19th 1904, 1493 feet to be built.

On the 1st day of Dec. as set forth in the notices surveyed, your Viewers met as appointed and being duly sworn or affirmed proceeded to view for said road.

Your Viewers would respectfully report that they found covering the entire distance for which the public road has been petitioned (about 2 1/2 miles) a private road in good condition which is the only outlet of a number of farms and the only road to the Mt. Carmel School House. This road lays on high dry ground and has a good grade. It should require little expense to open it for the public use and should be easy to keep in repair. No objections were offered on the day of the view to the opening of this road. Your viewers would therefore respectfully recommend that the road be granted.

We, the undersigned inspectors for a public bridge over Wilson Run at Newburg, Penna., having called upon the Engineer in charge (Mr. E. W. Hess), Mr. Guy Tozier, President of the Council of Newburg, and Mr. Frank Worell, a workman engaged in the building of the bridge, also having acquainted ourselves with the plans and specifications of said bridge and having visited and inspected the same, tender the following report.

On Saturday the 7th day of December A. D. 1907, two of your inspectors met at the time and place as notified, and made preparations for the inspection, by thawing the frost from structure and continued the inspection until the arrival of the third inspector, some time later, whereupon your inspectors were affirmed and proceeded to inspect the structure, and inquire as to its fabrication.

After examining same and ascertaining the method of construction, your inspectors find that the structure was not finished in a workmanlike manner, and the specifications were violated as follows:-

1st. The forms were made of rough unplanned lumber, the joints not being smooth, and the concrete not in true, straight lines.

2nd. The exposed faces did not have a uniform smooth finish. The "wash" coat having scaled and shelled off in places.

3rd. The exposed corners were not rounded.

4th. The wire netting around bottom flanges of I beams was not $\frac{3}{16}$ wire, but $\frac{1}{32}$ wire. ("Chicken wire.")

5th. The concrete, after thawing, was found to be soft and crumbling, and to be composed of cement, sand, loam, dirt, gravel (creek) bark and twigs. No limestone was found in the mixture. The proportions used in this mixture, as stated by Mr. Guy Tozier, President of the Council, and Mr. Frank Worell, workman were as follows:

3 sacks cement, 2 wheelbarrow loads washed gravel, ($1\frac{1}{2}$ bu. each.), 5 wheelbarrow loads unwashed sand, gravel, loam, etc. scooped up from the bank and bed of creek, and that no limestone whatever was used.

Upon investigation we found that the gravel and sand was taken from the banks and bed of Chest Creek which runs near by.

6th. That I beams were not punched to receive the transverse reinforcing rods.

7th. The transverse rods were laid on the top flanges of the I beams and the longitudinal rods placed on top of the transverse.

8th. These rods were not tied together with wire as specified.

9th. There is but $2\frac{1}{2}$ inches of concrete over the topmost rods, and 4 inches over the top flanges of the I beams.

10th. The handrails were not painted white, but were black.

Witness our hands this 8th day of December A. D. 1907.

The petition of the undersigned citizens of the Twp. of Pike, in said county, respectfully represents;

That a road has long since been laid out leading from the borough of Clearfield to the borough of Curwensville, passing through the townships of Lawrence and Pike, known as the river road. That a part of said road, within the bounds of Pike Township, about one mile in length, of the width of sixteen feet more or less, and extending from a point, the line between Lawrence and Pike Townships, near the site of the old Schuans mill, and between the tracks of the B. & P. Ry. and the west branch of the Susquehanna river, to a point in Pike township opposite the barn of Jefferson Bloom,

has become dangerous and inconvenient, owing to the constant passing of trains and its proximity to the river, and expensive and burdensome to the taxpayers of said township to maintain. Your petitioners further represent that a safe and convenient road has already been opened up and is in use as directed and ordered by your Honorable Court (vide No. 3 Sept. sess 1892)

Your petitioners therefore pray the Court that the said part of road, to wit; from township line near old Schuans mill to a point in said road opposite the barn of Jefferson Bloom may be vacated agreeably to the Act of Assembly in such case made and provided.

respectfully represents.

J. S. McCreery (2834) 12.80
J. C. Barclay (2836) 4.80
W. P. Norpster (2837) 7.60

That a bridge is much wanted over
the Susquehanna River at the village of Curry Run, where
the main public road leading from Curry Run to
Marion post office by the way of Robert Ross crosses
the Susquehanna River; that the fording is frequently
rendered impassable by reason of the ice and high water
and that it is greatly needed for the travel of the public
and the expense of erecting said bridge would be burdensome
upon the inhabitants of said township and more that it is
reasonable that they should bear, your petitioners
pray your Honor to appoint Viewers to view same.
and they will ever pray, etc.

