To the Honorable, the judges within: We the undersigned, appointed by the annexed order do report; That in pursuance thereof, after having been duly sworn according to law, all the viewers appointed by said order, viewed the grounds proposed for the within mentioned road, and we do agree that at there is occasion for a road as desired by the petitioners, and that the same is necessary for a public road. And having had respect to the shortest distance and the best grounds for such road, we have laid out in such manner as shall, in our opinion do the least damage to private property, and as far as practicable agreeably to the desire of the petitioners, and do return for public use the following described road, to wit:—

Beginning at a Stone in the public road, at the Rumbarger School house; thence South Seventy eight Degrees East, thirty two perches to a Maple tree; thence South Eighty nine Degrees East thirty three perches to a Post on the bridge across the ~~Penit~~ river; thence South Fifty eight Degrees East, eighteen perches, to a Pine stump; thence South Seventy nine Degrees East, Twenty seven and a half perches to a Hemlock, (dead) thence South Eighty eight and a fourth Degrees East, one hundred and one perches to a Post in public road leading from Mr. Shaffers to J. Rumbargers, and near John Shaffers. We further report that we have made careful inquiry as to any damages that may arise from the opening of said road, do find that there are no damages claimed by any one through whose lands the road passes, except to James Dixon, and therefore, having taken into consideration the advantages to be derived to the said James Dixon from the road passing through his lands, we have assessed the damages sustained by the said James Dixon, at Ten dollars. We further report, that before the said view, public notice of the time and place of the meeting of the viewers was given by advertisements put up at three of the most public places in the vicinity - ten days before said meeting. We also annex a plot or draft of said road laid out, stating the courses and distances, and noticing briefly the improvements through which the same passes.

Witness our hands and seals the Sixteenth day of September A. D. 1872.