We the undersigned appointed by the annexed order do report. That in pursuance thereof after having been severally sworn or affirmed, all the viewers appointed by said order, viewed the ground proposed for the within mentioned road, and we do agree that there is occasion for a road as desired by the petitioners, and that the same is necessary for a public road, And having had respect to the shortest distance and the best ground for such road. We have laid out in such manner as shall, in our opinion, do the least injury to private property, and as far as practicable agreeably to the desire, of the petitioners, and do return for public use the following described road, to wit: Beginning at a point at the public road leading from the S.S. Mott farm to the Carpenterway road, near J. M. Davidson's barn, thence N. 56 $\frac{1}{2}$ ° post, thence N. 1 $\frac{1}{2}$ ° E., 257 ft. to a post, thence N. 21 $\frac{1}{2}$ ° E. 380 ft. to a post on Woodlands of Esther Magee, thence N. 23° E. 565 feet to a post, thence N. 33 $\frac{1}{2}$ ° E. 538 ft. to a post, thence N. 4 $\frac{1}{2}$ ° N. 221 ft. to a post, thence N. 1 $\frac{1}{2}$ ° N. 1345 ft. to a post, thence N. 34 $\frac{1}{2}$ ° N. 662 ft. to a post on Woodlands of Austin Beatty, thence N. 4 $\frac{1}{2}$ ° N. 1335 ft. to a post, on woodlands of James Magee, thence N. 7 $\frac{1}{2}$ ° N. 298 feet to a post, thence N. 26 $\frac{1}{2}$ ° N. 162 ft. to a Corn, thence N. 7° N. 130 ft. to a post, thence N. 20° E. 378 ft. to a post, on Woodlands of Joseph young, thence N. 26° E. 492 ft. to a Chestnut, thence N. 26 $\frac{1}{2}$ ° E. 318 ft. to a post, thence N. 20° E. 545 ft. to a post, thence N. 29 $\frac{1}{2}$ ° E. 211 ft. to a post, on improved lands of Reuben Rupert, thence N. 7 $\frac{1}{2}$ ° E. 490 ft. to a post, at the East end of Whiskey Run Bridge in the Village of Newtonburg. We further report that there are no damages accruing to any of the owners of the lands through which said road passes, except Reuben Rupert, by reason of the opening of said road, and therefore, having taken into consideration the advantages as well as the disadvantages to be derived to the said Reuben Rupert, from the road passing through his land, we have assessed the damages sustained by the said Reuben Rupert, at \$15.00. before the said view public, notice of the time and place of the meeting of the viewers was given by advertisements put up in the vicinity, of said road, and also having given due notice to the Supervisors of Bell Township, the County Commissioners and the owners of land through which said road passes, of the time and place of said meeting. (The notice served upon the Supervisors, Co. Commissioners and property owners, with the affidavit of Austin Beatty, as to service of same having been attached to the former report, cannot be attached hereto) And we annex a plot or draft of said road laid out, stating the courses & distances, and noticing briefly the improvements through which the same passes.

The petition of the undersigned inhabitants of the Borough of Iroona, Clearfield County Penna. respectfully sheweth, that a bridge is much wanted over North Witmer Run, at the place where the new public highway crosses the same in the borough aforesaid, the said bridge being necessary at that point on the new road opened from the school-house in the village of Wister to the P. & N. W. R. R. station in said borough. The said bridge is wholly within the said borough and the expense of erecting said bridge will be too heavy and burdensome upon the inhabitants of said borough, that the said bridge is largely for the convenience of non-residents of said borough, and it is not reasonable said borough should bear the whole of said expense. They therefore pray that Viewers be appointed to view same and make report to Court. and they will ever pray.

Now Feb'y. 22. 1905 C. B. Alexander of Clearfield, Joseph Delahunt of Stoutzdale and A. J. Fry of Utahville are appointed viewers as prayed for. to make report to May 22. 1905 said report to include length of span of bridge amount of probable stone work and excavation and estimate of as to costs of each so that the Court and Grand Jury can act intelligently in passing on the necessity. etc.

We the undersigned Viewers appointed by the within order of Court to view for the bridge therein mentioned, respectfully report that we gave good & lawful notice of said bridge view and met agreeable thereto and having been severally sworn or affirmed, we viewed the location at sight proposed for said bridge and roads leading thereto and have found that the bridge petitioned for is required for a crossing over North Witmer Run at a point where a new road recently granted crosses same also replacing a private bridge at some point, said private bridge being now entirely gone. In your Viewers opinion this bridge is a necessary adjunct to said new public road and should be granted. Said bridge should be of iron construction placed on well built abutments, have a span of 56 feet and be placed at 8 feet above low water. And further the construction thereof would cost more than is reasonable that the said Borough of Iroona should bear. your viewers would therefore respectfully recommend that in the construction of this bridge that the within mentioned County of Clearfield supply the iron work or superstructure and the erection thereof and that the within mentioned Boro. of Iroona construct the necessary abutments and prepare the approaches.

Sept. 9. 1905 We approve the foregoing report and find that the Bridge is necessary and too expensive for the Borough to build. We furthermore recommend that the County furnish the Iron or Superstructure thereof and also pay for the erection thereof and that the Borough construct the abutments and prepare the approaches as set forth in this report.

Sept. 22. 1905 - The within Report is approved & the finding of the Grand Jury that the Bridge is necessary and to be built by the Borough of Iroona is approved. the County to build the superstructure only is recommended.

We, the undersigned viewers appointed to view to vacate public road herein mentioned, respectfully report that we gave good and lawful notice of said view to the County Commissioners of Clearfield County, to the District Commissioner of New Washington Boro., to the Supervisors of Burnside and Chest Townships, to citizens living along said road, and notices were posted all according to law. Copies of said notices to view with acceptance of service being herewith attached and made part of this report. On the 29th day of June, 1905, your viewers met agreeable to said notices, and being severally affirmed proceeded to, receive testimony, survey and view to vacate said road.

Your viewers found this road to be in very bad condition, appearing to have been abandoned for travel for some time, and that it could only be repaired and made fit for use at great expense. On the portion of the road which we viewed for vacation we found only one citizen living on or near said road. This person being Mr John Haag who having another outlet was agreeable to the vacation.

14 Sept. 1905 Petition filed

The petition of the undersigned inhabitants of and property holders in the Township of Sandy, Clearfield County, respectfully represents:

That, in pursuance of proceedings had in this Court at No. 4 February Sess. 1894, a public road was laid out, opened, and is now in use in the said Sandy Township, from a point on the Jefferson County line in the Town of Stalls Creek, on the northerly side of the Allegheny Valley Railroad, and running thence, by various courses and distances, approximately parallel with said railroad, to a point on the bank of Clear Run, in the Western boundary line of the Borough of DuBois, and near the Hildrupp Mine, and

that a portion of said road, to wit: that portion thereof lying between a point about 100 feet East of Slab Run, and a point about 100 feet West from the first run, or brook, crossing said public road, at a distance of about 1800 feet, East of Slab Run, (and which said brook is located in the first ravine East of the Coal mine now operated by the Stalls Creek Coal Company) is burdensome and inconvenient, for the reason that the grades upon the portion of said road above described are heavy and excessive, and for the further reason that a coal mine is now being operated on the Northern side of said road and the coal is being taken out therefrom, and hauled and carried across said road at grade, in order that the same may be shipped by railroad.

Your petitioners further represent that better grades and location for said public road may be had, if the portion thereof between the points above described were changed, and located at the base of the hill, parallel with the northern boundary line of the right of way of the Allegheny Valley Railroad; and that if the said public road be so changed in location, the crossing thereof at grade in transporting the coal from the mines adjacent to said road, to points of shipment on the railroads, may be avoided. And the owners of the adjoining premises have agreed to waive all claim for damages, in case the location of the portion of the road above described be changed as above set forth. Your petitioner, therefore, pray the Court that the location of the portion of the said road between the points above described be changed in the manner as hereinabove set forth, and that the portion of the present road so changed and supplied, shall be vacated, and that the Court shall appoint viewers, and make such further orders in the premises as it shall deem proper.

On Monday, October 23rd, A.D. 1905, your viewers met as appointed and being severally affirmed, proceeded to receive testimony and to view for public road as herein mentioned. Your viewers would respectfully report that: - 1st. This proposed road seems desirable because a number of citizens living along its proposed location have no convenient public outlet. 2nd. It provides a convenient and desirable change of location for the proposed new state road to be built in this section. The location of the present public road on the opposite side of the ravine, while necessary in its location for the convenience of citizens living thereon, is undesirable for much traffic because of the travel being interfered with by several railroad crossings and a trolley line. 3rd. No damages are asked for necessary roadway and Mr. John W. Dahl, one of the property holders benefitted has agreed to assist without cost in the drainage of swampy proportions of the proposed road. 4th. All township officials and citizens present at time of view were in favor of this road being granted. Your viewers would therefore respectfully recommend that this road be granted beginning at a point in end of the present public road near the lower Winburne School House and running thence N. 17-35 W. 1129.5 ft. to a point in Denner Avenue, thence by said Avenue N 3-00 E 820.5 ft. to a point on the N.Y.C. & H. We, the undersigned Viewers for vacation of Public Road herein mentioned respectfully report that we gave good and lawful notice of said view to the County Commissioners of Clearfield County, to the Supervisors of Lawrence Township, and to property holders along route of said view, and notices were posted in vicinity of view, all according to law. Copies of notices with signatures are herewith attached. On Tuesday, October 24th A. D. 1905, your Viewers met as appointed and being severally sworn, or affirmed, proceeded to receive testimony and to view to vacate Public Road as herein mentioned. Your viewers found this road to be and for some years has been practically abandoned by travel, although the road is still passable. There are two nearly parallel roads one on each side of this road and within a distance of a mile and one-half, not of such good grade, but through more settled districts, by which travellers can reach approximately the same points. The Supervisors of Lawrence Twp. allege that they have now too many roads in their township to keep them all in good condition, hence they desire to abandon this one which seems at present to be of little, if any use. Very little attention was given this view by the citizens of Lawrence Twp. and no one was present to make any protest against vacating said road. For the above stated reasons your Viewers would therefore respectfully recommend that this road be vacated: Beginning at a point on the road leading from Cld. to Lily Bridge, thence S. 30-0 W. 193' to point; thence S. 55-45 W. 501.5' to point; thence S. 59-45 W. 143' to point; thence S. 79-20 W. 470' to point; thence N. 82-25 W. 685' to point; thence N. 73-55 W. 443' to point; thence N. 75-30 W. 333' to point; thence N. 85-10 W. 280' to point; thence N. 80-45 W. 224.8' to point; N. 85-50 W. 720.8' to point; S. 87-20 W. 180' to point; N. 77-35 W. 258.7' to point; thence S. 87-50 W. 159.5' to point; thence S. 75-45 W. 347.6' to point; thence S. 79-45 W. 289.3' to point; thence S. 50-45 W. 448' to point, thence S. 29-20 W. 211' to point; thence S. 51-45 W. 174.6' to point; thence S. 34-0 W. 274' to point; thence S. 0-45 W. 263' to point; thence S. 6-45 E. 228.7' to point; thence S. 10-35 E. 329' to point; thence S. 12-30 E. 158' to point; thence S. 28-30 E. 293.2' to point, thence S. 39-45 E. 74' to point; thence S. 29-0 E. 326' to point; thence S. 4-15 E. 37' to point junction with public road leading from Clearfield and Clover Hill School House to Wm. Sandy Township

No. 2 December Term, 1905

Your viewers have found that the conditions of the crossing of the public road over the Tramway of the Falls Creek Coal Company to be unfavorable to the safe and convenient passage of the travelling public, and that a convenient road of equally good grade under the coal tipple has been substituted to the aforementioned coal company. Further Mr. W. J. Leakey, Agent for Mr. A. C. Hopkins, President of the Falls Creek Coal Co., agreed before your Viewers that should the bents of the coal tipple between which the new road passes be at any time found inconvenient or too narrow for the safe and convenient passage of the travelling public, the coal company would agree to widen the bents at this point a reasonable distance, on demand of the Supervisors of Sandy Township. (The present distance between these bents is 14 feet.).

Further, Mr. Leakey, acting for Mr. Hopkins of the Coal Co. agrees to turn the new road over to Sandy Township without condition other than the vacation of the "old road", the road way of which is understood to revert to Mr. W. C. Hopkins through whose lands the road passed.

These adjustments being satisfactory to the Supervisors of Sandy Twp., to Mr. Herron, Esq. representing the citizens of Sandy Twp., and to Mr. Leakey, Agent for Mr. A. C. Hopkins, your viewers would respectfully recommend that the old road beginning at a point 1460 feet South from the bridge over Slab Run and running thence S. 29-30 E. 852 feet to a point at junction of new road, be vacated, and that new road running under coal tipple beginning at 1st named point also a junction of the new and old roads and running thence S. 10-15 E. 168 ft., Thence S 15-15 E 344 feet to a point; Thence S. 46-00 E. 184 feet to a point; Thence S. 53-10 E. 207 feet to previously named junction point of old road - all being 33 feet wide be substituted or supplied.

Providing Mr. A. C. Hopkins or said Falls Creek Coal Co. will waive all claims for cost for building said new road and widening tipple bents if necessary and furnish gratis the necessary 33 feet of roadway required for the said new road as promised and agreed, the vacated strip of roadway to revert to Mr. A. C. Hopkins the original owner. A plot of these roads is herewith attached and made a part of this report. Witness our hands this 27 day of October A. D. 1905.

On Saturday the 20th January 1906 your Viewers met as appointed and being legally affirmed, proceeded to receive testimony and to view for said bridge. The bridge desired is required to replace an old wooden structure now unfit for heavy travel. It is located on a well traveled Public Road, used as a mail road.

The physical conditions for building a bridge at this point are good, and further the Supervisors of Bloom Twp. are willing to build the abutments if the County will supply the superstructure. your Viewers have also noted that proper timber for bridge building purposes is scarce in this locality.

No opposition was offered to the rebuilding of this bridge on day of view your Viewers believe the petition for this bridge is just and therefore recommend that a new bridge be built at this point of a length of 32 feet and width of 16 feet. We the undersigned Viewers for Public Bridge herein mentioned respectfully report that we gave good and lawful notice of said View to the County Commissioners of Clearfield County to the Supervisor of Lawrence Twp and notices were posted all according to law Copies of said notices with signatures accepting service are herewith attached. On Monday the 23rd of April A.D. 1906 your Viewers met as appointed and being sworn proceeded to receive testimony and to view said bridge. Your Viewers found that the bridge desired is required to replace a wooden bridge too light for heavy travel, and the good material now in this bridge is needed to repair an older wooden bridge now unfit for travel located several hundred yards farther up the stream Your Viewers understand that the Supervisors of Lawrence Twp are willing to build the abutments required for this bridge if the County will supply the superstructure No opposition was offered to the building of this bridge by Citizens on day of View Your Viewers believe the building of this bridge to be a necessary improvement and would therefore recommend that the aforesaid County of Clearfield supply iron superstructure for said bridge 36 feet long and of 16 feet width roadway and to be set seven feet above low water, and that the Township of Lawrence supply the necessary abutments. A Plot or Draft showing the location of the proposed bridge is herewith attached.

On April the 24th AD 1906 as per notices given your Viewers met as appointed and being severally affirmed proceeded to receive testimony and to View for public road as herein mentioned your Viewers have found the grade along the route proposed for this public road to be excessive and to exceed that required by law. These grades could not be overcome without greater expense than we believe is justifiable and that Ferguson Township would be willing to bear. Your Viewers do not therefore feel justified in recommending a public road. Witness Our Hands this 3rd day of May AD 1906

To the Honorable Allison O. Smith, President Judge of the Court of Quarter Sessions of Clearfield County, Pennsylvania.

We the undersigned Viewers for Public Road herein mentioned respectfully report that we gave good and lawful notice of said view to the County Commissioners of Clearfield County to the Supervisors of Cooper Twp., to the property owners along route of said view and notices were posted in the vicinity of view. Copies of notices with signatures are herewith attached.

On July 24th 1906 as per notices given your Viewers met as appointed and being severally affirmed, proceeded to receive testimony and to view for said Public Road.

Your Viewers have found this proposed road as shown on the map attached and made a part of this report to be largely on the streets of the Village of Grass Flat and will accommodate a number of citizens living thereon and adjacent. The road can be built on a reasonably good grade and with no part being of excessive cost to construct.

No objections to granting this road was offered your Viewers at place and time of view. Your Viewers believe this road will be of use to the community for which it is petitioned and to the public equivalent to or greater than the cost of construction and would therefore recommend it as petitioned and laid out, viz:- Beginning at a point near A. F. Kelley's Store at Grass Flat in Public Road leading from Rybertown to Peale; Thence by a street N. 4-30 E. 715' to a point at intersection of said street with Clearfield Street; Thence S. 85-30 E. 2000' by Clearfield Street to a point; Thence S. 71-00 E. 443' to a point; Thence S. 73-00 E. 292' to a point; Thence S. 78-10 E. 313' to a point; Thence S. 71-00 E. 451' to a point near Moravian Drift on road leading from Peale to Cooper Settlement.

Should it be desirable to widen this road to its full width of 33' on the 30' street on which it located in part, your Viewers would recommend that 1-1/2' be added to each side of said street with-out damages, as we believe the placing of this public road will be of value to abutting properties greater than the damage done.

To the Honorable Allison O. Smith, President Judge of the Court of Quarter Sessions of Clearfield County, Pennsylvania

We, the undersigned Viewers for Public Road herein mentioned, respectfully report that we gave good and lawful notice of said view to the County Commissioners of Clearfield County, to the Supervisors of Cooper Twp. to property owners along route of said view and notices were posted in the vicinity of view. Copies of notices with signatures are herewith attached.

On July 24th 1906 as per notices given your Viewers met as appointed and being severally affirmed, proceeded to receive testimony and to view for said Public Road.

Your Viewers have found that the proposed road, except for a distance of six hundred and sixty feet lying within a street in the Village of Grass Flat overlaps a view for Public Road already granted by Viewers (See No. 1 Sept. Sessions 1906). The expense of constructing this 660 feet of road at a reasonable grade will not be excessive. The petition for this road was supported by a large number of signers, and will apparently be a convenience to a number of citizens. No objection was made at place and time of view to granting this road in conjunction with the longer road which overlaps (No. 1 Sept Sessions 1906.)

Your Viewers would therefore recommend this road as petitioned, Beginning at a point in the Public Road leading from Clymer to Peale at or near the William Kramer Store, leading thence N. 4-30 E. 660' or --- Street to a point in Clearfield Street and thence by same courses and distances as view No. 1 Sept. To the Honorable Allison O. Smith, President Judge of the Court of Quarter Sessions of Clearfield County:

We, the undersigned viewers appointed by the within order of court to view and lay out the road herein mentioned respectfully report. That we gave lawful notice of the said road view and meet agreeable thereto, and having been severally sworn or affirmed, we viewed the place where the road was proposed to be laid out, and considering the small number of taxpayers benefited, and the fact that there is now a public road running parallel with the proposed road at an average distance of less than 100 rods, and that partitioners are at present provided with a private road, which appears to be agreeable to the owners of land through which said private road passes. That the first part of the proposed road is through a swamp separate and a part from the private road now in use, and that the road would be of use only to the said taxpayers, and not much to the general public, and that it would be an expensive road to make, we are of opinion that the same is not necessary for a public road, and therefore report against laying out a public road as within prayed for. It seems to be the general opinion of the taxpayers, in the vicinity of this proposed public road, that the parties residing along the present private road should be allowed to apply their road tax on the same, we believe. The Supervisors concur in this opinion as well as those who oppose a public road. We believe this a fair proposition as the situation now exists, and if legal we recommend that your Honor grant the said parties this privilege. Witness our hands this 30th day of Nov. 1906.

G. J. Goes (Viewer)

A. E. Gearhart (Viewer)

To the Hon. etc. etc. The undersigned viewer appointed by within order of Court being present at view with other viewers, as stated in their report, is of opinion that a road should be laid out as prayed for in petition. Beginning at starting point named in annexed order thence S. 5° W. about 100 pch. to old road now in use thence by said road and Public Road to point named as end of road in said order to view, which road is necessary for a public road in opinion of the undersigned viewer. Said road would be about 100 rods in length and would accommodate travel to some clay mines and be used to seven families living near it. Witness my hand this 31st day of November A. D. 1906

The petition of the undersigned, inhabitants of the Township of Brady, in the County of Clearfield respectfully represents;

That a public road has long since been laid out beginning at a point in a public road leading from the David Reams Homestead to and past the Schindeler School House or and near the mouth of Bickel Run, running in a southwesterly direction and ending at a public road near the East Branch of Mahoning Creek, all of said road running through the lands of David Reams which road has become useless, inconvenient and burdensome.

your petitioners therefore pray the Court to inquire of and vacate said road and for that purpose to appoint three persons qualified according to law, to view said road and inquire of the premises.

Sept. 10th 1906 the within petition presented and thereupon Geo. C. Kirk George B. McClellan, and J. M. Coellethwait are appointed viewers to view said road and report to next term. By the Court

The petition of the undersigned citizens and tax payers of Lawrence Twp. respectfully represents:-
 That there has long since been laid out for the use as a public road a certain road in said Township, starting at an old black smith shop on the line of the public road on the Amos Reed Farm; thence running in a southerly direction to the intersection thereof with the old Erie Pike, being about $1\frac{1}{4}$ miles in length; that said road is inconvenient, useless & burdensome, that it is of no public benefit and should be vacated. They therefore pray that Viewers be appointed to report to the Court as to the propriety of vacation said road.

Now 15th Sept. 1906 petition presented and Harry Byers, Miles R. Porter and D. R. Woolridge are appointed Viewers to consider the proposed vacation and report at next term.

To The Honorable Allison O. Smith President Judge of the Court of Quarter Sessions of Clearfield County, Pa.

We, the undersigned viewers appointed by the within order of Court to view and vacate the road therein mentioned respectfully report that we gave good and lawful notice of the said view and met agreeable thereto to all being present and having been severally sworn or affirmed we viewed the said road and find that several owners of land abutting thereon object to vacating the same, that it is shorter road from Portersburg vicinity to river at Hyde & Clearfield that it is a fairly good grade being a better grade than the old Pike which would have to take its place if vacated, that it is traveled to considerable extent and apparently costs little for repairs and is in right good condition for travel, that two private roads lead to it from Sloss Blooms and Nehemiah McCracken's and these would be useless if said road were vacated. We therefore report against vacating the same and are of opinion that the said road has not become useless inconvenient and burdensome and should therefore not be vacated. 26 April 1907 Confirmed absolutely. By the Court.

We the undersigned Viewers appointed as per attached order to view road in Knot
 Township from point at Matthew Owens to a point at or near Daniel Barnett's
 line. Having served and posted notices as required by law, met as per
 notices and having been affirmed proceeded to examine the location proposed
 and heard all the testimony available, decided that a road as proposed
 would be too burdensome for the taxpayers to construct and maintain
 for all the use such a road would be to the traveling public, but we
 recognize the need of an outlet for W. L. Rowles & Warren Dunlap, who
 at present have no way of getting away from their own premises without
 becoming trespassers. We therefore recommend that a private road
 be granted as per the following notes and draft attached the same being
 a part of our report. Beginning at line of Chase estate, by private lanes 71°
 N. 68° 8' to line between W. B. Dunlap and W. L. Rowles (at N. 45° E) N 75° W 329
 3.77° 30' N 177 to Dunlap Water Trough, N 82° 30' W 638 to Matthew Owens line along
 same N 22 1/2° W 77', thence S 62° W 500 to end of public road at M. Owens residence
 And we would further recommend that if in your Honor Power under the
 law, that a private road, be granted according to above survey, without
 further expense of petition by the parties aggrieved.

Nov. 22 1906. Petition filed

The petition of the Borough of D^uBois by its Town Council, respectfully represents:

That under and by virtue of the corporate authority conferred upon the said Borough of D^uBois by the laws of this Commonwealth, it has erected and constructed a system of water works for the supplying of water to its inhabitants and citizens, as well as other parties to which it can sell water; that in constructing and operating said water system it became necessary to appropriate the waters of what is known as the stream of Anderson's Creek in Union Township, Clearfield Co., Penna., and for that purpose it built a large storage reservoir on said Anderson Creek, on what was formerly known as the "Bailey Dam", which said storage reservoir covers a large territory of land.

That prior to or about the time of the construction of said reservoir, a public Road was laid out across and through said reservoir and opened for public use, being the road to No. 1879 that by reason of the construction of said Reservoir a portion of said public road has become occupied and covered by the water of said Reservoir; that your petitioner has laid out and proposes to construct a public road around said Reservoir, viz; beginning below the property of Rich Laborde, below the fence line at the point shown in the road; thence to extend north 77° 30' N. 350 ft. to a post; thence N. 55° N. 250 ft. to a post; thence N. 44° N. 500 ft. to a post; thence N. 11° 35' E. 350 ft. to a post; thence N. 38° 30' E. 850 ft. to a post in the public road leading what is known as the "Chandler Dam" and being the Chandler Dam Road. A map or plan of which road is hereto attached as well as a map showing the location of the present road, the location of the reservoir, as vacated by the said road and the proposed road around; that the road proposed to be constructed by the Borough of D^uBois will be built in a good and substantial manner and in accordance with the recommendations of their engineer which is as follows: The right of way to be obtained is 33 ft. wide and the graded road bed, exclusive of the necessary side slopes should be 14 feet throughout; the roadway to be stumped and the sides so brushed so as to leave no branches hanging over the roadway. The road to be graded to a fairly even grade and crowned in the centre so as to shed water freely.

Whatever necessary drains shall be put across the road so as to carry the water off the upper side. Whatever runs are crossed, proper bridges will be constructed and the entire outlay for the construction of said road is estimated at about \$800.00 as against \$500.00 as spent by the Township of Union constructing the entire length of the original road; that the said road as laid out will put it above the flow line of the present reservoir as now existing or as hereafter may exist; that the distance will be only 2500 feet.

The road that is desired to be vacated is 3100 feet long and the road which it is proposed to replace it is 3737½ ft. long; that along said road there are but two pieces of property owned jointly by Richard Laborde and Mr. Parrish. No other citizens are located along the line of said road; that the said Borough of D^uBois will provide the right of way and pay all expenses necessary for the construction of said road; your petitioners therefore pray the Court to approve the proposed change of road and the mode of construction so that the said Borough of D^uBois can go on and build said road as provided by law, and they will ever pray.

Nov. 22 1906 Petition presented and Monday Dec. 3 1906 in the forenoon was filed for the hearing. Notice of this order to be given to Twp. of Union and the property owners affected by the proposed change. By the Court.

offered objections to this road, namely Mr. ~~Evans~~ ^{Evans} representing the Morgan Estate through which property a portion of the proposed road would pass. Mr. Evans stated that the Morgan heirs did not want this proposed road to pass through their lands and claimed that the placing of this road through their property would cause them damages to the amount of \$400.00.

As the Morgan Est. has been allowed \$100.00 damages by previous view, we, your present Viewers, believe this said amount is ample payment for any damages that may occur to the Morgan Est. by opening this road.

Your Viewers have further examined the proposed location of said road and believe same is reasonably well placed with reference to cost of construction convenience of the public and grades.

Your Viewers believe further that the proposed road is a necessity and will be a great convenience to the citizens of that neighborhood and the public, and would therefore endorse the report of the previous Viewers granting said road, and as no other damages were asked, would recommend that the amount specified be paid the Morgan Est. and no other damages will be allowed. road a passable travelled road of good grade and on the remainder of the distance the road as desired was located on a good grade mostly through cleared fields. No claims for damages were made and your Viewers believe that the benefits of this new road would be of more value to the land-owners concerned than the ground occupied by said road and assess no damages.

Regarding that part of view to vacate adjacent public road, your Viewers have found this road to have a very steep grade and not much travelled, however your Viewers have found a citizen residing on this piece of road and some objection has been made to its vacation. Your Viewers would therefore not recommend the immediate closing of this road, but would suggest that should the new road be opened and prove satisfactory to the travelling public, that this hilly piece of road be later vacated, except a short distance necessary as an outlet for the above mentioned resident.

Your Viewers would then recommend that said new road be opened as follows: Beginning at top of hill at corner of Wm Wilson's field on road leading from Pleasant Valley to Shiloh; thence S. 66° 55' E. 837 ft.; thence S. 63° 35' E. 337 ft.; thence S. 62° 30' E. 569 ft.; thence S. 63° 50' E. 459 ft.; thence S. 61° 30' E. 335 ft.; thence S. 68° 15' E. 715 feet; thence N. 86° 30' E. 383 ft.; thence S. 80° E. 257 ft.; thence S. 71° 15' E. 392 ft.; thence S. 75° 30' E. 170 ft.; thence S. 40° E. 284 ft.; thence S. 60° 35' E. 277 ft.; thence S. 54° E. 256 ft.; thence S. 69° 10' E. 261 ft.; thence S. 54° 45' E. 240 ft.; thence S. 40° 45' E. 472 ft.; thence S. 30° 30' E. 220 ft.; thence S. 27° 45' E. 277 ft.; thence S. 6° E. 162; thence S. 6° 15' W. 155 ft.; thence S. 8° 15' W. 234 ft. to a point about 30 rods west of Fletcher Shirey's dwelling house on public road leading from Shiloh to Woodland.

Supplementary Report of Road View in Bradford Twp. Clearfield Co.,
To the Hon. Allison O. Smith, President Judge of the Court of
Quarter Sessions of Clearfield County, Pa.

We the undersigned Viewers to whom the within mentioned road view previously made on Nov. 19 1906 was referred by agreements attached and Court order do report that notices were given to the County Commissioners of Clearfield County, to the Supervisors of Bradford Twp., and to W. H. Wilson as per agreement and Court Order. Notices of view were also served on other parties who might be interested and notices of view were also posted along route of said view.

Robert Boyd, one of the previous viewers on within road and reappointed for the review, was substituted for by James Savage per second agreement and Court order as attached, he, Robert Boyd being out of the County on date set for this review. Copies of notices served and signed are herewith attached and made a part of this report.

This review being made relative to the assessment of damages that may result from proposed Public Road to W. H. Wilson, your Viewers met as appointed on Thursday the 15th of July, 1907, and after being affirmed and the said W. H. Wilson being present, proceeded with the examination and hearing for possible damages if any. Your Viewers after consideration of said matter and the benefits

and damages to Mr. Wilson of the proposed road have decided that Mr. W. H. Wilson is entitled to damages to the amount of thirty five (35) dollars.

Your Viewers also believe it to be proper and equitable to allow to Mr. Ed. Shirey and to Mr. W. M. M^r. Dowell whose properties are also affected the sum of ten (10) dollars each, and so we recommend.

Public Bridge in Bloom Township. Continued from page 523. No. 2. Feb. ss. 1906.

Dec. 16, 1907 petition for appointment of inspectors filed.
Now Dec. 16, 1907 petition presented and thereupon J. C. Evans, R. H. Thompson, and Leander Denning are appointed inspectors of said bridge over Hooley Run in Bloom Township. Said inspectors shall have power to call upon the engineer in charge of said bridge for the County and any and all persons in a position to throw light on the construction thereof and make report to the Court at February Sessions, 1908.
By the Court.

Dec 24 1907 Report filed
July 28 1908 Approved By the Court.

We the undersigned inspectors for a public bridge over Hooley Run near Gramfian, Pa., having called upon Engineer in Charge, (Mr. E. W. Hess) and Mr. Cyrus A. Woods, Supervisor of Bloom Twp. and having acquainted ourselves with the plans and specifications of said bridge and having visited and inspected the same, and being duly affirmed, tender the following report:

On Monday, the 23rd day of December, A. D. 1907, your inspectors met at the time and place specified and after thawing the frost from the structure, proceeded with the inspection.

After examining same and ascertaining the method of construction, your inspectors find that the structure was in fair condition, both as to workmanship and material, and that the specifications were violated in the following details.

- 1st. The wire netting around the bottom flanges of the I beams was not $\frac{3}{16}$ " wire but $\frac{1}{32}$ " wire. (Chicken wire.)
- 2nd. The I beams were not drilled to receive the reinforcing rods.
- 3rd. The transverse rods were laid on top of the I beams and the longitudinal rods laid on top of the transverse.
- 4th. There is but $2\frac{1}{2}$ inches of concrete on top of the topmost rods, and 4 inches over the top flanges of the I beams.
- 5th. The hand rails are not painted white.
- 6th. The contractor did not notify the Engineer in Charge, that he intended to start erection so that an inspector could be on the ground.

We find that due to these breaches of specifications, that the contractor was benefited by the amount of \$25.00 and recommend that this amount be deducted from their bill.

parapet walls on the wing walls and the back walls having interfered with the erection of the superstructure and the erectors of the superstructure having spawled off some of the parapet walls and back walls, left it in an unworkmanlike condition. We therefore recommend that the contractor for the substructure square off said walls and finish them in ~~an~~ a workmanlike manner, on account of his placing said walls before the superstructure was in place, against the advice of the engineer in charge, and further recommend that the sum of \$50⁰⁰ be retained from the amount due him until said repairs are made.

This interference of substructure and superstructure could have been avoided if the inspector in charge had been permitted to serve continuously during the progress of the work as stated in the contract.

Owing to the condition of the river, it was not feasible to investigate the depth of the footing courses, but having placed the engineer in charge on his oath, accepted the distances given by him upon his plans and notes as correct, to the best of his knowledge and ability, and having checked the quantities of same recommend that the amount due the contractor for the quantities called for be tendered him, ~~except~~ the aforesaid \$50⁰⁰.

all as required.

We also find that new white oak flooring, similar to that on the rest of the bridge has been supplied, not only for the one new panel, but where needed.

We also find that the steelwork of the whole bridge has been newly painted by the contractor.

We find that for some reason, not apparent to us that the flooring at the east end of the bridge as laid is about three (3) inches above the dirt wall, while at the west end the dirt wall has been built about three inches above the floor of the bridge.

Mr. John Hurd citizen, living near by agreed to place planks so as to repair these defects as far as possible, we being unable at the time to place the responsibility for such bad construction.

With the above exception we find the superstructure to be as contracted for.

Regarding the new masonry abutment we find the dimensions of the neat work above ground to be of full size.

The character of the stone masonry is good, large stone being used, all well placed, all well up to the specifications. The pointing of the joints has been well done, but is not as neat and straight as it might be, this of course will not affect the stability of the work.

The concrete masonry as exposed looks very well and so far as we could examine, very good.

As to the depth of foundation below the water, we naturally could not discover this, but have the statement of the engineer under whose direction the work was done, that it was to the depth required and as shown on the blueprint section plan attached.

Concrete masonry was used for the footing course as called for, and also for the next two feet higher in place of stone masonry, but as it is fully as good construction as the stone would have been, we could find no reason for raising objections.

This change was made with the approval of the engineer in charge of the work.

In conclusion we would respectfully report that in our judgment the contract has been carried out fully as required by the specifications and such plans as form part of the contract.

In witness whereof we have hereunto set our hands and seals this 2nd day of December, A. D. 1908.

E. W. Hess.

A. D. Orner

J. S. Chaplin.

In addition to the above we would most respectfully state, regarding the general condition of the bridge, that in our opinion the increasing the span by one-seventh of its total length cannot help but reduce its ultimate strength, and that the superstructure should be inspected frequently and that the connections be tightened up so that each member shall sustain its proper load. Also that it would be wise to place signs warning against fast driving.

We would also recommend that at the west or new abutment some twenty feet of timber cribbing be built from the upstream wing to connect with a long line of cribbing now extending up-stream.

Also, in looking over the east or old abutment we find that the stream has now to some extent, undermined the front of this abutment and that if not attended to in the near future the masonry may fail in a manner similar to the destruction of the west abutment.

CREEK

To avoid this there should be placed say some twenty cubic yards of heavy stone
up rap about the front and upstream wing of this abutment
